

Jerry Brown, Governor

STATE CLEARINGHOUSE

**SUMMARY
OF
POSTINGS**

September 1 – 15, 2015

STATE CLEARINGHOUSE SUMMARY OF POSTINGS

The State Clearinghouse distributes draft environmental documents to state agencies for review and comment, pursuant to the California Environmental Quality Act (CEQA). The State Clearinghouse also acts as the State Single Point of Contact for the review of federal grant applications and federal development projects. This Summary of Postings summarizes the environmental documents and federal grant applications received by the Clearinghouse during the period **September 1 – 15, 2015**.

CLEARINGHOUSE CONTACTS

Please contact The State Clearinghouse if you have any questions regarding processing of environmental documents or grant applications. We may be reached at:

Telephone: (916) 445-0613
Fax: (916) 323-3018
e-mail: state.clearinghouse@opr.ca.gov
website: www.opr.ca.gov

Questions regarding federal grant notices should be directed to **Sheila Brown**.

Questions regarding processing of environmental documents should be directed to:

Scott Morgan
Director

CLEARINGHOUSE MAILING ADDRESS

The mailing address is:

USPS:

State Clearinghouse
P.O. Box 3044
Sacramento, CA 95812-3044

OR

USPS/Courier Service / Hand Deliveries:

State Clearinghouse
1400 Tenth Street, Room 113
Sacramento, CA 95814

INFORMATION AVAILABLE ON-LINE

The CEQA Statute and Guidelines are available through the Natural Resources Agency's website at:

<http://ceres.ca.gov/ceqa/>.

The State Clearinghouse Handbook, which contains all of our environmental document and grant processing procedures and forms, is available on our website.

Environmental Document Filings with the State Clearinghouse 1999-2014

All CEQA documents filed with the State Clearinghouse are available for viewing on the internet at <http://www.ceqanet.ca.gov>

2015092005	<p>Conditional Use Permit 2015 - Capital Cultivators LLC - Meat Processing Facility Turlock, City of --Stanislaus</p> <p>To construct an ~100,000 sf state-of-the-art meat processing facility on an ~10.3 acre parcel located at 307 Dianne Drive. The facility will focus on transparency, safe and wholesome meat production for wholesale and retail markets, and the humane handling/processing of livestock. The existing residence on the property will remain. The facility will operate from 5 a.m. to 9 p.m. Monday through Friday. Deliveries will occur 24 hours a day. Live animals will be housed in an ~17,700 sf covered and enclosed pen, with curtains and ventilated upper half that can be opened when it is hot for ventilation and closed in cold weather to retain heat.</p>	CON	09/11/2015
2015092004	<p>Cana Partners Tentative Parcel Map (TPM15-0001) Butte County Chico--Butte</p> <p>The applicant is requesting a Tentative Parcel Map with a Parcel Map Waiver to subdivide 120.15 acres into three lots: 40.02 acres (Parcel 1), 40.1 acres (Parcel 2), and 40.02 acres (Parcel 3).</p>	MND	09/30/2015
2015092006	<p>Dry Creek Oaks Subdivision Galt, City of Galt--Sacramento</p> <p>The proposed project is comprised of the following five components: 27.5-acre active senior single-family residential component (202 lots); 13.5-acre commercial/professional office component; 7.1-acre senior apartment component (96 units); 8.0-acre assisted living and Alzheimer's facility; and 15.9-acre natural open space component and a 4.4-acre drainage pond. In addition, all necessary circulation and utilities improvements are proposed.</p>	MND	09/30/2015
2015092008	<p>Use of Copper to Control Algae and Aquatic Vegetation in Redwood Shores Lagoon Redwood City Redwood City--San Mateo</p> <p>The use of copper to treat algae and aquatic weeds within Redwood Shores Lagoon. Redwood City is preparing this Initial Study/MND to meet requirements of 1) The State Implementation Plan (SIP) Section 5.3 and 2) NPDES Permit #CAG990005.</p>	MND	10/01/2015
2015092001	<p>Mark West Creek Crossing Sonoma County Water Agency Santa Rosa--Sonoma</p> <p>The proposed project would abandon and replace a section of the Russian River Cotati Intertie as it crosses through Mark West Creek, which is a tributary to the Russian River.</p> <p>It is anticipated that the Russian River-Cotati Intertie would be temporarily out of service to connect the new pipeline. The Water Agency would provide advanced notification of water service interruptions (at least 24 hours) to affected water uses in the service area. Service interruption would not last more than 48 hours, and are not anticipated to occur more than two times throughout Project construction.</p>	NOP	09/30/2015

2015091002	Housing Element 2015 Update (GPA 15-003) Tulare County --Tulare State law recognizes the vital role local governments play in the supply and affordability of housing. Each governing body (City Council or Board of Supervisors) of a local government in California is required to adopt a comprehensive, long-term general plan for the physical development of the city, city and county, or county. The housing element is one of the seven mandated elements of the local general plan. Housing element law, enacted in 1969, mandates the local governments adequately plan to meet the existing and projected housing needs of all economic segments of the community.	Neg	09/30/2015
2015092002	PA-1500127 (SA) San Joaquin County Stockton--San Joaquin A Site Approval application expansion of an existing agricultural chemical sales facility. The expansion includes construction of two 160 sf storage containers, a 112 sf shade canopy, a 416 sf metal carport, a 1,081 sf metal carport, a 500 sf control room, six urea dissolving tanks, two water storage tanks, and two propane tanks.	Neg	09/30/2015

2015071072	Proposed Amended Rule 1110.2 - Emissions from Gaseous- and Liquid-Fueled Engines South Coast Air Quality Management District Diamond Bar--Los Angeles Note: Reference SCH# 2010051042 The proposed project affects all stationary and portable engines over 50 rated brake horsepower within the SCAQMD jurisdiction. Rule 1110.2 limits NOx, VOC, and CO emissions from the combustion of gaseous- and liquid-fueled engines. Under PAR 1110.2, biogas-fired engines would have additional time to comply with the rule's emission limits. Additionally, limits will be placed on the number of breakdowns and emissions during breakdown events for all engines. Other minor changes are proposed for clarity and consistency throughout the rule. The Initial Study identifies the following environmental topic area that may be adversely affected by the proposed project: air quality and greenhouse gas emissions. Impacts to this environmental area will be further analyzed in the Draft Subsequent EA.	SEA	10/16/2015

2015098004	Magalia Forest Health Management Plan Paradise Irrigation District --Butte The purpose of the plan is to determine the options available to maintain a healthy watershed on Paradise Irrigation District property.	NOE	
2015098005	Little Butte Creek Forest Health Project Phase II Paradise Irrigation District --Butte The project is to restore Little Butte Creek's watershed health and provide improved wildland fire safety by enhancing the forest ecosystem and water shed protection by thinning densely, overstocked trees and brush. The project is a partnership between Paradise Irrigation Distirct, Butte County Fire Safe Council, and the Sierra Nevada Conservancy.	NOE	
2015098006	Tiburon Shoreline Erosion Repairs Sewerage Agency of Southern Marin Tiburon--Marin The project would repair eroding rip rap along the shoreline at McKegney Park in Tiburon with rip rap placement above the mean high water line along small stretches where it is the most needed to protect a highly used public trail on the waterfront and a Sewerage Agency of Southern Marin (SASM) sewer main. Erosion sites would be repaired by removing remnant rip rap, placing or repairing geotextile fabric as needed, replacing existing rip rap, and adding additional rip rap to achieve stability. Repairs would be made within SASM's existing maintenance easement on Town of Tiburon land on a total of 520 linear feet of shoreline.	NOE	
2015098007	California Aqueduct Reach 6 (MP 144.16-MP 154.12) Erosion Repairs Water Resources, Department of --Fresno DWR's SLFD will repair erosion sites along the Aqueduct embankment in Reach 6. The site will be backfilled with the eroded material, about 20 cy of fill would come from existing SLFD spoil piles. Each backfilled site will be re-contoured to pre-erosion Aqueduct embankment conditions. State Water Project users will benefit.	NOE	
2015098009	Souza Dairy (EG-13-030) - Ordinance Adoption Elk Grove, City of Elk Grove--Sacramento The Souza Dairy Project includes a Large Lot Tentative Subdivision Map to create a total of 45 large area lots. The Project also includes a Small Lot Tentative Subdivision Map, which will create a total of 1,162 lots, consisting of 1,094 residential lots at varying densities: 11 large lots for future high-density residential, commercial, and mixed-use developments; one (1) school site; * park lots; and various drainage, detention, landscape, light rail/bus rapid transit, and parkway lots all collectively on approximately 375 acres.	NOE	
2015098010	Halfway Road Parcel Map (EG-14-034) Elk Grove, City of Elk Grove--Sacramento The Halfway Road Parcel Map PProject (Project) consists of a Rezone to change the zoning designation from Agricultural Residential 5-acre minimum (AR-5) to Agricultural Residential 2-acre minimum (AR-2), and a Tentative Parcel Map to subdivide a 9.95-acre parcel into four parcels consisting of 2.54 acres, 2.59 acres, 2.39 acres, and 2.43 acres, respectively.	NOE

	access roads, and stormwater drainage features. The site is currently undeveloped. The project proposes to amend the City's General Plan, changing the land use designation on the northern half of the site from Business Park to Commercial Retail and from Business Park to Highest Density Residential on the southerly half of the site.		
2015062034	Crystal Lake Family Alumni Camp and Environmental Education Center University of California Truckee--Nevada, Placer UC Davis proposes to construct and operate an alumni family camp/environmental education center and conference center on the 210-acre Crystal Lake property south of Interstate 80 between the Yuba Gap and Eagle Lakes freeway exits in Nevada County. The camp and education center would serve a population of up to 350 campers with 70 staff. The conference center would serve as an event venue for professional social gatherings for up to 50 people for a total population of ~470 people during peak periods. The mountainous geography of the property and nearby areas consist of steep mountains peaks, heavily forested vegetation, areas of open granite outcroppings, and streams, rivers, and lakes serving to drain and impound water from snow and rainfall. The proposed project will necessitate pre-construction vegetation removal and initial management as well as long-term operational vegetation management to reduce fire hazards, clear areas for building sites, prevent invasive species, maintain existing species, and enhance the user experience. Construction of the following types of camp facilities would be included in the proposed camp: dining hall (~17,000 sf); lodge, (~10,000 sf), sleeping pods (80 sleeping cabins and 7 restroom/shower buildings for campers and staff), swimming pool, craft center, caretaker's house and equipment building, and amphitheater, developed recreation facilities, registration building, utility and infrastructure buildings, informal recreation trails, and a lake recreation beach and dock area.	EIR	10/16/2015
2011101024	Merced South 115 kV South Transmission Line and Substation Project Merced Irrigation District Merced, Madera--Merced FYI Final MID plans to build approximately 14 miles of 115 kV transmission lines, a new 230/115 kV substation, and 0.7 miles of 230 kV transmission lines to connect existing MID 115 kV lines on SR 99 west of the City of Merced to the PG&E Wilson Substation on the southeastern side of the city. The proposed route would follow Franklin Road south to Rice Road, turn east and follow Reilly Road, cross SR 99, follow McHenry Road, turn north, and run along property lines to the substation site on Mission Avenue. The project also includes underground overhead PG&E distribution lines where they conflict with the MID facilities, raising PG&E 230 kV and 115 kV lattice steel towers near Mission Avenue to provide clearance for the MID transmission lines, and undergrounding MID 21 kV lines where crossing PG&E transmission lines. 	plans that would include three to four bedrooms and a two-car garage, accessed from the front of each unit. All lots would include private outdoor areas in the rear and side yards, and some of the lots would include expanded side yard areas. The private outdoor areas included on each lot would be protected by a 6 ft tall fence with gated access along the side yard. The proposed Project also includes development of a private neighborhood park located near the entrance to the residential community.		
2015092007	Redwood Marine Terminal II, Coastal Development Permit / Conditional Use Permit Humboldt Bay Harbor --Humboldt A Coastal Development Permit for renovation of existing facilities and infrastructure on the project site; these renovations will not expand the facility capacity. Renovations include: new roofing, building siding and access doors, water, wastewater and fire suppression system upgrades, electrical upgrades, and upgraded security fencing. Additionally, a Conditional Use Permit for short term industrial tenant approval until the Humboldt Bay Area Plan can be amended to allow a broader range of industrial uses.	MND	10/01/2015
2015092009	Digital Freeway Sign at 2140 Freeway Drive Woodland, City of Woodland--Yolo The proposed Project is an application for a CUP for the installation and operation of a double-sided digital freeway sign at 2140 Freeway Drive (#PLNG14-00062). The digital freeway sign would utilize digital message technology and may include one or more dynamic digital display areas.	MND	10/01/2015
2015092011	Woodland Motors Digital Freeway Sign Woodland, City of Woodland--Yolo The proposed Project is an application for a CUP for the installation and operation of a digital freeway sign between 2138 East Main Street and 2340 East Main Street (#PLNG14-00089). The location would be adjacent to the new Woodland Motors location.	MND	10/01/2015
2015092013	Shops At Austin Creek Santa Rosa, City of Santa Rosa--Sonoma Proposed retail center consisting of 43,206 sf of general retail and business service uses arranged in four buildings with on-site parking, pedestrian connections, and preservation and utilization of on-site natural resources. The site is located in the Northeast quadrant of the City of Santa Rosa, northwest of the signalized intersection of Sonoma Highway (State Highway 12) and Calistoga Road. The site is of gentle slope in a south to north direction, and relatively flat from east to west. The site is moderately vegetated. Austin Creek forms from the property's northern boundary. A drainage swale, crossing the site from east to west is considered jurisdictional wetland by the Army Corps of Engineers.	MND	10/01/2015
2015091003	SunWest Project Los Angeles, City of Los Angeles, City of--Los Angeles Note: Refer to Revised NOP submitted 09/29/2015.	NOP	

The Project includes demolition of the existing 26,457 sf commercial/retail building

2015032042	Del Puerto Creek Sediment Removal Project Water Resources, Department of Patterson--Stanislaus CDFW has executed Streambed Alteration Agreement no. 1600-2015-0055-R4, pursuant to section 1602 of the fish and game code to the project applicant, DWR. The project removal of accumulated sediment, bank stabilization and drainage outfall repair within Del Puerto Creek at its intersection with the California Aqueduct. Ongoing sediment removal will take place every other year.	NOD	
2015041035	Tustin Legacy School Facilities Project Tustin Unified School District Tustin--Orange The Approved Project involved development and operation of Legacy Academy, including magnet STEM 6-8 school, magnet STEM 9-12 school, alternative education, and district administrative office on the 40.03-acre Legacy Academy site. Development of Legacy Academy was to occur in multiple phases. TUSD is now proposing a possible switch of Phase II (construction of school facilities serving 6 through 8 students) with Phase III (construction of school facilities serving 9 through 12 students). The District also proposes to shift all site preparation and improvement responsibilities, including implementation of mitigation measures related to site improvements, previously required of the City of Tustin/Developer to the District. All other components of the Approved Project would not change. No modifications to the Heritage K-5 school is proposed.	NOD	
2015062060	Arundo Control and Restoration Project in the Cache Slough Complex Sacramento-San Joaquin Delta Conservancy Dixon--Solano This project aims to control approximately 15 acres of the invasive species, Arundo donax, in the Cache Slough Complex, and, where feasible, establish a diverse mix of native trees, shrubs, grasses and forbs that are adopted to the local wildlife species. This may include restoring riparian areas adjacent to Arundo eradication sites.	NOD	
2015072024	Northstar Basin Retrofit Project (PLN15-00114) Placer County --Placer The project proposes to replace portion of the existing interim storm drain system with a permanent underground treatment system and overflow channel that would discharge excess flows to the West Fork of West Fork of West Martis Creek.	NOD	
2015098014	Inhalation Hazard Shipments: Routes and Stopping Places California Highway Patrol -- This project updates designated safe stopping places for highway commercial vehicle transportation inhalation hazards as required by CA Vehicle Code Division 14.3. Updates are mainly due to the ownership changes and closures of business establishments. The updated lists for carriers to use ensures public safety.	NOE	
2015098015	Leasing of Office Space Toxic Substances Control, Department of Glendale--Los Angeles DTSC proposes to lease 30,000 sq. ft. of existing office space which would house approx. 114 staff, two secured parking spaces and parking spaces for 10 fleet vehicles.	NOE

2015098016	James Property Pond Improvements Project (Project) State Water Resources Control Board Petaluma--Sonoma The project will modify an existing pond located on the Applicant's property. The project will decrease the pond's maximum storage capacity to 20 acre-feet by reducing the pond's spillway height 1.6 feet. The modified spillway will extend 46 feet downstream from the pond. The spillway will be 8 feet wide at the pond's exit and narrow to 3 feet at the downstream end. Two concrete cutoff walls will be constructed to control pond elevation and measure outflow. Roughly 400 cubic yards of material will be excavated during spillway modification. Approx. 8 cubic yards of fill rock will be placed on the outlet sides of the spillway to stabilize the stream channel. Fill rock will extend 46 feet downstream and 3 feet upslope of the stream sides to protect the spillway during high flows.	NOE	
2015098017	June Lake Scrub Seal Caltrans #9 --Mono The purpose of the project is to extend the life of the existing pavement, preventing major repairs in the future.	NOE	
2015098018	SR 190 CIR Caltrans #9 --Inyo The existing pavement will be removed to the subgrade, recycled and put back in place. A thin blanket of new hot mix asphalt (HMA) will be rolled on top of the recycled pavement and shoulder backing will be placed adjacent to the asphalt. The project will extend the life of the existing facility.	NOE	
2015098019	Amargosa Culverts Caltrans #9 --Inyo The culverts will be back-filled with concrete where feasible; this project is proposed since the existing culvert systems are at the end of their service life (estimated in-service date is late 1950's) and in need of replacement. Flooding and over-topping of the highway has occurred, as recently as Dec. 2010.	NOE	
2015098020	Install New Drainage System - 0K050 / 0416000031 Caltrans #4 Hillsborough--San Mateo Repairs to drainage to prevent erosion to San Mateo Creek. The project is to preserve and maintain the safety and integrity of the Highway.	NOE	
2015098021	Student Housing Offices Renovation California State University, Northridge Los Angeles, City of--Los Angeles Project will remodel approx. 11,800 sq. ft. of existing space at the Satellite Student Union Building. Project will consolidate existing Student Housing offices into this renovated space to better serve the students living on the campus of CSU, Northridge.	NOE

2015098025	Planning for the Raw Water Intake & Pump Station Replacement Project Konocti County Water District Clearlake--Lake Planning studies, information collection, environmental documentation, and plans and specifications will be completed in anticipation of a future raw water intake and pump station replacement construction project. The existing intake and pump station has met its useful service life.	NOE	
2015098026	Peters Canyon Channel Maintenance Project Fish & Wildlife #5 Irvine--Orange CDFW has executed Lake and Streambed Alteration Agreement No. 1600-2015-0032-R5, pursuant to Section 1602 of the Fish and Game Code to the County of Orange. Project is limited to stream impacts associated with the Peters Canyon Channel Maintenance Project. The purpose of the project is to improve the stream's flood control capacity, correspondingly reducing the risk of flooding to the surrounding area during major rain events. Excavators, dump trucks, front-end loaders, and hand-held tools will be used within Peters Canyon Wash to routinely perform vegetation clearing and sediment removal within the channel bottom. Vegetation will be routinely removed from the stream bottom with the exception of a 10 foot wide vegetated corridor adjacent to the low flow channel. A 10-foot wide strip of vegetation will be avoided and undisturbed at the channel bottom during each maintenance episode. The 10-foot wide corridor will be a migrating vegetative strip and will allow for the establishment of wetland plant species, and may move position within the channel to follow the patterns of sediment accumulation within the stream. Sediment removal will routinely occur to re-establish as-built conditions.	NOE	
2015098027	Ordinance TC15-015 Tuolumne County --Tuolumne Ordinance (TC15-015) amending Title 15 of the Tuolumne County Ordinance Code to establish expedited procedures for small residential rooftop solar energy systems.	NOE

	<p>footings for the Willow Road Bridge. Hydraulic and scour evaluations indicate that a 100-year flood event would scour the existing footings for the bridge, several of which are known to be located between 1 and 12 feet above non-scourable bedrock. These footings are therefore susceptible to scour below the footings, which could undermine the integrity of the bridge. The proposed project includes two methods to protect the piers at bents 3 through 9. During construction, a temporary road would be created so that construction vehicles can access the underside of the bridge. This road would be to the immediate north of the bridge from Willows Road. Construction is expected to take approximately 7 months. The ground beneath the bridge will be recontoured and revegetated with native species after construction.</p>

	6,000 sf storage building. Phase 2 is the construction of a 720 sf addition to an existing office. The project is located on the south side of Fremont Street, 300 feet east of Gertrude Street, Stockton.		
2013051062	Gaviota Curve Realignment Project Caltrans #5 Goleta--Santa Barbara This 2081 permit is for a Caltrans proposed Project that proposes to realign the existing northbound compound curve with a single radius curve. In addition, the project proposes to widen the existing shoulders along the two northbound lanes. Only one build alternative is feasible at this location since the site is located between the Santa Ynez Mountains to the east, and Pacific Ocean to the west. The project will result in the permanent loss of 1.45 acres of upland habitat and 0.04-acre of potential covered species habitat, and will be compensated by the establishment (creation) of 4.47 acres of coastal scrub habitat along the new alignment of the project and altered Gaviota coastal areas. This is at a rate of three compensation for the temporary loss of 1.48 acres of upland habitat, and 0.07-acre of potential covered species habitat by restoration of 3.30 acres of coastal scrub habitat along the new alignment of the project and altered Gaviota coastal areas. Both the seed and container planting areas are designed to establish coastal scrub. Establishment (creation) of 0.20 acre of purple (valley) needle grassland will be used to compensate for temporary impacts to 0.10 acre (2:1 ratio). The project is expected to result in incidental take of Gaviota tarplant seed bank, which is designated as an endangered species under the Cal Endangered Species Act. The ITP referenced above as issued by CDFW authorizes incidental take of species listed under CESA that may occur as a result of project implementation.	NOD

2015092019	Rezone & Parcel Map Application No. PLN2015-0027 - BMW/KIA Stanislaus County Modesto--Stanislaus This is a request to rezone a 9 acre parcel to Planned Development for the purpose of developing a two car dealerships. Once rezoned the project site will be subdivided to create a total of five parcels, three on the west side of Spyres way. The proposed project will also extend Spyres Way to the existing parcels northern border. Proposed Parcel "1" will construct a 16,000 sf commercial building for a KIA dealership and proposed Parcel "2" will construct a 27,000 sf commercial building for the relocation of Valley BMW. The buildings will both be 25 feet in height. The proposed dealerships will be operated 7 days a week ranging from 7 am - 9 pm on Monday through Saturday and 9 am - 7 pm on Sundays. The applicant anticipates a maximum of 30 employees for the BMW dealership and 20 employees for the KIA dealership. Each dealership will contain an office area, sales storage and service departments. 	PSUSD anticipates that all ACES operations would be moved into the new campus facilities by 2018.		
2013072073	Mather Field General Plan Amendment, Specific Plan Amendment, Zoning Ordinance Amendment Sacramento County Rancho Cordova--Sacramento FYI Final 1 CD A General Plan Amendment to amend the Land Use Diagram from Intensive Industrial (247.5 acres), Low Density Residential (391.8 acres), Public Quasi-Public (2,266 acres), Commercial and Office (3.9 acres) and Recreation (2,468.5 acres) to Extensive Industrial-Aggregate Resources (67.9 acres), Intensive Industrial (693.4 acres), Low Density Residential (392.5 acres), Natural Preserve - Resource Conservation-Protected (1,272 acres), Public Quasi-Public (1,780.2 acres), Recreation (656.1 acres), Commercial and Office (3.0 acres) and Urban Development Area (511.6 acres) for approximately 5,377.6 acres.	FIN	
2015042063	El Dorado County Regional Transportation Plan El Dorado County --El Dorado The proposed project is the adoption and implementation of the El Dorado County 2015-2035 Regional Transportation Plan. The 2035 RTP will update the existing 2010-2030 RTP and will fulfill the state requirements of AB 402 (Government Code Title 7, Chapter 2.5, Sections 65080-65082) using specific guidance from the 2010 California Transportation Commission (CTC) Regional Transportation Plan Guidelines. The RTP is a blueprint for the systematic development of a balanced, comprehensive, multimodal transportation system, including but not limited to: roadways, transit, aviation, goods movement, bikeways, pedestrian facilities, transportation systems management and intelligent transportation systems.	FIN	
2015091009	Zone E Recycled Water System Expansion Santa Margarita Water District Rancho Santa Margarita, Mission Viejo--Orange The project includes the construction of approximately 8,000 feet or 1.5 miles of recycled water pipelines within an SMWD easement, SMWD property, and beneath existing roadways. The pipelines would range in size from 4 to 8 inches, depending on the location. The pipelines would require excavation depths of approximately 5.5 feet within the existing easement and road rights-of-way. Once completed, the maximum anticipated amount of recycled water delivered to the Hidden Ridge and Skyridge communities would be approximately 70 acre-feet per year. The project also includes the construction of approximately 1,300 feet of a 4-inch or smaller force main for future construction of a lift station to serve the Boy Scouts of America camp located on the SMWD Upper Oso Reservoir property.	MND	10/05/2015
2015091011	General Plan Amendment No. 15-005 to Update the Terra Bella Community Plan Tulare County --Tulare The project includes i) a General Plan Amendment to update the Terra Bella Community Plan (GPA15-005), ii) a Zoning Ordinance Amendment to adopt the Mixed-Use Overlay Zone, iii) an Amendment to Section 16 of the Zone Code to allow additional "by-right" uses in the Ducor Urban Development Boundary Area; and iv) adoption of a Complete Streets Policy for the unincorporated community of Terra Bella, Tulare County, California. 2015091012	General Plan Amendment No. 15-008 to Update the Ducor Community Plan Tulare County --Tulare The project includes i) a General Plan Amendment to update the Ducor Community Plan (GPA15-008), ii) a Zoning Ordinance Amendment to adopt the Mixed-Use Overlay Zone, iii) an Amendment to Section 16 of the Zone Code to allow additional "by-right" uses in the Ducor Urban Development Boundary Area; and iv) adoption of a Complete Streets Policy for the unincorporated community of Ducor, Tulare County, California.	MND	10/05/2015
2015091015	Special Use Permit No. PSP 14-034 Tulare County --Tulare Note: Extended Review The applicants are requesting to add five amplified events, annually, to the special events venue that currently operates under special use permit (PSP 02-013). This amendment would supersede PSP 02-013. The Three Rivers Lions Club owns the 5.78-acre property, and, as a charitable organization, they sponsor two of the annual amplified events: Lions Jazz Affair and Lions Roping. These events raise money for the Community of Three Rivers and this amendment is to allow five additional amplified events, which would provide the opportunity for the Lions Club to raise even more money for the community. The existing special use permit does not limit the number of non-amplified special events occurring at the venue. The 2015 schedule (as of 2/18/15) indicates five amplified events and three non-amplified events.	MND	10/20/2015
2015091016	River Vista Public Access Project San Joaquin River Conservancy --Madera The River Vista project proposes one mile trail extending the length of the project area along an existing gravel road. The trail will be approximately 3,800 linear feet in length, eight-feet wide, and allow for hiking and biking. There will be four main natural overlook areas for scenic vistas. One of the overlooks will be located at the southern end of the trail adjacent to a natural overlook areas for scenic vistas. One of the overlooks will be located at the southern end of the trail adjacent to a planned emergency vehicle turnaround. There will also be a 27 vehicle parking lot and two bus/recreational vehicle stalls located within an area that has been previously disturbed by past land uses. The project also includes the removal of the derelict bridge remnants within the San Joaquin River channel. The project has been designed to be a low impact natural trail system.	MND	10/05/2015

<u>Documents Received on Tuesday, September 08, 2015</u>			
2015051042	Interstate 5/La Novia Avenue/Valle Road Intersection Improvements San Juan Capistrano, City of San Juan Capistrano--Orange The project consists of improvements to the intersection of the northbound I-5 entrance and exit ramps at La Novia Avenue and Valle Road. The proposed project is intended to accomplish the following primary objectives: 1) address existing and projected traffic operation deficiencies occurring at the intersection; and 2) improve safety for all modes of transportation (vehicles, bicyclists, and pedestrians) due to existing hazards created by confusing intersection geometry. The existing offset stop controlled intersection currently operates at Level of Service (LOS) F in the PM peak hour, which is deficient according to established City and Caltrans criteria. The proposed project would eliminate the existing offset intersection and replace it with a roundabout intersection that was designed to fit the existing topography and minimize impacts to surrounding uses. The proposed roundabout would have an inscribed circle diameter (ICD) of 150 feet, a landscaped center median, a circulating roadway with a width of 20 feet, and single lane approaches on Valle Road, La Novia Avenue and the I-5 exit and entrance ramps. The I-5 exit ramp would be restriped from two lanes and a non-standard right shoulder to one lane and a standard right shoulder. As such, the proposed roundabout intersection would improve intersection operations and alleviate existing safety concerns in the project area. It should be noted that the proposed improvements would be within existing City of San Juan Capistrano and Caltrans right-of-way (ROW) and no ROW acquisition would be required.	FIN	
2015091017	Miles Buena Vista Carlsbad, City of Carlsbad--San Diego The Miles Buena Vista project is proposing to subdivide a 3.13 acre (gross acreage) site into ten single-family residential lots (Lots 1-10) and one private street/open space lot (Lot 11) for a project density of 3.21 dwelling units per acre based off a net developable acreage of 3.12 acres. Residential dwelling units are not proposed as part of the project at this time, but will include development in the future of ten single-family dwelling units on Lots 1-10 and two second dwelling units on Lots 9 and 10 to satisfy the project's inclusionary housing requirements. The proposed residential lots range in size from 9,500 sf to 15,527 sf. The proposed private street/open space lot is 26,168 sf in size. Seven of the proposed single-family lots will access the site via Buena Vista Way, while the remaining three lots will access the site from McCauley Lane.	MND	10/07/2015

2015098099	<p>Magra Cell Tower Placer County Colfax--Placer</p> <p>The project includes the installation of six Verizon antennas, 6 RRH units, and 1 surge protector to be mounted on an existing wireless tower designed as a monopine. The proposed project will not increase the height of the existing tower. The 26'6" x 10'0" lease area will be located within the existing tower company's lease area, adjacent to the existing on-site underground power and telecommunications utilities, a 30 kw emergency standby diesel generator with a 132 gallon fuel tank, and a coaxial cable ice bridge.</p>	NOE	
2015098100	<p>Heritage Ranch Community Services District Emergency Pipeline Tie-in Project (Streambed Alteration Agreement No. 1600-2015-0079-R4) Fish & Wildlife #4 --San Luis Obispo</p> <p>The Project includes trenching on the banks and horizontal directional drilling under the streambed of the Nacimiento River for the placement of a 4-inch diameter polyethylene water pipe near the Nacimiento Reservoir.</p>	NOE	
2015098101	<p>Wheeler Creek Habitat Improvement Project Regional Water Quality Control Board, Region 6 (Lahontan), South Lake Tahoe --Mono</p> <p>The purpose of the Project is to improve habitat for the bi-state sage grouse through implementation of stream and meadow restoration. Work involves headcut stabilization, biotechnical methods, stream bank reshaping, and new channel creation.</p>	NOE	
2015098102	<p>2015 Annual Stream Channel Maintenance Program in the Dry Creek and Cross Canal Watersheds Placer County Unincorporated--Placer</p> <p>Maintenance of stream channel flow carrying capacity through the removal of dense vegetation and debris in known flood prone areas of unincorporated Placer County. Work will be completed with hand tools only and will include off-site recycling of material at the County material recovery facility. Beneficiaries include the public and Placer County.</p>	NOE	
2015098103	<p>Westside Bike Lanes Galt, City of Galt--Sacramento</p> <p>The installation of bike lanes on West Elm Avenue and Kost Road will eliminate an existing gap, and the installation of a bike lane on New Hope Road will extend existing bike lanes. The bike lanes will provide additional connectivity and complete the corridor. There is no required right of way acquisition needed for this project. The facilities created through this project are bicycle lanes throughout the City. Staging areas for the slurry process may be needed; however, the exact location is unknown at this time. There will be no disposal or borrow sites needed for this project. Throughout the project, efforts will be made to keep at least one lane in each direction open on the affected roadways. However, the project will be staged and not affect all roadways in the City at the same time. Traffic will need to be diverted during the placement and curing of the slurry seal.</p>	NOE

2014041106	Landers Sanitary Landfill Expansion Project San Bernardino County --San Bernardino The County of San Bernardino Solid Waste Management Division (SWMD) is proposing to laterally expand the permitted refuse footprint of the existing 44-acre LSL to approximately 92 acres (adding 48 acres). In addition, the expansion of the permitted refuse footprint, based on the proposed engineering design, would increase the total landfill capacity by approximately 10.9 million cubic yards (cy), which would allow disposal at the landfill to continue until approximately 2072.	EIR	10/23/2015
2015091019	ENV-2015-530-MND / 1255 S. Eiden Avenue Los Angeles, City of --Los Angeles The project proposed is the construction of a seven-story, 77-foot tall building with 93 residential units, including a minimum of 28 units for very low income households, and a minimum 94 parking spaces on two podium parking levels above grade. The proposed project includes a minimum of 12,002 sf of usable open space. The total project size is approximately 141,112 sf of floor area in the Wilshire Community Plan Area, zoned C2-1 and R4-1 with a General Plan Designation of General Commercial and High Medium Residential. The project includes the demolition of one adult day care facility that totals approximately 6,238 sf, and requires the export of 1,300 cubic yards of dirt. The project proposes the removal of nine non-protected trees onsite.	MND	10/08/2015
2015091020	ENV-2015-806-MND / 1250 S. Westmoreland Avenue Los Angeles, City of --Los Angeles The proposed project is the construction of a 93-unit multifamily residential project, including a minimum of 28 units for very low income households, and a minimum of 48 parking spaces on one podium parking level above grade. The project proposed includes the construction of a four-story, 41-foot tall building on the R4-1XL zoned lots, increasing to a seven-story, 77-foot tall building on the C2-1 zoned lots. The proposed project includes a minimum of 8,722 sf of open space. The total project size is approximately 94,508 sf of floor area in the Wilshire Community Plan Area, zoned C2-1 and R4-1XL, with a General Plan Designation of General Commercial and High Medium Residential, respectively. The project includes the demolition of one adult day care facility that totals approximately 9,715 sf, and requires the export of 1,200 cubic yards of dirt. The project proposes the removal of approximately 19 non-protected trees onsite.	MND	10/08/2015
2015091021	Karen Wise & Verizon Wireless Conditional Use Permit DRC2014-00100 San Luis Obispo County Arroyo Grande--San Luis Obispo Request by Karen Wise & Verizon Wireless for a Conditional Use Permit to allow the construction and operation of an unmanned wireless communication facility, consisting of one new 75' tall artificial eucalyptus tree ("mono-eucalyptus") supporting twelve 6' tall panel antennas, twelve new Remote Radio Units (RRUs), and four Raycaps (two located in the equipment area). The PH number antennas would be located in two sectors of six panel antennas each, one sector mounted at a height of 59' and the other at height of 67' (measured to center of antennas) on the proposed mono-eucalyptus. The project also includes installation of two GPS antennas, an electric meter located near the base of the mono-eucalyptus, and new equipment cabinets and a 132 gallon diesel standby generator located on concrete slabs. All proposed above ground improvements will be located within a	MND	10/08/2015

	24' x 24' lease area, surrounded by an 8' high wood fence enclosure. The project involves approximately 350' linear feet of trenching for a new power/telco utility route, with a total project site disturbance of approximately 1,050 sf of a 5-acre parcel.		
2015092024	Rhonda Road Extension Project Anderson, City of Anderson--Shasta The proposed project entails the extension of Rhonda Road from its intersection with Pleasant Hills Drive north to a new intersection with SR 273/Factory Outlets Drive. Associated improvements will include reconstruction of a bicycle/pedestrian path, traffic signals, street lights, new lanes and existing lane modifications, curbs, sidewalks, a sound wall, street lights, and modified drainage systems.	MND	10/08/2015
2015092025	Benbow Dam Removal Project Parks and Recreation, Department of --Humboldt DPR proposes to remove the non-historic Benbow Dam to facilitate fish passage and improve habitat for aquatic species, including Coho, Chinook and Steelhead in the South Fork of the Eel River in Benbow Lake State Recreation Area in southern Humboldt County, northwestern California; approximately 70 road miles south of Eureka and 2 miles south of Garberville, CA.	MND	10/08/2015
2012041009	Downtown Neighborhoods Community Plan, Fulton Corridor Specific Plan, and Downtown Development Code Fresno, City of Fresno--Fresno The City of Fresno intends to introduce and adopt a new downtown Neighborhoods Community Plan (DNCP) for the residential neighborhoods surrounding Downtown and the Fulton corridor Specific Plan (FCSP) for the core of Downtown, a Downtown Development Code that will apply within the boundaries of the DNCP; make amendments to the 2025 City of Fresno General Plan and various Community Plans and repeal various Community and Specific plans necessary to implement the DNCP and FCSP once adopted.	NOP	10/08/2015
2015022059	Lawrence Station Area Plan (LSAP) Program/Project EIR Santa Clara, City of Santa Clara--Santa Clara The LSAP is envisioned for the creation of a transit-oriented development mixed use neighborhood. The cities of Santa Clara and Sunnyvale have been working together towards planning the future of this area. The City of Santa Clara, in combination with the project applicants, plans to revitalize the areas surrounding the Lawrence Caltrain station. Plan- and project-level development efforts are proposed and would require a rezone from light industrial (ML) to Lawrence Station Area Specific Plan Zoning and a General Plan amendment from industrial to Lawrence Station Area Specific Plan. Overall, up to 3,000 dwelling units and approximately 45,000 sf of retail is proposed. The goal is to transform the area into a pedestrian friendly neighborhood, broaden and strengthen the range of transportation choices, and encourage efficient use of available land.	NOP	10/09/2015

2015041025	Glorietta Bay Marina Dock C and Boat Launch Facility Improvements Coronado, City of Coronado--San Diego The project consists of improvements to Dock C and the boat launch facility. The Dock C improvements would include the redevelopment, reconfiguration, and extension of the existing dock system in order to meet current fire and electrical code requirements, as well as ADA and boating design standards. The redeveloped dock system would remain within the pierhead line. The boat launch facility improvements consist of replacing the concrete apron of the boat launch ramp, maintaining the adjacent revetment, replacing and expanding the uses of the adjoining boarding dock with a free public dock and low freeboard floating dock extension for kayaks, paddleboards, and rowing shells.	NOD	
2013108236	County Water Company (CWC) of Riverside Potable Water System Improvement Project Elsinore Valley Municipal Water District Wildomar, Menifee--Riverside The State Water Resources Control Board (SWRCB) is the responsible agency for this project. The SWRCB's Safe Drinking Water State Revolving Fund (SDWSRF) Program is providing state funds for the project. The Elsinore Valley Municipal Water District proposes to construct approximately 4,000 linear feet of 8-inch pipeline to consolidate with County Water Company.	NOE	
2015098128	Minor Discretionary Permit NO. 2015-01 - Turlock REgional TRansit Center Phases 2, Project No. 12-60B Turlock, City of Turlock--Stanislaus The project involves the construction of a 6,000 square foot, single story building, three (3) shade structures totaling approximately 6,800 square feet over existing passenger waiting areas, and a parking lot accommodating seventy-seven vehicles with related paving and landscaping. The purpose is to provide office space for the City's hired bus operator and lobby space for purchase of tickets and restroom and drinking fountain facilities by the users of the transit system.	NOE	
2015098129	1185 Tyndall Street Rip Rap Bank Reinforcement (Streambed Alteration Agreement No. 1600-2015-0074-R5) Fish & Wildlife #5 --Santa Barbara The project consisted of constructing riprap reinforcement along 16-20 feet of the bank of an un-named ephemeral stream tributary to Zanja De Cota Creek. The Permittee, prior to execution of a Streambed Alteration Agreement, had partially completed the project. The purpose of the project is to dissipate energy from water flows coming down off of the proposed driveway prior to entering the stream. After meeting with CDFW staff, the project was changed to require loose cobble and gravel instead of concrete grout in the voids between the riprap, planting of native vegetation, and keying in the riprap. A notification was subsequently submitted for the project.	NOE

	event, a 9/11 memorial stair climb. Teams of firefighters, police officers, military personnel, and civilians will climb 110 floors, the same number as in the Twin Towers, in the name of a fallen emergency responder whose lives were lost on 9/11.		
2015098136	Fleet Week San Diego 2015 (Kickoff Reception) San Diego Unified Port District San Diego--San Diego The proposed project is Fleet Week San Diego 2015 (kickoff Reception), which will take place at Anthony's Star of the Sea Event Center and several other venues located off of District tidelands over from September 5, 2015 through November 14, 2015. The District will provide sponsorship in the form of District funding and services for the Fleet Week events, which are intended to honor and celebrate the men and women of the military.	NOE	
2015098137	Temporary Use Permit to Freetime, Inc., dba Wheel Fun Rentals for Cycle Rentals San Diego Unified Port District Imperial Beach--San Diego The proposed project is a temporary use permit (TUP) to Freetime, Inc., dba Wheel Fun Rentals (Permittee) for their use of approximately 200 square feet of land for providing cycle rentals to the public at the Portwood Pier Plaza in the City of Imperial Beach, California. The area proposed for providing cycle use will be used only and exclusively for the purpose of providing cycle rentals, which include Double Surrey, Single Surrey, Deuce Coupe, Quad Sport, Chopper, Tandem and Cruise bike types to the public and for no other purpose whatsoever without the prior written consent of the Executive Director of District in each instance. The cycles will be displayed along the retaining wall in front of the Pier Plaza playground and a mobile transaction kiosk will be placed in the area adjacent to the "Surfhenge" art sculpture.	NOE	
2015098138	Jimmy's Famous American Tavern Signage San Diego Unified Port District San Diego--San Diego The proposed project includes the removal and replacement of an existing monument sign located at Jimmy's Famous American Tavern located on the Point Loma Marina leasehold in the City of San Diego. The existing monument sign will be salvaged, cut in half, and converted to a wall sign. The proposed wall sign will reuse the existing cabinet of the monument sign and be mounted on the existing restaurant facing North Harbor Drive. The Jimmy's sign currently located on the stairwell facade will be removed.	NOE	
2015098139	Make-A-Wish Tuna Challenge San Diego Unified Port District San Diego--San Diego The proposed project is the Make-A-Wish Tuna Challenge, which will take place at the Silver Gate Yacht Club on Friday, August 28 through Sunday, August 30, 2015. The District will provide sponsorship in the form of District services for the event, a fishing tournament and seminar. Registration for the fishing tournament will be open to the public. Also, the seminar portion of the event will be free and open to the public and will allow anglers and the public to learn about the latest techniques, equipment, and secrets for catching tuna in local San Diego waters. The event will have food, beer, and wine available for purchase.	NOE

Bureau of Indian Affairs --Fresno The subject property consists of eight parcels of land, encompassing approximately 147.00 acres more or less, commonly referred to as Assessor's Parcel Numbers: 300-210-23; 300-032-32, 33, 34;300-380-02,08,19,20. The parcels are contiguous to the Table Mountain Rancheria at the easterly boundary. Currently, the property is limited to five residence and six wells. There is no proposed change in land use.	BIA	10/09/2015
2011101035	Paramount Pictures Master Plan Los Angeles, City of --Los Angeles The Project Site comprises the main studio property of approximately 56 acres (the Main Lot) and six surrounding properties of approximately 6 acres (the Ancillary Lots). The Project includes the redevelopment of portions of the Project Site with new studio-related uses, circulation improvements, parking facilities, and pedestrian-oriented landscaped areas. These improvements would be implemented through the proposed Paramount Pictures Specific Plan. The proposed Specific Plan would allow for the construction of up to approximately 1,922,300 sf of new stage, production office, support, office, and retail uses. With the proposed removal of approximately 536,600 sf of existing uses, this would result in a net increase of approximately 1,385,700 sf of floor area within the Project Site upon completion of the Project.	EIR	10/26/2015
2013091044	8150 Sunset Blvd Mixed-Use Project Los Angeles, City of Los Angeles, City of--Los Angeles The Project Applicant has developed a new Project Alternative (Alternative 9) based on comments received on the 8150 Sunset Boulevard Mixed-Use Project DEIR dated November 20, 2014, the analysis of which as well as other corrections and additions to the DEIR are provided in the Recirculated Portions of the DEIR. As with the Project, Alternative 9 would involve removal of all existing buildings and associated improvements on the Project Site. The development would consist	EIR	11/09/2015

The facility has a recurring problem with bacteriological contamination of the water system. The Division directed the system to install chlorination equipment to mitigate the bacteriological contrmination.	NOE	
2015098163	Fresno State Fire Marshall Office Forestry and Fire Protection, Department of Fresno--Fresno The project consists of leasing office space and making interior renovations so that the office can accommodate eight State Fire Marshall employees. The current State Fire Marshall's office is currently located at 1234 East Shaw Avenue in Fresno. Improvements will include a modification of the kitchen area to meet ADA requirements as well as provide IT equipment space in an adjoining room. The new 3,103 square feet of office space will provide habitable working space for eight Fire Marshalls with eight separate offices, a reception area, conference room and a plan-checking area. Work is anticipated to be completed within 60 days, with an expected move-in date sometime in October 2015.	NOE	
2015098164	Crest Forest Fire Safe Demonstration Site Forestry and Fire Protection, Department of --San Bernardino The Mountain Rim Fire Safe Council's (MRFSC) Crest Forest Fire Safe Demonstration Site Project will assist a homeowner who is in need of defensible space or has received a citation under State (PRC4291) and/or local (San Bernardino County Code Section 23.0304) defensible space clearance requirements by creating defensible space on their property and using the site as a defensible space demonstration site. An open house event will be held by the MRFSC in conjunction with CalFire and local fire departments to provide tours of the property and defensible space information and education. The MRFSC will advertise the event at the MRFSC's public events/meetings, in local newspapers and/or online and send invitations to nearby property owners.	NOE

2015091027	Restoration of West Pond as Mohave tui chub Habitat in Mojave National Reserve National Park Service --San Bernardino The EA analyzes a no action and two action alternatives to restore West Pond as wildlife habitat in Mojave National Preserve. The National Park Service proposes to improve water quality by pumping fresh water into the pond from the nearby well. Raising the pond level will reverse the groundwater flow gradient from West Pond to the aquifer, to overcome the evaporative concentration of the pond water, and improve water quality over time. The second action alternative would add a hose to drain off the overflow and, hopefully, quicken the rate of water quality improvement. The long-term objective is to rehabilitate West Pond to sustain populations of Mohave tui chub, a desert fish species listed as endangered, and Western pond turtle, a California species of special concern.	EA	10/12/2015
2015031054	Hymettus Estates Residential Subdivision Encinitas, City of Encinitas--San Diego The proposed project would involve development of nine single-family residences on the approximate 2.25-acre project site. Streets dedications on Fulvia Street and Hymettus Avenue as well as the private access easements would total about 0.09 acre, resulting in a net developable area of about 2.16 acres. An approximate 0.08-acre portion of the site would serve as a drainage and stormwater treatment basin in the northwest corner of the site.	EIR	10/26/2015
2015051067	Del Mar City Hall/Town Hall Project Del Mar, City of Del Mar--San Diego The City proposes to upgrade and expand the City's administration center (City Hall) to accommodate the existing civic functions within an approximately 9,250-sf City Hall facility, an approximately 3,200-sf Town Hall meeting room that can accommodate up to 150 persons, an approximately 15,000 sf outdoor public plaza, and parking for up to 160 parking spaces. Among the uses proposed within the initial phase of the City Hall development would be the offices, public counters, conference rooms, and restrooms. The Town Hall would accommodate the City Council chambers, community meeting space, and Del Mar TV studio and network offices. Also included in the project is a future expansion of planned City Hall, Town Hall, or plaza or other uses to support public facilities as consistent with the City's Zoning Ordinance. During construction the City operations that currently exist on-site, including the City Hall public functions and City Council and other	EIR	10/26/2015

	committee hearings, will be relocated. The options for the temporary relocation will also be analyzed in the EIR.		
2011012032	Redwood Parkway-Fairgrounds Drive Improvements Solano Transportation Authority Vallejo--Solano Solano Transportation Authority (STA) proposes several roadway improvements along portions of Fairgrounds Drive and Redwood Parkway/Redwood Road within the City of Vallejo. Improvements would include the widening of Fairgrounds Drive, modifications to two existing interchanges, and the signalization of several intersections.	FIN	
2015051017	Canada de San Vicente Land Management Plan Fish & Wildlife #5 --San Diego The purpose of the Plan is to serve as a descriptive inventory of fish, wildlife, plants, and habitat types which occur on the Reserve; provide a guide for appropriate uses of the Reserve; provide a guide for appropriate uses of the Reserve; and provide an overview of and vision for the Reserve's operation, maintenance, and personnel requirements. The primary use of the Reserve will be as protected open space and wildlife habitat, with possible public uses to include hunting, education, and scientific research. Management will focus on maintaining viable populations of sensitive species and their habitats, and on the restoration and enhancement of natural communities within an ecosystem-based framework. Emphasis will be placed on the protection of riparian and wetland areas, restoration and enhancement of native grassland, and the control of noxious weeds.	MND	10/12/2015
2015091024	Rio Park/Larson Field Pathway Project Carmel-by-the-Sea, City of Carmel-by-the-Sea--Monterey The proposed path is a shared-use path suitable for pedestrian and bicycle travel linking Rio Road to Lasuen Drive. The path intersects Rio Road near the northeast corner of Larson Field, where it will "feather" in two directions. The path intersects Lasuen Drive at the Mission Ranch tennis court driveway. The total length of the path is approximately 1,420 feet and its design is presumed to meet Class I bikeway standards, established by the State of California, over most of its length. This includes an 8-foot-wide surface, paved with asphalt, and bordered on each side by a 2-foot strip of turf, earth, or decomposed granite at the same grade as the paving.	MND	10/12/2015
2015091026	2277 Harbor Boulevard Project Costa Mesa, City of Costa Mesa--Orange The 4.15-acre project site is currently occupied by the 236-room (94,500 sf) Costa Mesa Motor Inn motel at 2277 Harbor Boulevard in the General Commercial land use designation and C1 zone (Local Business District). The proposal involves demolishing the existing motel and construction of a four-story, 224-unit luxury apartment project. The project requests a base density of 40 du/acre, and a density incentive for an additional 58 dwelling units to be justified by (a) Provision of a 20 affordable units for moderate-income households, and (b) Complete demolition of the Costa Mesa Motor Inn. Parking will be provided on a five level parking structure containing 503 parking spaces. The project consists of the following discretionary requests: GPA GP-14-04, - Rezone R-14-04, Zoning Code	MND	10/12/2015

	Amendment CO-14-02, Planning Application PA-14-27.		
2015091028	Agoura Park Agoura Hills, City of Agoura Hills--Los Angeles A request to build a 45,000 sf two story fitness facility and a 4,000 sf one story retail/restaurant building on a previously developed property including merging two parcels into one. The request includes removing 2 oak trees and impacting one other. The fitness facility design requires a variance for setback, height, and encroachment into the landscape planter on one of the street frontages. A sign permit is required for the signage on the property along with a variance to increase the maximum allowable size of the primary and secondary signs on one of the buildings.	MND	10/12/2015
2015092033	DR14-0005-S/BLA-0055 Dollar General Georgetown El Dorado County --El Dorado 1. Design review request to allow the construction of a 9,100 sf retail structure and associated improvements; 2. Lot line adjustment-merge request to create one parcel form the three project parcels; 3. Finding of Consistency with General Plan Policy 7.3.3.4 to allow a reduction of the wetland setback from 50 feet to no setback with construction and structures within the required setback to allow the fill of an approximately 0.05 acre wetland; 4. Site clearing and removal of three on-site existing canyon live oak trees, the removal of which would be exempt from the retention standards of General Plan Policy 7.4.4.4 Option A as the project site is greater than an acre and oak canopy covers less than one percent of the site; and 5. An irrevocable offer to dedicate in fee, a 25 foot wide (1/2 width) right-of-way along the entire frontage of Harkness Street or an offer of dedication in the form of an easement for "Road, Slope, Drainage, Pedestrian and Public Utility purposes".	MND	10/12/2015
2015092034	The Lumberyard Mixed Use Development Santa Cruz County --Santa Cruz The proposal is to demolish an existing Lumberyard building and to construct a 9,600 sf commercial, retail building with one commercial condominium unit at the lower floor that includes 3,200 sf of restaurant use and 3,200 sf of retail use and 3,200 sf of office/service commercial use, and eight residential condominium units totaling 9,600 sf at the second and third floor, together with a detached 2,033 sf residential parking structure with eight separate garages, one for each condominium unit. This requires a Commercial Development permit including a Master Occupancy Permit; the approval of a Tentative Map; a Coastal Development Permit; a Height Exception to allow for an increase in height from 35 feet to around 38 feet 4 inches; a Variance to allow for two name signs for the center; Design Review, and the approval of a Parking Plan.	MND	10/12/2015
2015092035	Rickey-Reese Estates Parcel Map (20140162) Placer County --Placer The project proposes a four-lot Parcel Map and partial cancellation of Williamson Act Contract AGP-145. Parcels would range in size from 6.1-acres to 12.3-acres.	MND	10/12/2015

	Westside Road. CDFW is executing a lake and streambed alteration agreement no. 1600-2015-0210-R3 pursuant to section 1602 of the fish and game code to the project applicant, John Nagle representing E. & J. Gallo Winery.		
2015022083	Black Walnut Circle Subdivision Napa, City of Napa--Napa The project is limited to: 1) installing one 12-in diameter corrugated metal storm drain outfall, and approximately 18 sf of rock as associated energy dissipation; 2) installing approximately 200 lf of split rail fence along the top of bank; and 3) implementing a 4,212 sf riparian enhancement plan. CDFW is executing a lake and streambed alteration agreement no. 1600-2014-0278-3 pursuant to section 1602 of the fish and game code to the project applicant, Phillip French.	NOD	
2015052059	Routine Maintenance of Stream Channels and Drainage Facilities Elk Grove, City of Elk Grove--Sacramento CDFW has executed lake and streambed alteration agreement no. 1600-2015-0083-R2, pursuant to section 1602 of the fish and game code to the project applicant, city of elk grove as represented by Brian Fragiao. The project consists of the removal of debris and/or sediment, vegetation, or beaver dams that substantially obstruct water flow and channel capacity for various improved and improved drainage channels throughout Elk Grove. Hand removal at all five locations includes tree limbing and trimming of herbaceous vegetation in the channel and on the banks. Manual removal includes the use of equipment such as weed wackers, chainsaws, trimmers, pruners, and other hand tools. Work will be done during dry season when the channels are dry. All slash created by the weed whacking and/or pruning will be removed from the channel and disposed of outside of Department jurisdictional areas. No riparian or aquatic vegetation will be removed and no work will occur in wetted channels. Mechanical channel maintenance will be performed from existing maintenance roads using a backhoe or long reach excavator. The maintenance activities will not result in alteration to the channel profile as the purpose of these activities is to remove sediment and vegetation that has accumulated and return the channels to their original depth.	NOD	
2015062004	Knights Landing Outfall Gates Project Reclamation District No. 108 --Yolo This proposed project involves the construction of a positive fish barrier on the downstream side of the existing Knights Landing Outfall Gates (KLOG) in the Colusa Basin Drain (CBD), as well as place a small amount of riprap on the right bank of the CBD immediately downstream of the KLOG. The Project will permanently impact 0.01 acres of riparian habitat, and 0.07 acres of riverbank habitat for Sacramento River winter run chinook salmon and giant garter snake, and temporarily impact 0.81 acres of giant garter snake upland habitat. The project is expected to result in incidental take of Sacramento River winter-run Chinook salmon, which is designated as endangered under the CESA, and Central Valley spring-run Chinook salmon and giant garter snake, both designated as threatened species under CESA. The ITP referenced above as issued by CDFW authorizes incidental take of species listed under CESA that may occur as a result of project implementation.	NOD

2015098184	Blacker Water Diversion, Culvert Replacement and Rocked Ford Project (Lake or Streambed Alteration Agreement No. 1600-2015-0124-R1) Fish & Wildlife #1E --Humboldt Project is limited to one spring diversion, a culvert replacement and erosion control with the installation of a rocked ford. The water diversion is located on Unnamed Tributary to the China Creek, tributary to the South Fork Trinity River. Water diverted from the spring is used for irrigation.	NOE	
2015098185	Singer Water Diversion Project (Lake or Streambed Alteration Agreement No. 1600-2015-0086-R1) Fish & Wildlife #1E --Humboldt Project is limited to one existing stream diversion on the Sproul Creek for domestic use and irrigation. The work includes maintenance of the structure for water diversion.	NOE	
2015098186	Sale of Surplus Real Property - APN 049-132-16 Twain Harte Community Services District --Tuolumne The subject property is no longer needed for the purposes or uses of Twain Harte Community Services District and has been declared surplus. The project is to sell or lease the real surplus property.	NOE	
2015098187	Emergency Interconnection of Akin Water Company to City of Porterville State Water Resources Control Board Porterville--Tulare SWRCB is a responsible agency for this project. SWRCB's Safe Drinking Water Proposition 84 Program is providing state funds for the project. The City of Porterville proposes to interconnect Akin Water Company to the City of Porterville with service through a master meter. The Project tasks are the following: 1) install a 480 foot 8" Water Main from E. Yates Avenue on the East Side of S. 4th Street, 2) tie-in to Akin Water Company's existing 3" PVC Line on the South East corner S. 4th Street and E. Lincoln Road, 3) Install Service Connection with a 4" Master Meter and Backflow Preventer.	NOE	
2015098188	Hardwick Water Company Water Supply Project State Water Resources Control Board --Kings SWRCB's Safe Drinking Water State Revolving Fund (SDWSRF) Program will consider the application and for SRF funds for the project. The proposed project includes: construct and develop a replacement well, abandoned the existing well, connect the new well to the distribution system, install piping along roadway.	NOE

2015098189	Tank Farm Reservoir Replacement State Water Resources Control Board --Santa Barbara SWRCB as the responsible agency, has issued a water supply permit amendment. Meiners Oaks' project included the construction of a new 750,000 gallon finished water storage tank, and the destruction and removal of previously existing 500,000 gallon and 250,000 gallon storage tanks.	NOE	
2015098190	Parlin Fork Conservation Camp Water Well Forestry and Fire Protection, Department of --Mendocino This project consists of drilling a well to serve as an emergency water supply for Parlin Fork Conservation Camp. The well will be approx. 200 feet in depth and will be connected to existing power and water supply systems by conduit installed in a 6-inch width by 18-in depth by 250 feet length series of trenches. The well and associated power and water lines will be installed on previously disturbed ground located adjacent to the Parlin Fork Conservation Camp Water Treatment Plant. Vegetation removal will be limited to surface plants & shrubs. Hand labor will be utilized for the trenching process. Soil removed for trenching will be back-filled and the surface covered with soil and/or gravel. A diesel-powered mobile well-drilling apparatus, with associated support vehicles, will be utilized for three to four days for the well drilling. Total project construction time is estimated at approx. 4 days. This project is necessary to insure that Parlin Fork Camp has a viable water supply. The current water system consists of a sub-surface river intake. Water flow to the intake has been diminishing due to the severe CA drought. Further reduction of water flow will force closure of Parlin Fork Camp, greatly impacting CAL FIRE's ability to maintain a force of inmate fire-fighting crews.	NOE	
2015098192	Third Street (Victoria to Palm) Roadway and Infrastructure Improvement Project San Bernardino International Airport Authority Highland--San Bernardino The roadway and infrastructure improvements will consists of constructing the ultimate roadway section between Victoria and Palm. The proposed improvements include: widen the roadway to its full structural section within the existing road right-of-way; install approx. 5,000 feet of new pavement; new curb, gutter and storm drain; and sidewalk improvements. Existing utility lines will be preserved or relocated within the right-of-way and the final step will be to install roadway striping and signage.	NOE

2014082033	Napa Logistics Park Phase II Project American Canyon, City of American Canyon--Napa The proposed project entails subdividing the remaining 176 acres to facilitate the development of industrial uses, infrastructure, and wetland preservation areas (Phase II). Total buildout potential would be 2,271,000 sf of warehouse, distribution, E-commerce and accessory retail/office uses. Actual floor area will vary depending on the design of the individual buildings which may include multiple stories. Building height would vary with a maximum of 100 feet above finished grade. The proposed buildings would consists of concrete tilt-up panel construction. Rail spurs may be provided to serve the proposed buildings.	EIR	10/28/2015
2014082081	Johnson Drive Economic Development Zone Pleasanton, City of Pleasanton--Alameda The City is proposing to implement the first Economic Development Zone (EDZ) concept with a pilot zone within a 40-acre area along Johnson Drive in the city, currently developed with office, commercial, and industrial uses. The EDZ would allow the City to use zoning and land use designations, incentive programs, completed CEQA documentation, and standards and guidelines in order to streamline the development process and encourage investment, adding value to properties within the specified zone. The Supplemental EIR includes some assumptions regarding development that would take place within the EDZ area in the short term ("Phase I," which includes the development of club retail, general retail, and hotel uses) and the long term ("Full Buildout," which includes Phase I as well as the development of additional retail, commercial, and industrial/office uses).	EIR	10/28/2015
2014041034	ENV-2010-482-MND / 5370 N. Mt Royal Drive Los Angeles, City of Los Angeles, City of--Los Angeles Tentative Tract Map to allow an 8-lot single family subdivision including a 34-foot wide ingress/egress private street, in the R1-1 Zone. Zoning Administrator's Adjustment is requested to allow 15-foot front yard setbacks, in lieu of the 20-foot required; a Zoning Administrator's Determination to allow 12 to 14 retaining walls, and have them stand 2 to 18 feet, 6 inches high, in lieu of the maximum of two 10-foot-high (maximum) retaining walls required; to allow grading of more than 1,000 cubic yards, and export of more than 750 cubic yards (grading: 29,782 cubic yards; export 21,265 cubic yards), and a Haul Route.	MND	10/13/2015
2015081048	ENV-2015-1564-MND, CPC-2015-1564-CU-SPR Los Angeles, City of Los Angeles, City of--Los Angeles Note: Recirculation The proposed project is for the construction, use, and maintenance of a new public charter middle school and high school that will function as two separate schools, sharing common space and parking. The facility would be two-stories within 30 feet of height, consisting of approximately 65,900 sf, serving a maximum of 1,050 students on a 74,930 sf site. Two existing single-family dwellings will be demolished as a part of the project. Parking for teachers, students, and visitor will be provided on-site within a one-level subterranean garage with 101 spaces and 17 short-term surface parking spaces will be provided in front of the school for pick-up and drop-off activities. The school proposes to utilize a public address system and bells. Hours of operation are proposed from 7:30 am to 7:30 pm	MND	10/13/2015

2015098200	Driscoll Apple Orchard Site 3 Culvert Replacement Project Fish & Wildlife #3 --San Mateo The project is limited to the replacement of a failing 24-inch by 60-foot long corrugated metal pipe (CMP) culvert with a 36-inch by 80-foot double wall high density polyethylene pipe. The new culvert will be installed at the native stream grade and is sized to accommodate the 100-year flood. A rock energy dissipater composed of 12 tons of 1/2-ton sized riprap will be installed at the outlet, and rock will be installed to replace the existing concrete inlet. The road crossing embankment will be reconstructed with engineered fill.	NOE	
2015098201	Mysen RSP Repair Fish & Wildlife #3 Portola Valley--San Mateo The project is limited to the addition of rock slop protection (RSP) to the toe of an existing failing rock-protected bank. The toe of the bank will be lined with geotextile fabric and approximately 80 tons of boulders ranging from 0.5 to 2 tons will be keyed into the bank. Approximately 90 square feet of nonnative vegetation will be removed from the project area and willow shoots will be planted within the new and existing RSP to help stabilize the bank.	NOE

DTSC has determined as a safety precaution to prevent an accident or severe injury, an emergency permit should be issued to chemically stabilize the hazardous waste prior to transportation off site by CHES. The treatment of the hazardous waste involves the addition of a solvent or water to containers in order to reduce the reactive or ignitable characteristics of the chemicals.

2015091040	<p>Proposed Amended Rule (PAR) 1113 - Architectural Coatings and PAR 314 - Fees for Architectural Coatings South Coast Air Quality Management District --Los Angeles</p> <p>PAR 1113 and PAR 314 affects all architectural coating manufacturers who sell architectural coating into or within the SCAQMD. The purpose of PAR 1113 is to implement, in part, Control Measure CM #2012 CTS-01 - Further VOC Reductions from Architectural Coatings, limit the small container exemption for certain categories, propose new categories with VOC limits and eliminate categories once they are regulated under a different rule, reduce the VOC limit of some architectural coating categories to reflect currently available inventory, clarify rule language, strengthen the enforceability of the rule, and remove and update outdated provisions. PAR 314 would revise some of the rule's definitions, requirements, and exclusions. Specifically, PAR 314 would add a tiered sales fee structure and require architectural coating manufacturers to pay outstanding fees of any acquired architectural coating manufacturer. The environmental analysis in the Draft EA concluded that PAR 1113 and PAR 314 would not generate any significant adverse environmental impacts.</p>	EA	10/14/2015

	construction activities on Yreka Creek include improvements in three areas of the creek identified as the Central Reach, North Reach and South Reach. The improvements to the floodway would be accomplished through the widening of the creek channel and the lowering of the existing area adjacent to the creek, and by providing overflow channels. Additionally, trails and greenways will be developed.		
2015092042	Walmart Expansion Project Clearlake, City of Clearlake--Lake The proposed Walmart Expansion Facility Project includes the expansion and alteration of the existing Walmart store in Clearlake, California. The Project will include the addition of approximately 38,741 sf of building area to the north and west sides of the existing approximately 109,517 sf store, increasing the total floor area to 148,258 sf. The existing 5,777 sf garden center, located along the southwest section of the building, would be removed and replaced with interior building area and a new smaller garden center, containing approximately 3,000 sf, would be added to the northeast portion of the building. For the purpose of providing a conservative evaluation of project impacts, the EIR will analyze the additional sf at 40,000 sf, which is approximately 3% greater than the anticipated expansion sf. The total store sf considered in the EIR would be 149,517 sf.	NOP	10/15/2015
2015091036	Sierra Highway Street Improvements and Pedestrian Bridge Project Santa Clarita, City of Santa Clarita--Los Angeles The proposed pedestrian and bicycle bridge would be constructed to provide pedestrians, bicyclists, and transit users a grade-separated crossing of Sierra Highway (SR 14U) at the intersection with Golden Valley Road. In addition, the proposed project includes the following pedestrian improvements: a new sidewalk along the west side of Sierra Highway from just north of Piazza Di Sarro to Golden Valley Road; "continental crosswalks," which include either ladder or parallel markings; enhanced Americans with Disabilities Act - compliant curb ramp design with detectable warnings (i.e., truncated domes); and signs at the intersection. In addition to pedestrian improvements, the proposed project includes: widening of Sierra Highway north of Golden Valley Road to accommodate a vehicular right turn lane onto Golden Valley Road; modifying traffic signals to allow u-turns on Sierra Highway at Golden Valley Road and Rainbow Glen Drive; restriping; median improvements; installing new streetlights; and landscaping.	Neg	10/14/2015
2015091037	Rockvill Mini and RV/Boat Storage Facility Santee, City of Santee--San Diego The project is a request for a CUP to allow the construction and operation of a mini-storage facility and parking for recreational vehicles (RVs)/boats on a 5.16-acre project site. The project would be constructed in two phases. Phase 1 would include construction of 87,615 sf of mini-storage facilities and a 2,340 sf administrative office space. Exterior parking for 87 RVs/boats would be provided in the internal portion of the project site. Phase 2 would be developed at future date, depending on market conditions and would replace the RV/boat parking area with additional mini-storage facilities. Three additional two-story structures would be constructed to add 84,720 sf of self-storage area and eliminate the RV/boat parking. Total building sf would be 174,675 sf upon completion of Phase 2. 2015098239	River Boulevard Stream Bank Restoration and Protection Project Regional Water Quality Control Board, Region 1 (North Coast), Santa Rosa --Sonoma The purpose of the project is to restore ecological functions and bank stabilization measures along approximately 160 linear feet of bank along the north side of the Russian River, across three properties. The project design incorporates a combination of repair of the existing rip-rap erosion protection mat below water, with installation of live willow coir lifts above the water.	NOE	
2015098240	Paint 2 Bridges on Butte 70 Caltrans #3 Oroville--Butte Caltrans is proposing to paint two bridges over the Feather River. These repairs are needed to maintain and protect the existing bridges. The existing paint coating is in poor condition and does not adequately protect the structural steel elements of these two bridges from corrosion.	NOE	
2015098241	Downtown Hotel Development Framework - Specific Plan No. 526 El Cajon, City of El Cajon--San Diego Specific Plan No. 526 governs the subject site by setting the use and development standards for future development.	NOE	
2015098242	Amendment to Specific Plan No. 174 El Cajon, City of El Cajon--San Diego The project involves the demolition of a one-story 21,500 square-foot building on a commercially-zoned property and the construction of two new commercial buildings totaling approximately 8,700 square feet, a drive through, outdoor dining areas, parking and landscape improvements.	NOE	
2015098243	Bostonia Court PRD No. 69, TSM No. 661 and ZR No. 2316 El Cajon, City of El Cajon--San Diego The project involves the rezone from RS-6 to Planned Residential Development-Low zone, a PRD for an 11-unit single-detached residential project, and tentative subdivision map for 11 residential lots and one common interest lot on a 1.13 acre vacant site.	NOE	
2015098244	Proposed Plan for Environmental Restoration Program Site SS039 Toxic Substances Control, Department of Marysville--Yuba The Proposed Plan identifies continued operation of an existing soil vapor extraction (SVE) system and excavation of soil at Environmental Restoration Program (ERP) Site SS039, at Beale Air Force Base (AFB) and provides the rationale for this effort. The Proposed Plan documents the proposed remediation of soil impacted by volatile organic compounds (VOCs) including tetrachloroethene (PCE) and trichloroethene (TCE), among others. The ultimate goal for Site SS039 is to achieve site closure with unlimited use/unrestricted exposure (UU/UE) after SVE is discontinued and remaining contaminated soil removed. The project is expected to commence in October 2015 and continue for approximately two years with excavation work only occurring during the dry seasons.	NOE

2015098245	DOGGR - Bakersfield, Suite 300 Conservation, Department of Bakersfield--Kern The Department of Conservation is expending into the 300 suite of the 4800 Stockdale Highway Complex. This new lease will accommodate new staff in the Division of Oil, Gas, and Geothermic Resources. This new facility will help accommodate the requirements of Senate Bill 4.	NOE	
2015098246	Bordertown Paving Caltrans #2 --Lassen, Sierra The project consists of pavement maintenance, and the purposes of the project is to improve ride quality, extend the pavement service life a minimum of five years, improve drainage at the Agricultural Inspection Station, and improve highway safety. The project is needed due to aging pavement and highway facilities, lack of bridge approach/departure slabs, ponding of water off the roadway in the vicinity of the Agricultural Inspection STation, and the need for a traffic monitoring system at the junction of SR 70/U.S. 395 and at the Nevada border.	NOE	
2015098247	Ranger Station Gas Station Replacement Parks and Recreation, Department of --San Luis Obispo The purpose of this project is to replace an existing natural gas line that has become inoperatble. The natural gas line to be replaced is specifically located at the Oceano Dunes Ranger Station; 928 Pacific Boulevard Oceano, CA. The existing steel gas line has failed leak tests and is currently shut down. Project activities will consist of a re-route of the gas line from the street to around the west end of the ranger station to the existing meter that enters into the building on the south side (approximately 165 ft.). The re-route of the natural gas line will allow for less intrusion and easier access for future maintenance needs.	NOE	
2015098248	Stanislaus National Forest, Groveland Reynolds Route Developmet and Restoration Parks and Recreation, Department of --Tuolumne The project invovles blocking and restoring a 0.25 mile segment of National Forest Trail System (NFTS) motorized trail 19EV143 to allow natural revegetation to occur. The blocked and restored trail will be replaced with a new 0.34 mile trail reroute (19EV413). The blocking and restoration work includes spreading woody slash, installing erosion control material (e.g., wood straw, straw wattles, silt fence), installing rock or log barriers, and posting closure signs.	NOE	
2015098249	Stanislaus National Forest, Groveland Ferretti Reynolds OHV Route Restoration Parks and Recreation, Department of --Tuolumne The project involves blocking and restoring routes and allowing natural regeneration to occur on five segments (2.45 miles) of routes including four segments (1.56 miles) of unauthorized routes, five impact areas (71 acres), and one segment (0.89 miles) bypassed with a new trail reroute. The reroute is not part of this Grants Program-funded restoration project. The work involves sub-soiling (deep tilling), constructing drainage structures, spreading woody slash, installing erosion control material (e.g., wood straw, straw wattles, silt fence), installing rock, fence, or log barriers, and posting closure signs.	NOE

2015098250	Placement of an Interim Mooring Device on State-owned Sovereign Land - PRC 1589.1 California State Lands Commission Antioch--Contra Costa Permission to enter State-owned sovereign land to place an interim mooring device (concrete "deadman").	NOE	
2015098251	The Former Aristech Chemical Corporation Facility Toxic Substances Control, Department of Colton--San Bernardino The purpose of this project is to provide a No Further Action determination for soil and soil gas containing elevated concentrations above screening levels for Cadmium, Colbalt and Lead and the execution of a Land Use Covenant (LUC) to restrict the Site to Industrial Use Only.	NOE	
2015098276	Big Pine Culvert Replacement Project (Streamed Alteration Agreement No. 1600-2015-0064-R6) Fish & Wildlife #6 --Inyo The Project is limited to the excavation and replacement of one (1), 18-inch corrugated steel pipe culvert passing beneath Reynolds Road in the community of Big Pine. The Project includes the diversion of water around the Project area, excavation of the existing culvert, excavation of approximately 10 feet of new streambed, and the re-pavement of Reynolds Road. Access to work areas will occur along the existing roadway, and n o equipment shall operate within CDFW jurisdiction or outside of INyon County right-of-way. A diversion plan has been submitted to CDFW, to ensure that no Proeject activities occur in flowing water, and equipment staging and maintenance areas will be located on existing paved areas.	NOE
