

Jerry Brown, Governor

STATE CLEARINGHOUSE

**SUMMARY
OF
POSTINGS**

September 16 – 30, 2014

STATE CLEARINGHOUSE SUMMARY OF POSTINGS

The State Clearinghouse distributes draft environmental documents to state agencies for review and comment, pursuant to the California Environmental Quality Act (CEQA). The State Clearinghouse also acts as the State Single Point of Contact for the review of federal grant applications and federal development projects. This Summary of Postings summarizes the environmental documents and federal grant applications received by the Clearinghouse during the period **September 16 – 30, 2014**.

CLEARINGHOUSE CONTACTS

Please contact The State Clearinghouse if you have any questions regarding processing of environmental documents or grant applications. We may be reached at:

Telephone: (916) 445-0613
Fax: (916) 323-3018
e-mail: state.clearinghouse@opr.ca.gov
website: www.opr.ca.gov

Questions regarding federal grant notices should be directed to **Sheila Brown**.

Questions regarding processing of environmental documents should be directed to:

Scott Morgan
Director

CLEARINGHOUSE MAILING ADDRESS

The mailing address is:

USPS:

State Clearinghouse
P.O. Box 3044
Sacramento, CA 95812-3044

OR

USPS/Courier Service / Hand Deliveries:

State Clearinghouse
1400 Tenth Street, Room 113
Sacramento, CA 95814

INFORMATION AVAILABLE ON-LINE

The CEQA Statute and Guidelines are available through the Natural Resources Agency's website at:

<http://ceres.ca.gov/ceqa/>.

The State Clearinghouse Handbook, which contains all of our environmental document and grant processing procedures and forms, is available on our website.

Environmental Document Filings with the State Clearinghouse 1999-2013

All CEQA documents filed with the State Clearinghouse are available for viewing on the internet at <http://www.ceqanet.ca.gov>

<u>Documents Received on Tuesday, September 16, 2014</u>			
2012022038	<p>Twitchell Island Levee Improvement Project - San Joaquin River Reach Reclamation District 1601 --Sacramento</p> <p>RD 1601 proposes to construct levee improvements along the south side of Twitchell Island to increase the levee's resistance to erosion, provide additional freeboard for an estimated wave-run up of 4.7 feet, and provide better overall levee stability. Improvements would include ~5 mile of new foundation berm and setback levee behind and attached to the existing levee along the San Joaquin River except in front of the existing pump station, a sheet-pile wall would be installed so that the pump station, sump, and appurtenant discharge pipes would not have to be moved. Borrow materials to construct the improvements, including engineered fill, drain rock, and aggregate base would be obtained from commercially available sources likely within 50-60 miles. Some material would likely be transported to the site by truck and some by barge.</p>	EIR	10/31/2014
2014021058	<p>Pacific Grove Local Water Project (PGLWP) Pacific Grove, City of Pacific Grove--Monterey</p> <p>The primary goal of the proposed project is to create a new supply of non-potable water for irrigation of the Pacific Grove Municipal Golf Links, the El Carmelo Cemetery and other irrigation locations and for other uses of recycled water as permitted in the State of CA to substitute recycled water where potable water is currently being used. A new satellite recycled water treatment plant would be built, along with the installation of 2,800 linear feet of 8-inch recycled water pipeline.</p>	EIR	10/30/2014
2014031024	<p>Port San Luis Harbor Terrace Development Plan San Luis Harbor District, Port of --San Luis Obispo</p> <p>Range of overnight campground accommodations w/in a range of costs, including 80 RV sites, 15 RV/RV cabin sites, 31 hotel/motel units (yurts, cabins, casitas, or bungalows), 35 car/tent campsites, and 21 walk-in campsites. Approx. 16,000 sf of commercial uses may include retail, restaurant, meeting/conference facilities; office/lobby/reception area; campground manager's residence; storage/restroom/laundry area; and picnic/gathering/courtyard/bbq; outdoor pool/Jacuzzi; and patio. Include 70 trailer boat storage spaces, 20 marine gear storage spaces, 1.05 acre Harbor storage area, 10,000 sf, and future 6,000 sf Harbor Use building. Includes: 48,000 sf public parking;</p>	EIR	10/30/2014
2014091045	<p>Hampton Inn and Suites Buellton, City of Buellton--Santa Barbara</p> <p>The proposed project consists of a Final Development Plan for development of a 99 room hotel. Amenities include a swimming pool, extended porch off of the breakfast area, three social gathering areas, outdoor fire pits, and a bocce ball court all of which are tied together with a meandering sidewalk.</p>	MND	10/15/2014

2014091047	<p>ENV-2014-780-MND / 316 N. Kenmore Avenue Los Angeles, City of --Los Angeles</p> <p>The proposed project is on a site that is approximately 6,210 sf (one lot) and includes the construction of a four-story, 45-foot tall building with nine residential units that includes two units for very low income households, and nine parking spaces at grade. The total project size is approximately 6,154 sf of floor area in the Wilshire Community Plan Area, zoned R3-1 with a General Plan Designation of Medium Residential. The project includes the demolition of one existing single family dwelling of approximately 842 sf, and requires the export of less than 500 cubic yards of dirt.</p> <p>In consideration of providing two affordable units, the applicant seeks the following on-menu incentives: a 20% reduction of the front yard setback to 12 feet in lieu of the required 15 feet; and a reduction of 20% of the required open space to 923.25 sf in lieu of 1,125 sf.</p>	MND	10/15/2014
2014092048	<p>Old Sonoma Distillery (PLP12-0040) Sonoma County --Sonoma</p> <p>Request for a Use Permit and Design Review for a new 12,722 sf distillery with one marketing unit and no events, no tasting, and not open to the public on a 3.1-acre parcel. The second phase of the project will include a new-single family dwelling.</p>	MND	10/15/2014
2014092051	<p>Vaca Dixon - Lakeville 230 kV Reconductoring Project State Water Resources Control Board Vacaville, Napa, Sonoma, Petaluma--Napa, Solano, Sonoma</p> <p>PG&E is proposing to replace and upgrade 40 miles of conductors on a two-circuit, 230 kilovolt transmission line that runs between Vaca Dixon Substation in Vacaville and Lakeville Substation near Petaluma, in order to maintain service reliability and meet increasing electric load demands. The project primarily spans rural residential and agricultural areas. The project includes modifications to approximately 189 existing towers along the line and to equipment o Vaca Dixon, Tulacay, and Lakeville Substations to accept the new conductors. Approximately 39 cage top extensions of the towers will be installed along the transmission line, and one tubular steel pole within the Tulacay Substation. The project would take approximately 16 to 24 months to complete. Construction is expected to begin in summer of 2015, with an energization date in December 2017.</p>	MND	10/15/2014
2014091048	<p>Proposed Single-Family Residential Hauled Water Initiative for New Development Los Angeles County --Los Angeles</p> <p>Note: Extended Review Per Lead</p> <p>Ordinance to allow hauled water as the primary source of potable water for new single-family residential construction in unincorporated areas of the County of Los Angeles, where there is no available service from a public or private water purveyor and where it has been demonstrated that an on-site groundwater well is not feasible.</p>	NOP	10/20/2014

2014092047	CSUS Private Middle School Belmont, City of Belmont--San Mateo The site is developed with office and warehouse and has been vacant since 1998. CSUS proposes to demolish existing improvements and construct a private middle school of approximately 60,000 sf.	NOP	10/15/2014
2014092049	Lincoln Centre Life Sciences Research Campus Project Foster City Foster City--San Mateo Note: Refer to Revised NOP submitted 10/08/14. The proposed project would develop the approximately 19-acre site owned by BioMed Realty Trust with biomedical research and office facilities in a campus setting. Key project components would include 555,000 sf of laboratory and office space housed in three buildings of up to 185,000 sf and seven stories each, as well as 40,000 sf of employee and visitor-serving amenities (such as a cafe and childcare facility) housed in a fourth building up to three stories high. Of the total proposed 555,000 sf of gross floor area, a maximum of 388,500 sf (70 percent) could be used for office and the remainder 166,500 sf (30 percent) would be laboratory use.	NOP	
2014091046	Interim Measures Work Plan - Northern and Southern Assessment Areas Toxic Substances Control, Department of Maywood, Los Angeles, City of--Los Angeles DTSC has prepared A DRAFT Interim Measure Work Plan for the purpose of mitigating potential health risks from lead impacted soils in off-site residential properties located in the Northern Assessment Area and the Southern Assessment Areas. The Northern Assessment Area encompasses portions of the unincorporated communities of Boyle Heights and East Los Angeles, and the Southern Assessment Area is located within the city of Maywood (collectively referred to as Assessment Areas). There are a total of 215 homes in the Assessment Areas, 91 homes in the Northern Assessment Area and 124 in the Southern Assessment Area. Work is necessary to complete soil removal work at lead in soils at concentrations warrant mitigation.	Neg	10/15/2014
2014092050	2014 Housing Element Update, Contra Costa County General Plan, 2005-2020 (County File: GP#14-0001) Contra Costa County --Contra Costa Contra Costa County has prepared a draft to the Housing Element in the County General Plan, which is proposed to cover an eight-year period from 2015 to 2023. The current Housing Element was adopted by the Board of Supervisors in March 2009. The updated 2014 Housing Element, prepared in response to Senate Bill 375, identifies and analyzes existing and projected housing needs for population groups within the unincorporated area of Contra Costa County, and it provides a statement of goals, policies, quantified objectives, and documents programs for the preservation, improvement, and development of housing within the unincorporated area. The Housing Element is mandated under CA Govt. Code Section 65580 and it is subject to the review and certification by the CA Dept. of Housing and Community Development.	Neg	10/15/2014

Phase One to include a 26,200 sf addition to an existing apple storage building. Phase Two, to be completed in five years, includes the construction of two 26,500 sf walnut storage buildings. Phase Three, to be completed in ten years, includes the construction of two 26,500 sf walnut storage buildings. Phase Four, to be completed in 15 years, includes the construction of a 38,700 sf addition to an existing cherry storage building. Phase Five, to be completed within 20 years, includes the construction of a 42,750 sf walnut storage building.	Neg	10/16/2014
2014092056	PA-1300203 (UP) San Joaquin County Lodi--San Joaquin A Use Permit application for a truck stop facility to include the construction of an 11,900 sf building consisting of four wash and service bays totaling 9,500 sf, a 1,200 sf storage area, a 400 sf break room, a 400 sf drivers lounge, and a 400 sf office. No truck parking is being proposed with this application.	Neg	10/16/2014
1999091142	Subsequent EIR/Supplemental EIS to the Final EIR/EIS for the IID Water Conservation and Transfer Project Imperial Irrigation District Imperial Beach, El Centro, Brawley--Riverside, Imperial, San Diego CDFW is executing a Lake and Streambed Alteration Agreement (SAA # 1600-2014-0066-R6) pursuant to Section 1602 of the Fish and Game Code to the project Applicant, Imperial Irrigation District, represented by Ms. Jessica Lovecchio, 333 E. Barioni Boulevard, City of Imperial, State of California, 92251, Phone (760) 339-9703. The Applicant is proposing to remove approximately 250 linear feet of vegetation from both banks of the Alamo River from the Garst Road Bridge over the Alamo River eastward to the United States Geological Survey (USGS) monitoring station. The purpose of the project is to improve measurement quality of the measurements recorded from the USGS monitoring station. Vegetation will be removed by excavator filled with a "claw" attachment working from dirt access roads located on top of the banks of the Alamo River. Removed vegetation will be piled along the side of the roads that are away from the river. A total of 0.57 acres of temporary impacts to jurisdictional streambed will result from the construction activities.	NOD

2000091043	America's Cup Harbor Redevelopment & Port Master Plan Amendment San Diego, Port of San Diego--San Diego The Project includes improvements to the N. Harbor Dr. four-lane roadway between Scott St. and Nimitz Blvd, as well as an associated lease amendment, in Shelter Island. The improvements include reconfiguring N. Harbor Dr. and converting the south-side frontage road to a parking area; and adding an overlay and restripe to the Westy's parking lot. Additionally, the Pt. Loma Marina lease will be amended to allow for the construction of the Project. The Project will provide a new increase of approximately 130 public parking spaces to the area.	NOD	
2007121058	Marriott Residence Inn and Hollister Center Project Goleta, City of Goleta--Santa Barbara The project includes a Vesting Tentative Map for a two lot subdivision; a Development Plan for a 118-room Marriott Residence Inn Hotel; and a Development Plan Amendment for the existing Hollister Center research and development office complex. In addition, frontage improvements will also be made along Hollister Avenue, Robin Hill Road, and La Patera Lane.	NOD	
2013121019	General Plan Land Use and Circulation Elements Update San Luis Obispo, City of San Luis Obispo--San Luis Obispo The project is an update to the City's Land Use and Circulation Elements. The Land use Element designates the general location and intensity of housing, business, industry, open space, education, public buildings and facilities, and other land uses. It helps guide neighborhood preservation, revitalization, and enhancement and protects environmental resources. The circulation element includes goals and policies relating to how residents, products and visitors move around San Luis Obispo including cars, bicycles, pedestrians, air, rail, and public transportation.	NOD	
2014031055	Ramon Road Widening Project Between San Luis Rey Drive & Landau Blvd Palm Springs, City of Palm Springs--Riverside CDFW is executing a Lake and Streambed Alteration Agreement (SAA # 1600-2014-0078-R6) pursuant to Section 1602 of the Fish and Game Code to the project Applicant, the City of Palm Springs, represented by Mr. David Barakian, Palm Springs City Hall, 3200 E. Tahquitz Canyon Way, City of Palm Springs, State of California, 92262, Phone (760) 323-8253. The Applicant is proposing to widen Ramon Road between Landau Boulevard and San Luis Rey, widen the Ramon Road Bridge over the Whitewater River Stormwater Channel (Bridge Number 56C0287), perform seismic retrofitting of the bridge, and associated infrastructure development. Project activities include: extension of the existing bridge pylongs upstream and downstream to support the widened bridge deck, construction of scour countermeasures, and extension of the existing side slope revetment in the vicinity of the bridge. Scour countermeasures include the construction of concrete aprons under, upstream, and downstream of the bridge. Project construction will also include the construction of temporary dirt access ramps in the channel which will be removed upon project completion. A total of 3.47 acres of permanent impacts to jurisdictional streambed and total of 2.30 acres of temporary impacts to jurisdictional streambed will result from the construction activities.	NOD

2014098101	Port of Stockton Maintenance Dredging Docks 2, 3, 12, and 13 Fish & Wildlife #3 Stockton--San Joaquin The project is limited to maintenance dredging of sediments from in front of existing docks 2, 3, 12, and 13 at the Port of Stockton's East Complex on the Stockton Deep Water Ship Channel. The berthing areas at docks 2 and 3 will be dredged to a depth of 35 feet below mean lower low water (MLLW). The berthing areas at docks 12 and 13 will be dredged to a depth of 40 feet below MLLW. Dredged material will be removed by a hydraulic dredge and transported via pipeline to the designated dredge material confinement area (MDCA) on Roberts Island No. 1 and/or a portion of Rough and Ready Inland. SAA #1600-2014-0169-R3.	NOE	
2014098250	Cal Poly English Language Institute (CELI) Modular Addition California State University, Pomona Pomona--Los Angeles The project consists of the construction of three (3) additional modular buildings. There currently are four (4) CELI modular buildings that were approved and relocated to its current site in 2009. Since then, the program has outgrown the capacity of the facilities resulting in need of additional space. The purpose of this project is to provide much needed space for the CELI programs currently dispersed all throughout the campus. These three additional modular buildings will provide 3,400 GSF of space for classrooms, offices, restrooms and includes necessary site utilities, landscape and hardscape improvements.	NOE	
2014098251	El Dorado County - Panorama SEZ Restoration Tahoe Conservancy Unincorporated--El Dorado The project consists of removing approximately 1400 cubic yards of fill material from the 11,050 square feet. Conservancy parcel and less than 400 cubic yards of fill from a portion of the immediately adjacent USFS parcel for habitat restoration purposes. The removal of the fill will bring the parcel elevation back to the native elevation of the surrounding meadow environment, allowing for full SEZ function and increased habitat suitability. The fill does not require soil contaminant testing as the destination of the fill would be Tahoe Asphalt's material and corporation yard.	NOE	
2014098252	Transfer of coverage to El Dorado County APN 034-693-11 (A. Caro Construction Company, Inc.) Tahoe Conservancy Unincorporated--El Dorado Project consist of the safe and transfer of 912 square feet of potential coverage rights from Conservancy-owned land to a receiving parcel on which a private residence will be constructed. The transfer enables the receiving landowner to carry out the project without any net increase in the amount of existing land coverage in the hydrologically-related area.	NOE	
2014098253	Beale Air Force Base Site SS023 Statement of Basis / Corrective Measures Implementation Plan Toxic Substances Control, Department of Marysville--Yuba The project consists of in situ chemical oxidation (ISCO), enhanced attenuation (EA), and land use controls (LUCs) for groundwater and No Further Action (NFA) for sil as corrective measures for Site SS023 at Beale AFB. 2014098254	Plains All American Pipeline, Line 903, Anomaly Repair #54 (Lake or Streambed Alteration Agreement No. 1600-2014-0085-R5) Fish & Wildlife #5 --Santa Barbara The Permittee proposes to repair a pipeline anomaly which includes the excavation and repair of one segment of buried pipeline (903). This anomaly is located adjacent to and underneath an unnamed intermittent tributary to Zaca Creek. An area approximately 20 feet by 12 feet will be dug to a depth of 14 feet, and a total of 124 cubic yards of soil will be set aside.	NOE	
2014098255	Tenth Avenue Marine Terminal Tank Farm Emergency Facility Repairs San Diego Unified Port District San Diego--San Diego The proposed project involves the repair of tank #4 located at the TAMT tank farm in San Diego. The 3-acre tank farm was constructed on TAMT in 1958 by the City of San Diego as a fueling facility for marine vessels. In 2000, the tank farm was modified to accommodate jet fuel for the San Diego International Airport, in addition to marine fuels.	NOE	
2014098256	Wayfinding Signage Program in National City San Diego Unified Port District National City--San Diego The proposed project is the National City Wayfinding Signage Program, including a Memorandum of Understanding (MOU) between the SDUPD and City of National City (City) to fund the program with funds from the SDUPD's Maritime Terminal Impact Fund (MTIF). The MOU specifies the terms and conditions of payment to the City for the City's Installation of various wayfinding signage to direct National City visitors and residents to key City visitors and residents to key attractions, amenities, and features located on, or adjacent to, SDUPD tidelands. The project would also help to enhance urban design, reinforce community identity; reduce confusion for drivers, pedestrians, and bicyclists; improve access for SDUPD tenants; improve land use compatibility with roadway network; and improve traffic flow and enhance safety.	NOE	
2014098257	Amendment to the San Deigo Unified Port District Tariff No. 1-G to Increase Rates and Charges and Update Language San Diego Unified Port District San Diego--San Diego The proposed project involves an amendment to the San Diego Unified Port District, Port of San Diego Tariff No. 1-G, to increase rates and charges and update language. The Port of San Diego Tariff No. 1-G governs the rates and charges applicable for all maritime-related commercial activity under the District's jurisdiction. The Tariff is reviewed annually to ensure that the District's rates and charges are competitive and the rules are current. In addition, the rates and charges are reviewed to reflect the prevailing market rates and economic climate.	NOE	
2014098258	Amendment No. 5 to Lease with Chula Vista Marina/RV Park, Ltd San Diego Unified Port District Chula Vista--San Diego The proposed project is Amendment No. 5 to the District's existing lease with Chula Vista Marina/RV Park, Ltd (RV Park Lease). Chula Vista Marina/RV Park, Ltd has a Lease with the District for 578,929 square feet of land located at 460 Sandpiper Way in Chula Vista to operate the Chula Vista RV Park (RV Park), which expires November 30, 2021. The property is improved with 237 recreational	NOE

	vehicle spaces, a delicatessen-convenience store, laundry room, game room, and meeting facilities.		
2014098259	Locust Street Vegetation Clearing Fish & Wildlife #1 Redding--Shasta The removal of nonnative vegetation (trees and shrubs) and a small number of select native shrub species to open up the dense vegetation on the east side of the CDFW property to alleviate the fire and safety concerns. In addition the clearing of an approximate 20 foot perimeter around the entire CFDW fence line will be completed to increase visibility and to create access for a new security fence to be installed in the future.	NOE	
2014098260	Issuance of Streambed Alteration Agreement No. 1600-2014-0084-R1, Middle Creek Off-Channel Coho Rearing Habitat Project Fish & Wildlife #1 --Siskiyou The project is limited to the construction of 3 (three) separate off-channel coho rearing ponds within the lower 3/4 mile stretch of Middle Creek above its confluence with Horse Creek. The ponds will provide favorable temperature and low velocity habitat requirements for winter rearing and provide cool groundwater and abundant food source for summer rearing, although the primary goal is winter rearing habitat. All work shall be in accordance with submitted plans and diagrams and any subsequent revisions approved by CDFW in writing.	NOE	
2014098261	Culvert on Himebaugh Property (Lake or Streambed Alteration Agreement No., 1600-2014-0138-R2) Fish & Wildlife #2 Portola--Plumas The proposed project is limited to the installation of a pre-cast concrete box to span the entire channel area of the unnamed tributary mentioned. No live woody vegetation shall be removed from the project area. The channel bed shall be lowered about 1-foot to accommodate the box culvert and allow for unimpeded flows. The culvert shall be dropped into place using a crane staged in the upland area. The area between the box culvert and channel sides shall be filled and compacted using the native excavated material. An excavator or backhoe shall be used to prepare channel bottom, a plate compactor or thumper to compact channel bottom, and crane to lower box culvert in place.	NOE

	investigations in areas adjacent to Anderson Dam. These investigations are in support of Anderson Dam Seismic Retrofit Project, which is being proposed by Santa Clara Valley Water District. Investigation activities would include construction and inspection of 11 boring, six trenches, and one test pit.		
2014091054	Saticoy Area Plan Update - PL14-0066 Ventura County --Ventura	NOP	10/17/2014
	The Proposed Project is a comprehensive revision of the existing Saticoy Area Plan, including goals and policies, land use maps (Exhibit B), vehicular and non-vehicular mobility maps (Exhibit C), and design guidelines for Old Town Saticoy. The proposed project also includes changes to zoning, including zoning maps and the following revisions to zoning within Old Town Saticoy: (a) new zoning classifications, (b) modification to the Use Matrix, and (c) development standards. The project will require a General Plan Amendment (the Saticoy Area Plan is part of the General Plan) as well as the Non-Coastal Zoning Ordinance. The time horizon for the Proposed Project is 20 years (i.e., 2015-2035).		
2002011116	Addendum to the Inland Empire Utilities Agency's Facilities Master Plans PEIR for the 930 Zone Recycled Water Projects Inland Empire Utilities Agency Chino Hills--San Bernardino Note: Addendum	NOD	
	The proposed Wineville Recycled Water Pipeline Project is being developed by the Inland Empire Utilities Agency (IEUA or Agency) in cooperation with the City of Fontana and the Fontana Water Company. This project is a second-tier project (Phase II) being implemented under the Recycled Water Master Plan element of the Agency's Facilities Master Plans (FMP) Program Environmental Impact Report (PEIR). The IEUA's goal is to reuse, to the extent practicable, recycled water that is produced at IEUA's Regional Wastewater Reclamation Facilities (WWRFs). Primary goals are to reduce dependency of the Chino Basin on imported State Water Project (SWP) water; to offset pumping that exceeds the Basin's safe yield; and to improve groundwater quality in the Basin.		
	Earlier this year contract was issued to Mike Bubalo Construction Co., Inc. for the construction of the Wineville Segment "B" recycled water system. As part of the Company's due diligence, it conducted a "value engineering" assessment of the original Wineville recycled water pipeline alignments. As a result of this value engineering assessment, the Company suggested that IEUA consider an alternative alignment for a portion of the Segment B alignment. After careful review, IEUA concluded that Option A would meet the objectives of providing recycled water to local public landscaped areas and it would reduce the total lineal footage of recycled water pipeline to be installed by approximately 2,400 lineal feet. At this point IEUA requested an environmental evaluation of the potential environmental effects of installing the Option A alignment of the Wineville Recycled Water Pipeline alignment compared to that approved by both IEUA and the State Board. This Addendum has been prepared to address the Option A alignment.

2014062084	<p>Recycled Water Project Pleasanton, City of Pleasanton--Alameda</p> <p>Pursuant to the California Environmental Quality Act (CEQA; Public Resources Code Section 21000, et seq. and CEQA Guidelines), the City of Pleasanton, California (City) prepared a Public Draft Initial Study/Mitigated Negative Declaration (IS/MND) to evaluate potential environmental impacts associated with the City's proposed Recycled Water Project (Proposed Project/Action). The purpose of the Proposed Project/Action is to construct and operate a new recycled water system to replace/augment existing irrigation supplies in the City's service area. The development of recycled water service within the City will lessen the demand for Zone 7 Water Agency (Zone 7) potable water supplies and help the City meet the State of California's Water Conservation Act of 2009, which requires a 20 percent reduction in urban per capita water use by the year 2020. Furthermore, the addition of recycled water to the City's water supply portfolio will increase its water system's reliability since recycled water is a local supply within the City's control and is drought-resistant.</p>	NOD	
2014071068	<p>Vina Robles Winery Conditional Use Permit San Luis Obispo County Pismo Beach--San Luis Obispo</p> <p>Request by Vina Robles Winery for a Conditional Use Permit to allow for the construction of a two-phase wine processing facility. Phase 1 would include a two-story, 80,680 square foot (SF) winery, including; a wine processing facility; administrative space; kitchen area; barrel and case good storage area; lab; press and crush bay; restrooms; locker room; equipment maintenance room; break room; access improvements; water storage/wastewater storage ponds, and parking area. Phase II would include the development of a 21,680 square wine storage area. The proposed winery would produce a maximum of 100,000 cases annually. The project is not proposing any public wine tasting or special events.</p>	NOD

2014098283	Kreminiski Fuels Reduction Project Regional Water Quality Control Board, Region 6 (Lahontan), South Lake Tahoe South Lake Tahoe--El Dorado Fuels reduction, forest health, and meadow restoration on a 3.5 acre private parcel. The project will also improve the public health and safety related to wildfire threat in a suburban neighborhood.	NOE	
2014098284	Marsh Creek Bridge Scour Repair Fish & Wildlife #3 --Contra Costa Project is limited to the repair of Bridge # 28C-0143 that will consist of damage to bridge abutments caused by scour within the streambed area on the southwest an northeast banks. The southwest bank will consist of the placement of pressure treated timber that will be placed over the H piles and have pressure treated grout filled into the voids behind the boards. A 40 linear foot trench, 3 feet deep will be dug in front of the abutment and lined with filter fabric and rock slope protection. the northeast side will consist of trenching 23 linear feet, 4 feet wide, 3 feet deep and lining with filter fabric and rock slope protection. The grade of the RSP will be offset by six inches to allow normal accumulation of sediment over time on both sides. Issuance of Streambed Alteration Agreement No. 1600-2014-0207-R3 is pursuant to Fish and Game Code Section 1602.	NOE	
2014098285	1721 Magnolia Way Retaining wall Fish & Wildlife #3 Walnut Creek--Contra Costa Project is limited to the construction of a 41 linear foot retaining wall that will approximately 3 feet 6 inches high, with 18 inch by 18 inch footings. The footing will be constructed of concrete and masonry stone reinforced using horizontal and vertical rebar totaling 18 separate instances of re-bar. Approximately 40 linear feet of bank will be impacted and 40 linear foot will be re-stabilized. Issuance of a Streambed Alteration Agreement No. 1600-2014-0295-R3 is pursuant to Fish and Game Code Section 1602.	NOE	
2014098286	Stuhlmuller Vineyards Gravel Skimming Fish & Wildlife #3 Healdsburg--Sonoma Project is limited to the excavation and removal of gravel from a large gravel bar on the Russian River in order to provide juvenile fish habitat and improve channel capacity in order to reduce erosive forces on the opposing stream bank. The northern excavation is intended to lower a high spot in the high flow channel on the back (east) side of the gravel bar. The peak of the high spot is about 1 meter above the elevation of the upstream and downstream sections of the back channel and will be lowered to an elevation consistent with the surrounding gravel bar area. the southern excavation will begin at an elevation approximately 1 foot above summer time base flow elevation and rise up sharply to connect with an existing backflow channel on the eastern side of the bar. Approximately 1000 cubic yards of gravel will be removed from both the southern and northern excavation sites (2000 cubic yards total). The bar will be accessed from an existing road and vegetation removal will be limited to small brushy willows, grasses and forbs occurring on the excavation sites. Material from the excavation will be transported to the Stuhlmuller vineyard on the west side of the river and used to fill upland erosion features currently impacting the vineyard. Any additional spoils will not be placed in the riparian area. Issuance of a Streambed Alteration Agreement No. 1600-2012-0357 is pursuant to Fish and Game Code Section 1602.	NOE

Neg	10/20/2014
2014092067	2015-2023 Housing Element Update Healdsburg, City of Healdsburg--Sonoma The Housing Element is a comprehensive statement by the City of Healdsburg of its broad and specific commitments to facilitate the development of housing in the city. The Housing Element is one of the seven General Plan elements mandated by the State of California, as articulated in Sections 65580 to 65589.8 of the Government Code. State law requires that the Housing Element consist of "...an identification and analysis of existing and projected housing needs and a statement of goals, policies, quantified objectives, financial resources, and scheduled programs for the preservation, improvement and development of housing." The residential character of the city is, to a large extent, determined by the variety of its housing and the locations and maintenance of the housing. The Housing Element is an official response to the need to provide housing for all economic segments of the population, establishing goals, policies, and programs that will guide City decision making and set forth an action plan to implement these housing programs through 2023.	Neg	10/21/2014
2014042045	2014 Update to the Contra Costa Countywide Comprehensive Transportation Plan Contra Costa Transportation Authority --Contra Costa As part of its Measure C responsibilities and subsequent Measure J responsibilities, CCTA must prepare a Countywide Transportation Plan (CTP) to "support efforts to develop and maintain an ongoing planning process with the cities and the county." The 2014 CTP updates the 2009 CTP. The CTP provides the overall direction and a coordinated approach for achieving and maintaining a balanced, functional transportation system in Contra Costa while strengthening links between land use decisions and transportation. It outlines the CCTA's vision and its transportation system and the goals, strategies and specific projects and other actions for achieving that vision. The projects and programs included are composed of a mix of highway, arterial, transit, operational, and non-motorized improvements.	SIR	11/03/2014

2014098297	<p>Hood Water Storage Tank & Site Improvements Sacramento County --Sacramento</p> <p>Project consists of the construction of a 1,75000 gallon above-ground water storage tank and associated facilities. This project also includes the purchase of approximately 0.8 acres of land from the Courtland Fire Protection District, where the proposed facilities will be built. A 5,000 gallon surge tank and an onsite well and treatment plant, containing a filter vessel, backwash tank, and sludge slump, will be constructed on the project site. A pump and control building will be constructed to house booster pumps, chemical storage, motor control electrical cabinets, and SCADA cabinets which were necessary to have a functional water storage facility. A SCADA antenna and an emergency generator for back-up power will be placed on site as well. To connect this new facility to the existing public water system, off-site water lines will be constructed from the proposed storage facility to the existing public water system, off-site water lines will be constructed from the proposed storage facility west via alignments along both Hood-Franklin Road and Corky Lane within the County Right-of-Way. In addition, four new fire hydrants will be installed at different points near the project area.</p>	NOE	
2014098298	<p>Geotechnical Investigation for LAK-175 Safety Project (Lake or Streambed Alteration Agreement No. (1600-2014-0164-R2) Fish & Wildlife #2 --Lake</p> <p>CDFW has executed Lake and Streambed Alteration Agreement No. 1600-2014-0164-R2, pursuant to Section 1602 of the Fish and Game Code to Caltrans.</p> <p>Project is limited to three geotechnical borings at three locations on/and adjacent to Dry Creek Bridge and the overflow structure. borings will be 50 to 100 feet in depth and will be located at the creek abutments and the creek bed as shown in the drilling plan submitted with the Notification. Two of the locations will be accessed through an unvegetated existing gravelly track and the third location will be accessed from the deck of the overflow structure. After project completion the boreholes will be backfilled with bentonite chips. The maximum boring diameter will be 5 inches resulting in a maximum total impact area of 1.65 sq. ft. Implementation of the project will not result in vegetation removal. work will take place only if no water is present in Dry Creek.</p>	NOE	
2014098299	<p>Building 1A Basement Remodel - CT Prep and Waiting Room University of California, Irvine Orange--Orange</p> <p>The proposed project would renovate approximately 2,142 ASF of recently released University Hospital Tower basement space to provide a computerized tomography (CT) preparation space to improve patient throughput, family consultation room for private discussion with patients and families, clean utility room, immediate-intervention radiology reading room, additional workspace for staff, and outpatient and family waiting room. The project would also renovate and upgrade existing restrooms, and provide ADA code-compliant staff restrooms. The project would utilize existing corridor walls, but would also include the construction of new interior walls, electrical, low voltage, HVAC, doors, plumbing for restrooms, flooring, and paint. The project is scheduled for completion in Jan. 2015.</p>	NOE

2014081005	Santa Margarita Creek Bank Stabilization Caltrans #5 --San Luis Obispo Caltrans proposes to stabilize the bank of Santa Margarita Creek. The purpose of the work is to prevent further erosion into the State right-of-way and eventually the northbound lanes of US 101. US 101 is the primary north-south coastal route for California travel and commerce. The project will reclaim lost shoulder width and traffic recovery area by restoring the original bank alignment, removing accumulated material in the original flow line, and stabilizing the bank against future erosion. The benefits of this work are the protection of northbound US 101 travel lanes, maintaining safety by restoring the integrity of the wildlife fencing through the area, and reducing sediment load caused by on-going bank erosion in Santa Margarita Creek.	FIN	
2014091059	IS Application No. 6824 (MK Operating, LLC) Fresno County Fresno--Fresno Allow two exploratory petroleum oil and natural gas wells with the possibility of a production facility on a five-acre portion of a 555.24-acre parcel in the AE-20 (Exclusive Agriculture, 20-acre minimum parcel size) Zone District. The subject parcel is located on the north side of W. Mount Whitney Avenue approximately one mile east of S. Stanislaus Avenue and 3.9 miles south of unincorporated community of Cantua Creek (SUP. DIST.: 1) (APN: 045-070-47S).	MND	10/21/2014
2014091060	Northern Area Project Buena Vista Water Storage District --Kern The project is located 16 miles west of Bakersfield within the Buttonwillow Service Area of the BVWSD, and primarily entails the installation of buried pipeline. The pipe would vary in size, between 21 and 63 inches, and be primarily buried adjacent to the Main Drain Canal and other district facilities, including portions of the West Side and East Side Canals. The new pipeline would be installed largely within the existing Right-of-way of the Main Drain and other district facilities. Laterals that deviate from district facilities would be located adjacent to field roads or other geographical features that minimize impacts to conservation and farming.	MND	10/21/2014

	The project construction would include activities consistent with digging, trenching and excavation of soil to install the new pipeline.		
2014092070	Upper Penitencia Creek Property Aquisition and Long Term Management Plan Santa Clara Valley Water District San Jose--Santa Clara The proposed project includes the purchase of the Upper Penitencia Creek Property from the Santa Clara County Open Space Authority (OSA) and adoption of a Long Term Management Plan for the site. The LTMP identifies site improvements and long term management goals for the Property. The overall goal for long-term management of the Upper Penitencia Creek is to ensure the long term viability of the Property's conservation values. This goal will be met through routine monitoring and management of the conditions that support the Property's biological resources, by maintaining existing infrastructure and by providing for security and public safety as detailed in the LTMP. The LTMP also identifies a series of site improvements to repair existing infrastructure on existing unimproved roads, a water troughs and repair of gully.	MND	10/21/2014
2014092069	I Street Bridge Replacement Project: A New Bridge Over the Sacramento River Sacramento, City of Sacramento, West Sacramento--Sacramento, Yolo The project would include the construction of a new bridge across the Sacramento River between the Sacramento Railyards and the West Sacramento Washington planned developments. The new bridge would provide a new vehicle, bicycle, and pedestrian crossing connecting C Street in West Sacramento to Railyards Blvd. in Sacramento and would include a moveable center span to allow passage for watercraft. The existing I Street Bridge would continue to be used by the railroad. The existing Sacramento would be demolished.	NOP	10/21/2014
2002022010	Concord to Sacramento Petroleum Products Pipeline California State Lands Commission --Contra Costa, Solano, Yolo Line Section 130 AC Mitigation Project is a maintenance project on a 20-inch diameter petroleum pipeline running between Concord and Sacramento. An Alternating Current (AC) Mitigation System, consisting of an encased copper cable and grounding rods, will be installed primarily in a 6-inch trench alongside the pipeline. In areas with surface waters, horizontal directional drilling will be used to install the cable.	NOD

2007011046	<p>Placentia Westgate Metrolink Station Placentia, City of Placentia--Orange</p> <p>As originally envisioned, the Placentia Orange Growers Association warehouse located at 207-209 and 211 West Crowther Avenue was to be demolished by the City to allow a parking structure to be constructed in support of the Westgate Metrolink Station (the "Project"). The demolition of this structure was fully evaluated and the Final EIR concluded that the removal of this structure constituted a significant unavoidable adverse impact to a historical resource and recommended mitigation measures by instituted, which are documented in the Final EIR. Since 2010 when the Final EIR was certified, the City has not proceeded with the development of the Project, but the City has determined that the warehouse must be demolished due to its blighted and unsafe structural condition. Further, the City concludes that the action to demolish the blighted warehouse constitutes a "minor technical change" from the original Project that fully evaluated the demolition of this structure. Based on the following analysis, implementing this action will not result in any potential for new or more significant environmental impacts in accordance with 15162 of the State CEQA Guidelines.</p> <p>This Addendum, combined with the 2010 Final EIR, serves as the basis for this second-tier environmental review of the City's original decision to implement demolition of the warehouse as part of the Project. As such, this Addendum modifies the referenced EIR certified by the City in 2010 as its California Environmental Quality Act ("CEQA") environmental determination for the proposed implementation of the Project. No other changes in the original Project would occur at this time.</p>	NOD	
2007102071	<p>North Slope Sonoma Mountain Ridge Trail Project Sonoma County Santa Rosa--Sonoma</p> <p>The project is limited to the removal of n existing wooden bridge and demolition of its concrete abutments. A new bridge, with abutments located outside the top of bank, will be constructed within the same alignment. Prior to demolition, a coffer dam and bypass pipe will be put in place to bypass stream flow through the project site. The existing deck, railing and girders will then be removed. The concrete abutments will be demolished to an elevation slightly below stream grade. The streambank will then be graded to a 2:1 slope and armored with approximately 12-cubic yards of 1/2-ton riprap from the keyway along the toe of slope up to the new abutment location on each side. Cast in place concrete piers and abutments will then be poured for the new bridge. A 40-foot long refurbished railcar deck will then be placed on the abutments. The new bridge will increase the stream capacity at the location, and no tree removal will be required. The California Department of Fish and Wildlife is executing a Lake and Streambed Alteration Agreement Number 1600-2014-0298-3 pursuant to Section 1602 of the Fish and Game Code to the project Applicant, Sonoma County Regional Parks.</p>	NOD

2014062066	Zephyr Estates Suisun, City of Suisun City--Solano Project includes entitlement applications for General Plan Amendment (GP13/14-001), Rezone (RZ13/14-002), Tentative Subdivision Map (SM13/14-001), Planned Unit Development (PD13/14-001) and Site Plan/Architectural Review (AR13/14-005). The project site is located in the incorporated area of the City of Suisun City. The property is adjacent to Walters Road to the west, East Tabor Avenue to the north, Charleston Street to the east, and Carswell Lane and Carswell Court to the south. The site is approximately 8.6 acres in size and is currently undeveloped. The residential lots are proposed to range from approximately 3,000 square feet to 6,000 square feet in land area and proposed homes would have two stories and would be approximately 2,000 square feet in size. The project proposes multiple access points from existing roadways. The main access into the residential portion of the property is proposed via East Tabor Avenue with additional access via Charleston Street and Carswell Lane. Access to the commercial parcel will be via East Tabor Avenue and a right turn in / right turn out access via Walters Drive.	NOD	
2014071061	Redlands Commerce Center Building 1 and 2 Project Redlands, City of Redlands--San Bernardino In September 2013, the City of Redlands approved a project known as the Redlands Fulfillment Center, which was to be located in a primarily agricultural section of Redlands on the same site as outlined above. Since that time, the applicant decided to seek an additional entitlement for a project that comprises two warehouse/distribution centers (Planned Development No. 3), so that they can also market the site to this type of user. The former project (Planned Development No. 2) was a single building of approximately 1 million sf for the purpose of housing a fulfillment/distribution center. The new project now consists of two buildings, totaling approximately 1.1 million sf for the purpose of housing two separate warehousing operations.	NOD	
2014072043	Log Cabin and Our House Diversion Dams Sediment Management Plan, Yuba River Development Project Yuba County Water Agency --Nevada, Sierra, Yuba Yuba County Water Agency has requested authorization under Clean Water Act Section 401 from the Central Valley Regional Water Quality Control Board for this Project. The Project is located at two diversion dams located on Yuba County Water Agency and National Forest System land within the Tahoe National Forest. The Project involves sediment management activities located at Log Cabin and Our House Diversion Dams and Impoundments.	NOD	
2014072075	Marsh Junior High School Multipurpose Building Project Chico Unified School District Chico--Butte The Chico Unified School District proposes to construct a new 12,000 sf single-story multipurpose building incorporating a performing arts classroom space, storage/janitorial supply room, kitchen/food preparation space, and main dining area/assembly space. The structure would incorporate restroom facilities accessible from the exterior of the building as well as a covered outdoor gathering and exterior dining space located on the west side of the structure. In order to accommodate the needed space for the multipurpose building, the existing	NOD

	Valley Blvd., Interstate 680, and Tareyton Ave. The Segment under Tareyton Ave. is 80 linear feet and the segment under San Ramon Valley Blvd. is 160 linear feet, no work will occur in the Caltrans right of way and all work will be confined to the concrete apron and lifted to the road above by heavy equipment staged above top of bank, a small bobcat will enter the box culvert going down the bank at the least resistance path possible for access. A previously existing concrete weir will also be removed to improve channel flow, the weir will be removed by hand. Insurance of a Streambed Alteration Agreement Number 1600-2014-0165-R3 is pursuant to Fish and Game Code Section 1602.		
2014098333	Twomile Ecological Restoration: Lower Fahey Meadow Restoration Project Regional Water Quality Control Board, Region 5 (Central Valley) --Tuolumne Meadow restoration treatments will seek to stabilize headcuts and eroded stream channels, remove encroaching conifers and non-desirable shrubs and subsoil compacted areas.	NOE	
2014098334	Archaeological and geotechnical Investigations Caltrans #4 --Sonoma Archaeological and geotechnical investigations in support of the environmental-clearance process for the Gleason Beach Roadway Realignment process. The investigations involve hand and mechanical excavation and mechanical boring of cores in an undeveloped area of coastal prairie.	NOE	
2014098335	Technical and Policy Assistance for California's Statewide Zero-Emission Vehicle (ZEV) Infrastructure Plan Energy Commission -- The purpose of contracting with Alternative Energy System Consulting, Inc. is to develop a Statewide Strategic Plan to guide the development and funding of electric vehicle charging station (EVCS) infrastructure in order to meet the goals of the Governor's Executive Order B-16-2012 and Zero-Emission Vehicle (ZEV) Action Plan. The work to be performed involves data collection, analysis, consulting, and creation of documents for submission to the Energy Commission. The beneficiaries of the project will include ZEV owners.	NOE	
2014098336	Scour Repairs in MTS Right-of-way at Qualcomm Stadium San Diego Association of Governments San Diego--San Diego The project consists of repairing scour damage to a bridge abutment and supporting berm within the San Diego MTS right-of-way adjacent to the southeast corner of the parking lot at Qualcomm Stadium. The proposed repairs include construction of concrete retaining walls, a concrete cutoff wall, placement of fill in the scoured area, placement of rock slope protection (riprap), and asphalt paving of the damaged parking lot. The bottom of the scoured and eroded hole is currently bare gravel and cobble. The entire scoured and eroded area will be filled and replaced with rip rap. The project site is located adjacent to the San Diego River. It is also within the 100 year flood plan.	NOE

2014098337	Stone Canyon Dam, No. 6-25 Water Resources, Department of Los Angeles, City of--Los Angeles A geotechnical exploration with several piezometer installations for future stability analyses of the dam.	NOE	
2014098338	Greek Style Chicken-Minor Amendment to Conditional Use Permit No. 841 El Cajon, City of El Cajon--San Diego An expansion to an existing restaurant for an additional preparation and storage area.	NOE	
2014098339	San Joaquin Valley Unified Air Pollution Control District Rule Development: Proposed Amendments to Rule 4901 and New Rule 3901 San Joaquin Valley Air Pollution Control District --San Joaquin This is a rule amendment project existing District Rule 4901 (Wood burning Fireplaces and Wood Burning Heaters), and also, to adopt New District Rule 3901 (Fees for Registration of Wood Burning Heaters). Proposed amendments to rule 4901 would encourage owners and uses of older more polluting wood burning heaters and wood burning fireplaces to transition to less polluting alternatives. This project includes: Amendments to Rule 4901 language, proposed new rule 3901, enhancements to the district's Burn Cleaner Incentive Program, and enhancements to the district's forecasting activities to support the tiered curtailments. This transition would benefit Valley air quality throughout the wood burning curtailments because clean wood burning heaters produce significantly less emissions than older polluting heaters and wood burning fireplaces.	NOE	
2014098340	Joseph Gallo Park Improvements Livingston, City of Livingston--Merced The project consists of enhancing an existing City park with improvements for the general public. The park's existing improvements include trees, sod, pedestrian trail, a water well site, and storm drain basin. The project will add a playground area, covered picnic patios, restrooms, and landscaping improvements.	NOE

	existing IID Anza Substation. Two new wells are also proposed as part of the Project. In addition, a major subdivision/tract map is also proposed which would reconfigure the seven existing property parcels (APN: 018-010-025, 018-170-004 thru -013) into eight new individual lots and four common development interest lots.		
2014071051	Chumash Hotel Expansion Project Santa Ynez Band of Chumash Indians --Santa Barbara FYI Final	FIN	
	The Santa Ynez Band of Chumash Indians (Tribe) proposes to expand and renovate the existing Chumash Casino Resort on reservation lands in Santa Barbara County, CA. The proposed project includes the following components: addition of up to 215 hotel guest rooms; addition of 584 parking spaces; expansion of the casino area to ease overcrowding; and renovation of the existing casino and hotel to address overcrowding and circulation issues.		
2014091061	Adelaida Winery / Conditional Use Permit / DRC2013-00049 / ED13-139 San Luis Obispo County Paso Robles--San Luis Obispo Request by Adelaida Cellars for a Conditional Use Permit to allow for a phased 20,171 sf winery expansion of a 23,175 sf existing winery facility that will include the following: construction of a 8,200 building that will include a 2,015 sf tasting area, lounge, VIP library, commercial kitchen, storage rooms, offices and 3,022 sf for barrel storage; a 3,413 sf office addition onto a 10,680 sf winery production building and tasting room (old tasting room will be converted into production space after new tasting is built); and the construction of a 8,558 sf barrel storage building. Case production is proposed to increase from 15,000 cases to 30,000 cases annually.	MND	10/22/2014
2010021063	Owens Gorge Flow Restoration Project Los Angeles County Bishop--Inyo, Mono Based on a series of agreements between the CDFW, Mono County, the State of California, and LADWP proposes to implement a flow regime intended to establish and maintain a fishery in good condition in portions of the Owens River Gorge (Gorge) below the Upper Gorge Power Plant. This would satisfy the requirements of the CA Fish and Game Code Section 5937. The proposed project is intended to enhance the riverine-riparian habitat in the Gorge, while simultaneously maintaining LADWP's power generation and transmission and water storage and distribution capabilities. The proposed project involves implementation of a permanent flow release schedule in the middle of lower reaches of the Gorge between the Upper Gorge Power Plant and the Control Gorge Power Plant set forth in a Stipulation and Order agreed upon by the Mono County District Attorney, Mono County Counsel, LADWP, and CDFW. The flow schedule would include base flows and seasonal peak flows, including channel maintenance peak flows and riparian peak flows. To accommodate the peak flows, the proposed project would also include the protection, reinforcement, and/or modification of some existing LADWP power generation and transmission structures within the Gorge. Additionally, the proposed project would include the installation of a fishway at the existing fish barrier located upstream of the Control Gorge Power Plant.	Neg	10/22/2014

This business would operate 24 hours a day, seven days per week, utilizing three shifts, with approximately 20 persons per shift. The project includes a 116,287 s.f. building, including a 10,000 square foot office area, a 50,000 square foot warehouse area and a 52,482 square foot manufacturing area. On-site structures include 73 foot tall silo tanks and a 135 foot tall drying tower. The project includes parking for 70 vehicles, based on the number of employees anticipated. The project number of vehicle trips per day is 100. Approximately 40 tanker trucks of raw milk would be delivered to the plant per day and 3-5 trucks of other types of deliveries are anticipated. There will also be approximately 5-10 reefer trucks of product shipped out each day. Domestic water needs are estimated at 200,000 gallons per day and estimated sewage per day is 200,000 gallons. Landscaping and other on-site improvements, as well as street frontage improvements associated with the project would also be developed.</p>	NOD	
2014082053	<p>Interim Measures Work Plan, Tesla Motors, Inc. Factory Toxic Substances Control, Department of Fremont--Alameda</p> <p>The Department of Toxic Substances Control (DTSC) is approving an Interim Measures Work Plan (IMW) for the Tesla Facility/Former New United Motor Manufacturing, Inc. (NUMMI) site (hereinafter "the Site") located at 45500 Fremont Blvd., Fremont, California, pursuant to authority granted under California Health & Safety Code, Division 20, Chapter 6.5. DTSC is overseeing investigation and cleanup at the Site under a Corrective Action Consent Agreement (CACA) (Docket No. HWCA P2-13/14-001) with Tesla and NUMMI.</p> <p>The IMW was submitted on September 22, 2014 by The Source Group Inc (SGI) on behalf of NUMMI. The purpose of the IMW is to prevent or minimize exposures to chemicals of concern (COCs) from known contaminated source areas in soil and groundwater and prevent migration of COCs from source areas to underlying groundwater. The interim removal action proposed for the Site consists of the following activities: excavation and off-site disposal of approximately 14,585 cubic yards ("yd3") of lead, total petroleum hydrocarbon (TPH), benzene, toluene, ethylbenzene, and xylenes (BTEX), and naphthalene contaminated soil from two areas, the Former Fuel Dispenser Island and Former Tank Farm Area (hereinafter the "Project Area"); soil will be transported off-site to approved Class I or Class II Landfills; excavation area groundwater will be removed and treated using granular activated carbon prior to discharge under permit to the Union Sanitation District ("USD"), the local Publically Owned Treatment Works "POTW"); after completion of removal activities, excavation areas will be backfilled with approximately 3,167 yd3 clean crushed rock and 20,622 yd3 clean fill soil from local sources. After backfilling, concrete and asphalt barriers will be installed to return the surface of the Project Area to its current covered condition. Groundwater monitoring wells that are within the excavation footprint will be destroyed and reinstalled after the Project Area is restored. The project activities are expected to be completed in approximately 100 days.</p>	NOD

2003062154	Mercer Fraser Willow Creek Gravel Bar Mining Plan Humboldt County --Humboldt The project is limited to two encroachments for aggregate extraction from the channel of the Trinity River for commercial purposes. The Permittee proposes to remove up to 40,000 cubic yards of gravel from the Willow Creek bar, and up to 10,000 cubic yards of gravel from the McKnight bar.	NOD	
2006042052	Keithly Ranch / Highway 175 Quarry Expansion Lake County Lakeport--Lake The California Department of Fish and Wildlife (CDFW) has executed Lake and Streambed Alteration Agreement number 1600-2014-0077-R2, pursuant to section 1602 of the Fish and Game Code to the project Applicant, Granite Construction Company. The project is limited to the continued placement of fill material (soil, rock and overburden from mining operations) into engineered stockpile locations, which includes the removal and re-routing of ephemeral stream and drainage channels within the mining area around or under the stockpiles. On-going re-vegetation work, stream bank and channel stabilization will occur to ensure continued access and site stability. Approximately 8,000 linear feet of stream/drainage segments will be constructed to connect the existing northern stream channel with the new re-routed segments	NOD

	around the quarry site. In addition, approximately 12 acres of wetlands and 1 acre of perennial pond will be created and maintained to off-set impacts to waters.		
2008112043	Permit 10478 Time Extension Project East Bay Municipal Utility District --Alameda, Contra Costa, Amador, Calaveras, San Joaquin The Permit 10478 Time Extension Project would extend the term of EBMUD's existing water right Permit 10478 to year 2040 to allow EBMUD additional time to apply its surface waters from the Mokelumne River to beneficial use. Under Permit 10478, EBMUD is authorized to divert up to 194 cubic feet per second (125 million gallons per day) from the Mokelumne River for direct use from December to July 1 and can divert up to 353,000 acre feet per year of water to storage in Camanche and Pardee Reservoirs between December 1 and July 1, all for municipal uses in EBMUD's service area in Contra Costa and Alameda Counties. The Lower Mokelumne River, Camanche and Pardee Reservoirs, and associated diversion and conveyance facilities are located in or border on Amador, Calaveras, Sacramento and San Joaquin Counties.	NOD	
2012052019	Permit Coordination Program Mendocino County --Mendocino The California Department of Fish and Wildlife (CDFW) has executed Lake and Streambed Alteration Agreement number 1600-2014-0188-R1, pursuant to section 1602 of the Fish and Game Code to the project Applicant, Linda MacElwee representing the Mendocino County Resource Conservation District. The project involves one encroachment involving: a) removing a fish migration barrier emanating from failing 6-foot diameter culvert at an abandoned section of Highway 128; b) excavating and otherwise preventing 3,250 cubic-yards of sediment from delivering to the stream; c) restore the adjacent stream channel by removing invasive plant species and replanting with native species; and d) installing log-based bioengineered structures in the re-worked channel to serve as grade control and habitat improvement features.	NOD	
2012052019	Permit Coordination Program Mendocino County Ukiah--Mendocino The California Department of Fish and Wildlife (CDFW) is issuing an Agreement for the following three encroachments: 1) stabilization of an eroded streambank using bioengineered techniques including: a) rock, gravel and live willow brush layer lifts, b) vegetated boulder deflectors and c) live willow brush mattresses; 2) installation of a fish habitat structure using one or more on-site fallen trees and 3) gravel skimming from nearby Feliz Creek to provide fill materials for streambank stabilization work.	NOD	
2012072042	Los Lamos Boat Launch Facility Repair Nevada Irrigation District --Nevada The California Department of Fish and Wildlife is executing Lake or Streambed Alteration Agreement number 1600-2013-0170-R2, pursuant to Section 1602 of the Fish and Game Code to the project applicant, Nevada Irrigation District. The project is limited to a) widening and improving the existing 8-foot wide by 75-foot long concrete boat ramp, to the west by 4-feet, using 4-inch thick concrete placed over landscape fabric; b) constructing a three point turn around connecting	NOD

	the boat ramp and access way to the existing gravel roadway using 4-inch thick concrete placed over landscape fabric; and c) the addition of natural rock edging (boulders) to contain vehicle access to the delineated area.		
	The project includes approximately 1,516-square feet of new concrete surface area. The project will be completed while the lake is at its lowest level and will take approximately five working days to complete. No vegetation removal is required to complete the project.		
2013072066	Mercer-Fraiser Canevari Site Surface Mine Humboldt County Fortuna--Humboldt The project entails 2 stream encroachments for aggregate extraction from the channel of the Eel River for commercial purposes. The Permittee legal entitlement with Humboldt County is for the extraction of up to 270,000 cubic yards of gravel annually from the Sandy Prairie and Canevari Bars.	NOD	
2014042073	Wastewater Infrastructure Rehabilitation Project Clearlake Oaks County Water District Clearlake--Lake Proposed wastewater system modifications consist of improvements to existing facilities, including: 1) a new isolation gate flow splitter valve; 2) cleaning and replacing components in the existing oxidation ditch; 3) installing a new secondary clarifier; 4) installing a new cement-lined sludge drying bed; 5) re-lining the existing aerated lagoon (Lagoon No. 2); and 6) rehabilitation of the existing wastewater lift stations. The Proposed Project would increase the reliability and treatment efficiency of the WWTP, but would not increase the overall capacity of the WWTP.	NOD	
2014042074	Water Infrastructure Rehabilitation Project Clearlake Oaks County Water District Clearlake--Lake The proposed water infrastructure rehabilitation project (Proposed Project consists of: 1) water treatment plant improvements, including new filters and pumps; 2) constructing and/or replacing existing tanks in order to meet both storage and fire flow requirements; 3) constructing and/or replacing booster pump stations at the tank sites; and 4) operational components, such as new water meters throughout the service area and new software at the water treatment plant to collect and monitor data. The Proposed Project would not increase the capacity of the existing water treatment plant but would increase the total theoretic storage capacity of the District's water storage tanks from 822,650 gallons to approximately 1,124,931 gallons.	NOD	
2014099009	Wildhawk North Project. SAA 1600-2014-0048-R2 Sacramento County Elk Grove--Sacramento The California Department of Fish and Wildlife is executing Lake or Streambed Alteration Agreement number 1600-2014-0048-R2 pursuant to Section 1602 of the Fish and Game Code to the project applicant, SacMetro Lane Development, Inc. The project consists of 849 single family residential lots, park sites, detention basin, and open space corridor containing the Gerber Creek channel and a pedestrian/bike trail. As part of the project development, Gerber Creek will be deepened and widened to convey 100-year storm water run-off through the project area. The Gerber Creek	NOD

2002011116	Addendum to the Inland Empire Utilities Agency's Facilities Master Plans PEIR for the 930 Zone Recycled Water Projects Inland Empire Utilities Agency Chino Hills--San Bernardino Note: Addendum 14 day review period	ADM	10/09/2014
------------	--	------------	------------

The proposed Wineville Recycled Water Pipeline Project is being developed by the Inland Empire Utilities Agency (IEUA or Agency) in cooperation with the City of Fontana and the Fontana Water Company. This project is a second-tier project (Phase II) being implemented under the Recycled Water Master Plan element of the Agency's Facilities Master Plans (FMP) Program Environmental Impact Report (PEIR). The IEUA's goal is to reuse, to the extent practicable, recycled water that is produced at IEUA's Regional Wastewater Reclamation Facilities (WWRFs). Primary goals are to reduce dependency of the Chino Basin on imported State Water Project (SWP) water; to offset pumping that exceeds the Basin's safe yield; and to improve groundwater quality in the Basin.

Earlier this year contract was issued to Mike Bubalo Construction Co., Inc. for the construction of the Wineville Segment "B" recycled water system. As part of the Company's due diligence, it conducted a "value engineering" assessment of the original Wineville recycled water pipeline alignments. As a result of this value engineering assessment, the Company suggested that IEUA consider an alternative alignment for a portion of the Segment B alignment. After careful review, IEUA concluded that Option A would meet the objectives of providing recycled water to local public landscaped areas and it would reduce the total lineal footage of recycled water pipeline to be installed by approximately 2,400 lineal feet. At this point IEUA requested an environmental evaluation of the potential environmental effects of installing the Option A alignment of the Wineville Recycled Water Pipeline alignment compared to that approved by both IEUA and the State Board. This Addendum has been prepared to address the Option A alignment.

2013041070	Santa Barbara County Reliability Project Public Utilities Commission Ventura, Carpinteria, Santa Barbara--Santa Barbara, Ventura Southern California Edison Company (SCE, or the applicant) proposes to construct the Santa Barbara County Reliability Project (proposed project) between the City of Ventura, in Ventura County, and the City of Carpinteria, in Santa Barbara County. 2009062029	Coldstream Specific Plan Truckee, City of --Nevada The Coldstream Specific Plan encompasses a 178.6 acre site and will allow development of up to 300 residential units, 30,000 square feet of commercial uses, construction of a 3.8 acre neighborhood park and approximately 108 acres of preserved open space. The Plan also allows a number of infrastructure improvements, including new utilities, creek and pond restoration, construction of on-site and off-site segments of the Truckee River Legacy Trail, and a new vehicular bridge over Cold Creek.	NOD	
2012052017	EchoWater Project (formerly the Advanced Wastewater Treatment Plant Project) Sacramento Regional Sanitation District Elk Grove--Sacramento The Sacramento Regional County Sanitation District (District) will upgrade its existing facilities at the Sacramento Regional Wastewater Plant to meet National Pollutant Discharge Elimination System permit requirements issued by the Central Valley Regional Water Quality Control Board as confirmed and modified by the State Water Resources Control Board. To meet permit terms, the District is required to reduce total nitrogen and ammonia levels in its effluent through a biological nutrient removal facility and provide tertiary filtration for pathogen removal. Permitted capacity will be unchanged.	NOD	
2013031022	Corona Regional Medical Center Expansion Corona, City of Corona--Riverside The Corona Regional Medical Center expansion project involves an expansion to the existing hospital located at 800 South Main Street and the construction of a new multi-story medical office building and multi-story parking structure. The project will establish a medical campus on 9.3 acres that will extend westward from the existing hospital to Sheridan Street. The applications associated with the project include a General Plan Amendment (GPA12-005), an amendment to the Downtown Revitalization Specific Plan (SPA12-006), Parcel Map (PM36499) and Conditional Use Permit (CUP12-006), along with certification of a Final EIR.	NOD	
2013111022	Lido House Hotel Newport Beach, City of Newport Beach--Orange The City is leasing the majority of the project site for the development of a 130-room Lido House Hotel. The proposed hotel would also include meeting rooms, accessory retail spaces, a restaurant, lobby bar, rooftop bar, guest pool and recreational areas, and all required appurtenant facilities including, but not limited to on-site parking, landscaping, utilities, and adjoining public improvements. The hotel would be no larger than 98,725 gross square feet. The project would also provide 148 surface parking spaces and would accommodate additional parking through active parking management including valet parking service. The proposed structures would be approximately four-stories with architectural features up to 58.5-feet in height. The project would also include public open spaces consisting of pedestrian plazas, landscape areas, and other amenities proposed to be located along Newport Boulevard and 32nd Street. The project also includes the following discretionary actions: General Plan Amendment, Coastal Land Use Plan Amendment, Zoning Code Amendment, Site Development Review, Conditional Use Permit, Traffic Study, and a Ground lease. The project also includes relocating a portion of the existing, angled, metered	NOD

2014081005	Santa Margarita Creek Bank Stabilization Caltrans #5 --San Luis Obispo The California Department of Transportation (Caltrans) proposes to stabilize the bank of Santa Margarita Creek located north of the City of San Luis Obispo on U.S. 101 in San Luis Obispo County. The purpose of the work is to prevent further erosion into the State right-of-way and eventually the northbound lanes of US 101. The project will reclaim lost shoulder width and traffic recovery area by restoring the original bank alignment, removing accumulated material in the original flow line, and stabilizing the bank against future erosion.	NOD	
2014098383	357 N. Westwind - Large Family Day Care, AZP 35 El Cajon, City of El Cajon--San Diego Juarez Family Child Care has applied for an Administrative Zoning Permit to conduct a large family day care home at 357 N Westland Drive. The permit is to expand the number of children at the day care home from eight to fourteen. The expanded day care home will provide additional child care services for the community.	NOE	
2014098384	Woods Creek Rock Wall Maintenance Fish & Wildlife #4 Sonora--Tuolumne The Project involves activities related to repair and maintenance of an existing rock wall and the removal of overgrown vegetation and debris over approximately 900 linear feet of stream, within and adjacent to Woods Creek, to maintain channel capacity and maintain erosion control. The Project also includes the diversion of up to 0.25 acre-feet of water from Woods Creek annually for personal use. Activitieis may occur annually on an as-needed basis.	NOE	
2014098385	Stone Corral Creek Syphon Repair Project (SSA# 1600-2014-0174-R2) Fish & Wildlife #2 --Colusa The Project consists of repairing the existing syphon and the bank that has eroded around it. Repairs will require minor excavation around the syphon to gain access to the leak. Bank repair will include back filling the area around the syphon with soil, concrete and rip-rap. Approximately 20 cubic yards of material will be used to repair the erosion. The creek will be dried out dute to reduction of irrigation and no water being run through the syphon during repairs. Minor impacts to the bank of Stone Corral Creek will occur to access the site and includes removing dense blackberries that line both sides of the creek at this location.	NOE	
2014098386	Sale of Real Property from Del Norte County to the Border Coast Regional Airport Authority Del Norte County --Del Norte The County proposes to sell 74 undeveloped lots within the Pacific Shores Subdivision which are not required for the County's use but are required for the public purpose of the Border Coast Regional Airport Authority. The lots will partially mititgate wetland impacts of the Authority's Runway Safety Area Project at McNamara Field.	NOE

2014098387	Woodstove Replacemetrn Program Mono County Mammoth Lakes--Mono Mono County's Woodstove Replacement Program (WRP) is funded by 'Environmental Public Benefit Funds' from the Great Basin Unified Air Pollution Control District specifically for the purpose of funding air pollution reduction projects within the Air District. WRP is intended to identify and encourage the replacement of non-EPA compliant wood burning systems throughout project location with new, EPA Phase 2 heating appliances, thereby providing more efficient and cleaner burning heating systems that result in significantly less wood smoke particulate emissions throughout Mono County and beyond. Additionally, WRP will also encourage the replacement of compliant woodstoves with much cleaner burning pellet or gas heating appliances, also resulting in significantly less wood smoke emissions.	NOE	
2014098388	High Friction Surface Treatment Caltrans #3 --Yolo, El Dorado, Sacramento Caltrans is proposing to apply a high friction surface treatment on the lanes/shoulders at four locations in El Dorado, Yolo and Sacramento counties. It includes the placement of new striping and pavement markings. The purpose of the project is to increase pavement friction and reduce the potential for wet weather collisions.	NOE	
2014098389	Backup Generator Installation San Diego Metropolitan Transit San Diego--San Diego Installation of 755 hp backup generator at 1535 Newton Avenue in San Diego for emergency electrical supply. The generator is EPA-certified as a "Tier 2" engine, and is fully compliant with local, state and federal regulations.	NOE	
2014098390	Above-Ground Storage Tank Installation San Diego Metropolitan Transit San Diego--San Diego Relocation of a 1,000 gallon above-ground storage tank (AST) from 100 16th Street, San Diego to 1601 Newton Avenue (the "Facility") in San Diego. The Facility currently operates as a vehicle fleet parking, maintenance, repair and painting facility. The AST will be located on a concrete slab of 8 feet by 10 feet in size. The AST will be filled with approximately 1,800 gallons of fuel per week. The AST will be equipped with gasoline vapor controls to significantly reduce emissions of volatile organic compounds and hazardous air pollutants. Only vehicles equipped with State-certified On-Road Vapor Recovery (ORVR) systems will be fueled from the AST. The AST will only fuel gasoline-powered MTS vehicles which are currently parked and maintained at the Facility, but which are currently refueled elsewhere. Busses will not be fueled at the facility.	NOE	
2014098391	Renewable Energy ORdinance (PA#14-22) Davis, City of Davis--Yolo The project is an ordinance amendment to establish requirements and standards for the installation of solar photovoltaic systems on new single-family dwellings and duplexes. The purpose of the ordinance is to encourage the use of renewalbe energy sources, reduce energy costs and installation costs for homeowners and help the City achieve its targets for the reduction of greenhouse gas emission.	NOE

	management of all pests on District properties. IPM is a long-term, science-based, decision-making system that uses a specific methodology to manage damage from pests. The proposed IPM Program would provide guidance for careful management of pests while protecting natural resources and public health. IPM requires that non-chemical methods be considered in addition to chemical methods. If chemical methods are necessary to meet a pest control objective, the potential for harm to the public and workers is carefully considered, as are effects on the environment, and then the least toxic and most effective, efficient, and target-specific method is chosen.		
2014012012	Rinconada Water Treatment Plant Reliability Improvement Project Santa Clara Valley Water District Los Gatos--Santa Clara The RWTP was commissioned in 1968 and is the oldest of the District's treatment plants. Numerous components of the RWTP are nearing the end of their useful lives. This, coupled with increasingly more stringent water quality and code requirements, make upgrades to the plant essential to ensure compliance with drinking water quality regulations and the reliability of its operation and the water supply for the western service area. The District proposes to improve the existing water treatment train at the aging Rinconada Water Treatment Plant (RWTP) to improve drinking water quality and reliability of operations. The Project proposes demolition/removal of many of the existing treatment facilities and processes and reconstruction of a new state-of-the-art water treatment facility within the existing water treatment plant property, while keeping the plant running at all times.	EIR	11/10/2014
2014042013	Tesoro Avon Marine Oil Terminal Lease Consideration California State Lands Commission Martinez--Contra Costa The proposed Project involves Tesoro Refining and Marketing Company (Tesoro) entering into a new 30-year lease of State sovereign land with the CSLC to continue operating the Avon Marine Oil Terminal, thereby maintaining the operation and viability of Tesoro's associated Golden Eagle Refinery. Tesoro will also be conducting upgrades on the Avon Terminal to meet Marine Oil Terminal Engineering Maintenance Standards (MOTEMS). Upgrades will include: the decommissioning (demolition and removal) of Berth 1; construction of a new berthing area, Berth1A; repairs, retrofits, and construction on the existing approach trestle; and demolition and removal of existing Berth 5. The development would occur within the portion of the project site zoned IP-1-1. The project would also construction various site improvements, which includes retaining walls, hardscape, and landscaping. The project would achieve a Leadership in energy and Environmental Design (LEED) silver Certification. The developed 41.67-acre project is located at 10300 Campus Point Drive. The project site is designated Scientific Research and is zoned IP-1-1 (Industrial - Park, allows research and development uses with some limited manufacturing), RS-1-7 (Residential--Single Unit, which requires minimum 5,000-sq.ft. lots), and RS-1-14 (Residential--Single Unity, which requires minimum 5,000-sq.ft. lots). In addition, project site is within the Campus Parking Impact Overlay Zones, Community Plan Implementation Overlay Zone (CPIOZ) Areas "A" & "B" of the University Community Plan, Airport Land Use Compatibility Overlay Zone for Marine Corps Air Station (MCAS) Miramar and Airport Environs Overlay Zone, Airport Influence Area (Review Area 1), Overflight Notification area and the Federal Aviation Administration (FAA) Part 77 Noticing Area for MCAS Miramar within the University Community Plan area. The site is not included on any Govt. Code listing of hazardous waste sites.</p>	NOP	10/27/2014
2014091074	<p>Willowbrook/Rosa Parks Station Improvement Project Metropolitan Transportation Authority --Los Angeles</p> <p>The Willowbrook/Rosa Parks Station Improvement Project ("Project) proposes improvements to the Willowbrook/Rosa Parks Station ("Station"), which includes acquisition of station area property. The Station consists of the Metro Blue and Green light rail transit (LRT) lines and a major bus and shuttle depot. The Project aims to better connect the more than 30,000 daily transit riders from the Station to nearby education, cultural, and recreational attractions. It will also improve connections to community resources such as healthy services, jobs, and training at the recently expanded Martin Luther King, Jr. Medical Center Campus and Charles R. Drew University of Medicine and; to better integrate with the adjacent Kenneth Hahn Plaza Shopping Center, and to serve as the "gateway" to the Willowbrook community.</p>	NOP	10/27/2014

2014062074	<p>General Waste Discharge Requirements for Discharges to Land by Small Domestic Wastewater Treatment Systems State Water Resources Control Board --Sacramento</p> <p>The State Water Board prepared a General Order for land application of treated wastewater from small domestic wastewater and treatment systems that will be applicable statewide. The General Order will allow a monthly average flow rate up to 100,000 gpd and will allow the use of recycled water consistent with California Code of Regulations (CCR) Title 22. Wastewater treatment systems will vary from septic tanks, activated sludge treatment facilities, to pond facilities. The minimum level of treatment will be determined by requirements of the General Order, Regional Water Board Basin Plans, CCR Title 22, and mitigation measures required by future site-specific CEQA evaluations. The General Order will be used by Regional Water Boards to streamline permitting of small domestic wastewater treatment systems, which typically are relatively low threat to groundwater quality.</p>	NOD

2000102055	Stream Maintenance Program Update 2012-2022 Santa Clara Valley Water District Milpitas, Cupertino, Gilroy, Los Altos, San Jose, ...--Santa Clara The Santa Clara Valley Water District's Stream Maintenance Program is an ongoing program to address routine maintenance activities in Santa Clara County streams, creeks, and flood control channels. Routine maintenance activities include sediment removal, vegetation management, bank stabilization, minor maintenance, and management of animal conflicts. The California Department of Fish and Wildlife is executing a Lake and Streambed Alteration Agreement Number 1600-2011-0336-R3 pursuant to Section 1602 of the Fish and Game Code to the project Applicant, Norma Camacho, Santa Clara Valley Water District.	NOD	
2004112063	Master Permit for Env. Enhancement Projects Santa Cruz County Capitola--Santa Cruz The purpose of the project is to reduce episodic and chronic sediment loading to Lompico Creek. The project is limited to the following activities: reducing sediment loading to the creek from an 830-foot section of the main access road by removing six culverts, outsloping the road and installing a series of rolling dips, one of which will be armored with rock and include a rock swale. One of the project components includes the removal of a failing culvert along the portion of road that is/will no longer be used for vehicle access. This culvert drains a small ephemeral drainage to Lompico Creek and outlets along an actively eroding earthen dam. Stabilization of this project component consists of grading a 260-foot reach of the right bank of Lompico Creek to a less steep configuration, planting the graded areas with native vegetation, removing the culvert on the drainage, re-grading a 74-foot section of the tributary channel, and lining the newly exposed section of the tributary channel with geotextile fabric, rock, gravel and wood materials. The California Department of Fish and Wildlife is executing a Lake and Streambed Alteration Agreement Number 1600-2014-0182-R3 pursuant to Section 1602 of the Fish and Game Code to the project Applicant, Jim Mueller, San Lorenzo Valley Water District.	NOD

	the Sacramento San Joaquin Delta and in the San Francisco Bay Area. Water transfers would occur through various methods such as groundwater substation, cropland idling, reservoir releases, or conservation and would include individual and multi-year transfers from 2015 through 2024. The transfers could originate in Colusa, Butte, Glenn, Merced, Placer, Sacramento, Shasta, Solano, Sutter, Tehama, Yolo, Or Yuba counties. The transfer buyers could be in Alameda, Contra Costa, Fresno, Kings, Merced, San Benito, San Joaquin, Santa Clara, or Stanislaus countries.		
2013031081	The Los Coyotes Country Club Development Plan - Formerly the Resort at Los Coyotes Buena Park, City of Buena Park--Orange Note: Extended Per Lead	EIR	12/01/2014
	The project includes the demolition of the existing management office space, former swimming pool and tennis courts north of the clubhouse to construct 125 private residences and 10,000 sf of space to the clubhouse. The 10,000 sf of space to the clubhouse consists of 5,000 sf of gathering/event space, 1,000 sf of private meeting space and 4,000 sf of country club management office space. The project will remove the six existing tennis courts and construct two replacement courts and surface parking in the area northeast of the proposed residences. An existing golf practice area will be enhanced and graded, including paving a dirt golf cart path.		
2014041091	Iris Cluster Solar Farm Project Imperial County Calexico--Imperial Note: Review Per Lead	EIR	11/19/2014
	The Ferrell, Rockwood, Iris and Lyons Solar Projects involve the construction of four utility-scale Photovoltaic solar facilities on four non-contiguous independent sites encompassing approximately 1,422 acres. Each Project would include a ground mounted photovoltaic solar power generating system, supporting structures, inverter modules, pad mounted transformers, a water treatment system, plant control system, access roads and fencing, an O&M building, and an on-site substation. Each Project would have its own O&M building and onsite substation(s); but may utilize shared facilities with one or more neighboring solar project(s). Each Project would also connect a 230 kilovolt overhead transmission line which may also be shared with one or more neighboring solar project(s). Project includes approval of CUPs, Variances, and W.A. Cancellations.		
2014091082	ENV-2013-2369-MND Los Angeles, City of Los Angeles, City of--Los Angeles A new gas station in conjunction with Food 4 Less grocery store to include (1) 92 feet x 43 feet fueling canopy, (1) 173 sf kiosk with restroom, 5 gas dispensers, 2 underground storage tanks and associated fueling components, trash enclosure monument sign in corner landscape planter and additional signage on fueling canopy and kiosk, and an air/water unit. The gas station's proposed hours of operation 24 hours / 7 days a week, and is attended daily from 6:00 am to 10:00 pm. The lot area is 22,415 sf (0.51 acres) in area, developed within an existing shopping center (Sylmar Towne Shopping Center) of 12.29 acres, zoned Q C4-1.	MND	10/29/2014

2014091083	Sylmar - Starbucks Los Angeles, City of Los Angeles, City of--Los Angeles The project involves the demolition of a one-story, 5,060 sf, commercial building and the construction of a 2,240 sf and a 5,500 sf building, for a total of 7,740 sf.	MND	10/29/2014
2014092084	Smith Village/Pantoja Lane Santa Rosa, City of Santa Rosa--Sonoma The proposed projects would allow development of 67 single family residential lots in two proposed subdivisions. Fifty one of the lots (ranging in size from 3,828 sf to 6,526 sf) would be developed with detached single family homes while 16 of the lots (ranging in size from 1,923 sf to 4,304 sf) would be developed with attached single family row houses constructed as duets, fronting onto Sebastopol Road. The project applicants have provided a Climate Action Plan Checklist which specifies individual measures and features that will be incorporated into the project design to bring GHG impacts to less than significant levels.	MND	10/29/2014
2014102003	Solar Photovoltaic Array Project Grass Valley, City of Grass Valley--Nevada The proposed Grass Valley Photovoltaic project includes a 750 kW ground mounted photovoltaic system that would cover approximately 3 acres of land. The ground mount system will face to the southwest and the height will be 5.5' on the high side and 2' on the low side. The project will require minimal grading and the removal of approximately 3 acres of vegetation consisting of Manzanita shrubs, Grey and Ponderosa pines, Black and scrub oaks. Portions of the site include storage of City scrap materials.	MND	10/30/2014
2014092082	South Shoreline Specific Plan Richmond, City of Richmond--Contra Costa The Project is the preparation and adoption of a Specific Plan for Richmond's South Shoreline area (Plan Area). The Specific Plan will establish planning policies, land use controls, development standards, and urban design guidelines that will guide the Plan Area's transformation into a sustainable waterfront community anchored by the planned Berkeley Global Campus at Richmond Bay (formally referred to as the UC Berkeley at Richmond Bay Campus). Under the Specific Plan, the Plan Area would be developed into several compact, walkable neighborhoods characterized by mixed-use commercial and medium-density residential development near public transit, jobs, schools, shopping, parks, recreation, and other amenities, consistent with the goals and policies in Richmond's General Plan 2030.	NOP	10/29/2014
2014092083	PA-0900179 - Use Permit Application San Joaquin County --San Joaquin A Use Permit application to allow for public and community assembly events within an existing 12,000 sf multi-purpose assembly hall.
