STATE CLEARINGHOUSE

**SUMMARY
OF
POSTINGS**

September 16 – 30, 2015

STATE CLEARINGHOUSE SUMMARY OF POSTINGS

The State Clearinghouse distributes draft environmental documents to state agencies for review and comment, pursuant to the California Environmental Quality Act (CEQA). The State Clearinghouse also acts as the State Single Point of Contact for the review of federal grant applications and federal development projects. This Summary of Postings summarizes the environmental documents and federal grant applications received by the Clearinghouse during the period **September 16 – 30, 2015**.

CLEARINGHOUSE CONTACTS

Please contact The State Clearinghouse if you have any questions regarding processing of environmental documents or grant applications. We may be reached at:

Telephone: (916) 445-0613
Fax: (916) 323-3018
e-mail: state.clearinghouse@opr.ca.gov
website: www.opr.ca.gov

Questions regarding federal grant notices should be directed to **Sheila Brown**.

Questions regarding processing of environmental documents should be directed to:

Scott Morgan
Director

CLEARINGHOUSE MAILING ADDRESS

The mailing address is:

2015-16	<p>United Auburn Indian Community of the Auburn Rancheria of CA - APNs: 040-310-001-510 & 520 Bureau of Indian Affairs Auburn--Placer</p> <p>The subject property consists of two (2) parcels containing ~0.43 acres which are located at 10810 Indian Hill Road. The subject parcels include two structures and a small paved parking lot. The main building is used as a church (Crossroads Fellowship Assembly of God) and the smaller structure, a utility shed, is used as storage space for the church. The paved parking lot provides parking for ~11 vehicles, including one space designated for handicap parking. This property also includes a fenced lawn and a children's playground.</p> <p>The property has been used by tribal members as a place of worship since the early 20th century.</p>	BIA	10/15/2015
2014081031	<p>Sycamore-Penasquitos 230 Kilavolt Transmission Line Project Public Utilities Commission Poway, San Diego--San Diego</p> <p>San Diego Gas & Electric proposes to construct and operate an approximately 16.7-mile long 230 Kilavolt transmission line between the Sycamore Canyon and Penasquitos Substations. The transmission line would be located within the Cities of Poway and San Diego and a short segment is located on Marine Corps Air Station Miramar. The proposed power line would include approximately 13.5 miles of overhead line on new tubular steel poles and existing steel towers and 3 miles of underground line within Carmel Valley Road.</p>	EIR	10/30/2015
2015091042	<p>William & Susan Bandit, Zone Change #15-0004 Imperial County Calipatria--Imperial</p> <p>The applicants propose a Zone Change from the A2RG (General Agriculture/Rural/Geothermal Overlay) Zone to A3G (Heavy Agriculture/Geothermal Overlay) Zone to add 18,000 cattle as an expansion of the existing Brandt Cattle Feedlot with a feed stacking/storage area of eastern portion of the parcel.</p>	MND	10/15/2015
2015091043	<p>Westmont Assisted Living and Memory Care Facility Encinitas, City of Encinitas--San Diego</p> <p>The project proposes an assisted living and memory care facility on 3.24 acres. The two-story facility would contain 110,073 sf and include 101 assisted living suites and 21 memory care suites.</p>	MND	10/15/2015
2015092043	<p>Redevelop an Existing 1.56 Acre Site into a 162 Room, Five Story Hotel with Underground Parking by Myhre Group Sunnyvale, City of Sunnyvale--Santa Clara</p> <p>Special Development Permit to redevelop an existing 1.56 acre site into a 162 room, five story hotel with underground parking and Variance to allow solar shading to exceed the maximum 10% on an adjacent commercial building.</p>	MND	10/15/2015

<u>Documents Received on Wednesday, September 16, 2015</u>			
2015092040	GP Policy 5.5.17 (b) Amendment to S7.38.060 and S7.38.080 of SCCC Santa Cruz County --Santa Cruz Amend Section 7.38.060 (C) to allow the use of an offsite easement for sewage disposal to allow development of publicly owned facilities on sites not suitable for onsite sewage disposal where such a facility would provide a public benefit. Amend General Plan Policy 5.5.17 (b) and Section 7.38.080 (C) of the County Code to extend the time frame for reconstruction from three years to ten years after a calamity. The minimum parcel size requirements as outlined in Section 7.38.045 currently preclude reconstruction after three years on any parcel not meeting the required parcel size. The ordinance amendment would allow reconstruction within 10 years of the date of the calamity. The proposed amendments would go into effect outside of the coastal zone thirty days after adoption by the Board of Supervisors, and within the coastal zone following California Coastal Commission certification.	Neg	10/15/2015
2015092041	Tentative Parcel Map (File # TPM13-0008) Butte County Oroville--Butte Divide a 35 acre parcel with two existing single family homes into three parcels of 23.82, 5.79 and 5.17 acres in size. Homes to be served by well and septic, with access from Drescher Tract Road.	Neg	10/15/2015
2015092044	Short-Term Rentals in the R-1 Zone District Mount Shasta, City of Mount Shasta--Siskiyou The proposed project is a zone amendment in the Low Density Residential (R-1) District to allow short-term rentals. Per the Mt. Shasta Municipal Code, Section 18.16.040 short-term rentals (defined as being a term shorter than 30 days) are prohibited in the R-1 District. Short-term rentals are currently permitted in the Medium Density and High Density Residential District and the Downtown and General Commercial zone districts. Short-term rentals may include rental of an entire building (house or secondary unit on a property), a room (room within a house, motel, hotel, bed and breakfast), or less common a couch or small space within a house suitable for sleeping accommodations. <u>Documents Received on Wednesday, September 16, 2015</u>			
2015098252	Reed Creek Repair Fish & Wildlife #3 --Marin Project involves constructing bio-technical bank stabilization along approx. 15 linear feet of stream channel. The stabilization will occur on 10 vertical feet of stream bank and will be a 1:1 sloped bank with rock riprap along the lower half of the bank and joint planted rock and on the upper half of the bank. Issuance of a Lakebed Alteration Agreement No. 1600-2015-0225-R3 is pursuant to Fish and Game Code Section 1602.	NOE	
2015098253	Riverside Drive Stream Bank Protection and Restoration Project Fish & Wildlife #3 --Sonoma Project is limited to bank stabilization activities along approx. 200 linear feet of river bank. Work will occur at three participating landowner's properties, with one non-participating land owner located in the middle of the repair reach. The stabilization work at the three participating residences includes the use of live willows and stacked boulders along the toe of the river bank and vegetated soil lifts above the stacked boulders. An area of approx. 6,550 sq. ft. bank area will be impacted. Issuance of a Lakebed Alteration Agreement No. 1600-2015-0226-R3 is pursuant to Fish and Game Code Section 1602.	NOE	
2015098254	20 Aqua Vista Dr., San Rafael, CA Boat Dock Maintenance Project Fish & Wildlife #3 San Rafael--Marin Project involves dredging the bottom bay muds from the stream channel fronting three properties on San Rafael Creek along approx. 250 linear feet of channel. Exhibit A includes a vicinity map and a dredge boundary map. This Agreement covers one dredging episode that will remove approx. 1,600 cubic yards of accumulated bay-muds. The design dredging depth is -6 feet mean lower low water, plus an overdepth allowance of 1 foot. In total, approx. 0.4 acres of channel will be dredged with a barge mounted clamshell dredge. Issuance of a Lakebed Alteration Agreement No. 16002-015-0219-R3 is pursuant to Fish and Game Code Section 1602.	NOE	
2015098255	Seawall and Pile Repair Project Fish & Wildlife #3 Santa Cruz--Santa Cruz Project is limited to the following activities: filling of void areas that have formed behind steel sheet pile seawall with approx. 2 cubic yards of concrete; patching of holes in the steel sheet pile seawall; repair of two deteriorated wood piles supporting a deck with pile jackets. Work is expected to be completed within 5 days and will occur during low tides. Construction equipment that will be used at this site includes; welding equipment, epoxy application equipment, cement mixer, and a boat. Water will be present, however no dewatering is being proposed. No vegetation will be disturbed from the result of project-related activities. CDFW is executing a Lake and Streambed Alteration Agreement No. 1600-2015-0271-R3 pursuant to Section 1602 of the Fish and Game Code.	NOE	
2015098256	Del Valle Pipeline Dewatering Water Resources, Department of Livermore--Alameda DWR Water Operations staff will be releasing water from Turnout's AV-1 (MM 0.90) and AV-2 (MM 1.32) into Arroyo Valle Creek, to allow contractors to replace	NOE

	a turnout valve at MM 0.34 along the Del Valle Branch of the South Bay Aqueduct. Approx. 10,618,000 gallons of raw water, at a rate of 2-3 cfs will be released from Turnout AV-1 and AV-2 into the Arroyo Valle stream bed for ground water recharge. This will allow the head pressure to be released off of the pipeline allowing the contractor to remove the pipeline manhole access lid. The water release will occur over a period of 24 hours. Zone 7 Water Agency has been informed of the influx in water supply. The entire project is within DWR right-of-way.		
2015098257	RCSD Operation of Existing Wells as Raw Water Source for Antelope Valley-East Kern Rosamond Community Services District --Kern The RCSD requests approval to allow Antelope Valley Water Storage, LLC (AVWS) to utilize five existing wells to deliver banked groundwater to the Antelope Valley Water Bank (AVWB) Banking Partners (Partners) via an exchange agreement between Partners and AVEK.	NOE	
2015098258	Issue Right of Entry Permit to the U.S. Bureau of Reclamation to Haul Gravel and Use Well Parks and Recreation, Department of --Sacramento Project will issue a Right of Entry Permit to the U.S. Bureau of Reclamation for the purposes of transporting equipment, vehicles and gravel to and from an excavation site in the Mississippi Bar area of Folsom Lake State Recreation Area. The ROE permit will also allow access to, and use of, water from an existing water well on State lands.	NOE	
2015098259	Frenchman Lake Radio Relay Caltrans #2 --Plumas In order to provide radio coverage of PLU-284 with Caltrans's new 800MHZ radios, it is necessary to install a radio relay.	NOE	
2015098260	1546 Milton Road, Napa, CA - Dock Replacement/Upgrade Regional Water Quality Control Board, Region 2 (San Francisco Bay), Oakland Napa--Napa Project seeks to remove and replace deteriorated old deck, gangway, and dock at a private residence.	NOE	
2015098261	Issue Right of Entry to Caltrans Parks and Recreation, Department of --Del Norte Issue ROE to Caltrans into Del Norte Coast Redwoods State Park for the construction of two walls on U.S. Highway 101, along "Last Chance Grade", to ensure the current roadway of U.S. Highway 101 remains open to vehicular traffic. Project is needed because a deep-seated landslide exacerbated by recent storm damage in undermining the highway in this area.	NOE	
2015098262	Soults Pump & Equipment Company - New Well 02 State Water Resources Control Board --Tulare SWRCB as the lead agency will be issuing a water supply permit. The Soults Pump & Equipment Company proposes to construct a new well (Well 02) to replace the current Well 01. Well 01 went dry in 2015 and the Company needs a replacement source of supply to keep up with demand. The new Well 02 will supply drinking water to the water system. Well 01 will be destroyed once Well 02	NOE

	is operational.		
2015098263	Torrey Pines Lodge - Front Porch Repair Investigations (15/16-SD-09) Parks and Recreation, Department of --San Diego Project will remove sections of exterior plaster on the knee wall on the front porch of the lodge at Torrey Pines State Natural Reserve in order to examine the condition of the pillar; to investigate why the pillar is sinking and what repairs are necessary to support continued maintenance and project public safety.	NOE	
2015098264	Widening of Civic Center Drive Southbound - CIP 8269 Vista, City of Vista--San Diego The proposed project consists of minor street improvements necessary to construct a 200-foot section of the proposed Inland Rail Trail. The proposed improvements would be constructed within a new road right-of-way that would add a third through lane to the westerly side of the street, which would allow the rail trail to be constructed in its ultimate location and minimize conflicts with vehicles. Specific improvements would include an 8-foot wide sidewalk that would serve as a multi-use path for two-way pedestrian and bicycle use, a 5-foot wide landscaped buffer, re-paving and re-striping a portion of the street, minor grading, and relocation/reconfiguration of existing utilities. The future inland Rail Trail would join the project improvements at the north end to cross the railroad racks, and at the south end curb ramp to cross Civic Center Drive and continue into the NCTD Sprinter Station. Easements required to accommodate the project will be acquired by negotiation, or if necessary, by eminent domain.	NOE	
2015098265	RP-5 Recycled Water Pipeline Bottleneck Project, Project No. EN14043 Inland Empire Utilities Agency Chino--San Bernardino The proposed project consists of several actions within the Rp-5 Facility to replace an existing 14-inch pipe section and associated components which create a bottleneck that causes high velocities and losses within the piping system and result in flow reduction in the receiving pipe. The replacement pipe will range between 24" and 30" diameter.	NOE	
2015098266	Paso Pichacho Campground Repaving (CRSP 146) Parks and Recreation, Department of --San Diego Project consists of repaving existing asphalt in the Paso Pichacho Campground of Cuyamaca Rancho State Park. The asphalt is old and failing in many places. The project includes grinding approx. 3,474 lineal feet of existing asphalt. The grinding will remove 2" to 4" of asphalt. Ground disturbance below the asphalt will not exceed 1" in depth. The ground asphalt will be fine graded, compacted, and reused as a sub-base for the new asphalt. In addition 20 campsite parking spurs will receive new asphalt approaches from the road into the parking spur. This work will consist of fine grading the approaches to no more than 6" deep in the parking area; installing 3/4" minus base rock, compacting these base rock, and installing new 2" asphalt paving.	NOE

Documents Received on Thursday, September 17, 2015

2014061027	Highgate Estates Thousand Oaks, City of Thousand Oaks--Ventura The project involves a request from Jemstreet Properties to subdivided approximately 24 acres in order to allow 3 single family residences, with dedication of a 17 acre open space lot; to consider an EIR (EIR No. 2014-70235); to allow removal of approximately 29 scrub oaks; and to allow encroachment into the protected zone of one coast live oak. Access is to be provided through the City of Thousand Oaks via an extension of Highgate Road. The project site is vacant and is bounded by natural open space owned by the Conejo Open Space Conservation Agency (COSCA) to the north, west and a portion of the east side and land developed with single family homes south of the site.	EIR	11/02/2015
2014061081	Highway 59 Landfill Valley Fill Project Merced County Merced--Merced The project involves relocation of certain currently permitted onsite uses and reconfiguration of the disposal area to accommodate an increase in the maximum disposal elevation to 360 feet above mean sea level within a portion of the existing landfill. The project would allow continued operation of the existing landfill for an additional 14 to 26 years within the existing permitted facility boundary. The proposed project involves the modification of the previously approved Highway 59 Landfill Expansion project, which was analyzed in the 1996 Highway 59 Landfill Expansion Project EIR. As part of the implementation of the proposed project, MCRWMA would apply for and obtain an amendment to its existing solid waste facility permit.	EIR	11/02/2015
2014071054	The Reef (formerly SOLA Village) Project Los Angeles, City of Los Angeles, City of--Los Angeles The Project consists of development of a mixed use project containing approximately 2,533,000 sf of development in the [Q]M1-2-O and M1-2-O zones, including modifications to the existing 862,162 sf, approximately 194 foot tall REEF Building, and construction of approximately 1,664,000 sf of new development on the remainder of the Project Site currently occupied by surface parking lots and an 11,150 sf warehouse/storage/distribution building. The REEF would be modified to incorporate a new restaurant and event space on the rooftop, and potentially convert existing whole/showroom space within the REEF to office, retail and restaurant uses. The existing warehouse building and surface parking lots would be demolished and replaced by new construction comprised of an integrated mixed-use development containing residential, hotel, retail/restaurant, grocery store, gallery, and fitness center uses and community spaces which would be accommodated in multiple single- and multi-story buildings ranging in height from up to 85 feet to up to 420 feet, along with public open space areas. The Project would provide at least 2,733 parking spaces in multiple above-ground and subterranean structures.	EIR	11/02/2015

2015091044	Lemonwood Elementary School Reconstruction Project Oxnard School District Oxnard--Ventura The proposed project includes the reconstruction of aging facilities. No change in staffing or capacity is proposed. Proposed new school facilities include a two-story classroom building, multi-purpose room with full kitchen and instructional spaces, administration building, media center/library, kindergarten with play area, green play fields, hard court play areas, and interim preschool facilities. Additionally, the new campus would contain specified support facilities, administration areas, media center, food service, multipurpose room, physical education spaces, and restrooms. The proposed play fields could also be used as neighborhood parks, when school is not in session. One building, one parking lot, and one playground would be maintained from the existing school.	MND	10/16/2015
2015091046	Valencia 3 Solar Project (Conditional Use Permit#15-0021) Imperial County --Imperial Green Light FIT 2, LLC (Green Light) is proposing to develop the Valencia 3 Solar Project (Project), a nominal 3 megawatt alternating current (MWAC) solar photovoltaic (PV) energy generation project, on a portion of about 19 acres of land in Imperial County, CA. 	activities. As with the existing DIF program, the updated program would apply to undeveloped areas that are developed for urban use after the assessment district is formed. The purpose of the DIF program would be to ensure that new development does not substantially increase the expected damage of an uncontrolled flood. Toward this end, the development fees would be used to support implementation of additional flood control improvements.		
2015091045	Central Elementary School and Wilson Middle School Redevelopment Project San Diego Unified School District San Diego--San Diego The district proposes to demolish and rebuild Wilson Middle School, and relocate Central Elementary School onto the existing Wilson site. The new Wilson Middle School would consist of seven science, 19 general purpose, two small group, three special education, as well as six for visual and performing arts. The new Central Elementary School would consist of 28 general purpose classrooms, 11 pre-kindergarten/kindergarten classrooms and four special education classrooms. The new school would also include facilities for the administration, health center, community clinic, media center, daycare, food service, maintenance/support areas and P.E. play courts. In addition, it would have a multipurpose building. An underground parking structure is considered to meet the parking demands.	NOP	10/16/2015
2000072051	Jepson Parkway Project Solano Transportation Authority --Solano This phase of the project (phase two of three) will include widening a majority of Vanden Road to the west of the existing roadway. It will consist of an 8 ft outside shoulder/bike lane with curb and gutter, 2 12-ft lanes, and a 2-ft lane, and a 2-ft wide inside shoulder in each direction, separated by a 16-ft wide landscaped median. Where the roadway will be widened to four lanes, a minimum 10-ft wide landscaped area will be provided on the southeasterly side of Vanden Road. The landscaped areas, adjacent to the roadway, will primarily be vegetated swales, draining to culverts that pass underneath Vanden Road to perpetuate current flow patterns.	NOD	
2004012110	Wood Street Project (Formerly Known as the Central Station Project) Oakland, City of Oakland--Alameda The proposed project includes 47 new residential condominiums on a 2.11-acre site within Development Area 1 of the Wood Street Zoning District (WSZD). The granted approvals include a Preliminary and Final Development Plan, Design Review for new construction, and Vesting Tentative Parcel Map for a one-lot subdivision for condominium purposes. The project relies on the previously certified Final EIR for the Wood Street Project (ER03-0023, SCH# 2004012110 certified March 16, 2005) and the previously certified Final EIR for the West Oakland Specific Plan (ER12-0018; SCH# 2012102047, certified July 15, 2014) (collectively, the Previous CEQA Documents), and will implement all applicable standard conditions of approval and mitigation measures identified in the Previous CEQA Documents. On May 20, 2015, the Planning Commission determined that the project was within the prior scope of the project/approvals evaluated in the Previous CEQA Documents, that none of the circumstances necessitating preparation of additional CEQA review as specified in CEQA and the CEQA Guidelines, including without	NOD

2015062004	Knights Landing Outfall Gates Project Reclamation District No. 108 --Yolo CDFW has executed Lake and Streambed Alteration Agreement no. 1600-2015-0129-R2, pursuant to section 1602 of the fish and game code to the project applicant, Reclamation District 108. This proposed project involves the construction of a positive fish barrier on the downstream side of the existing Knights Landing Outfall Gates (KLOG) in the Colusa Basin Drain (CBD), as well as place a small amount of riprap on the right bank of the CBD immediately downstream of the KLOG. The project will result in permanent impacts to 0.07 acres of riverbank habitat and 0.01 acres of riparian habitat, which will be compensated by purchasing 0.08 acres of the appropriate credits at a CDFW approved mitigation bank.	NOD	
2015082036	San Joaquin Delta College Soccer Field Replacement San Joaquin Delta Community College District Stockton--San Joaquin The proposed project would replace ten existing tennis courts and a small athletic field with a full-sized, artificial turf soccer field. The field will include bleachers to seat 300 spectators and a public address system. The project includes an option for future installation of lighting for night games.	NOD	
2015098267	Syngenta Seeds Well 2 & Arsenic Treatment System State Water Resources Control Board --Glenn Construction of a new groundwater well to replace existing well. New well capacity is 50 gpm. New well includes borehole and casing construction, above ground piping, and containment facilities.	NOE	
2015098268	Windrem Irrigation Pump (Streambed Alteration Agreement No. 1600-2015-0114-R2) Fish & Wildlife #2 Clearlake--Lake CDFW has executed a Lake and Streambed Alteration Agreement No. 1600-2015-0014-R2, pursuant to Section 1602 of the Fish and Game Code to Peter Windrem. The project is limited to the installation and operation of a water diversion intake structure and water drafting activities located in Kelsey Creek. The water will be diverted for the purpose of pasture irrigation of approx. 10-20 acres. The project will divert an approximate maximum total of 20.9 acre feet of water, at an instantaneous maximum rate of 165 gpm, over the annual water drafting period.	NOE	
2015098269	Weymouth Water Treatment Plant Hydraulic Gate Replacement Project Metropolitan Water District of Southern California La Verne--Los Angeles Project consists of replacing existing gates (inlet gates, outlet gates, bypass gates, drop gates) and gate guides, and upgrading electrical sensors located at the finished water reservoir and the treatment basins and filters. The gates, gate guides, and associated components were constructed in the 1960's and are showing signs of deterioration. The project consists of replacing the existing gates and gate guides and upgrading the existing electrical sensors.	NOE

2015098270	Acquisition of Black Hawk Ranch Madera County --Madera Project consists of the acquisition of 950 acres known as the Black Hawk Ranch in order to facilitate the creation of a regional park. At this time no management plan has been prepared for the proposed park.	NOE	
2015098271	Pace Preserve Bufferlands Acquisition Water Resources, Department of Stockton--San Joaquin Project consists of the purpose, by the State of CA, of a 50-acre parcel of land for the purpose of habitat restoration and enhancement. The land is designated in title documents as a "buffer parcel" intended to provide a buffer between a 50-acre habitat mitigation site and surrounding agricultural lands.	NOE	
2015098272	Butte Fire Center Renovation Project Forestry and Fire Protection, Department of --Butte Project involves renovation of the Butte Fire Center for CA Conservation Corps and CALFIRE use. All work will be conducted within the existing developed and previously-modified areas of the parcel. The total area calculated for soil disturbance is 0.7 acre over approx. 3 acres. The project will include several actions. The septic system will be replaced. Replacement activities will include excavating and trenching, installing a 15,000 gallon concrete septic tank, a 2-pump sewage lift station, and approx. 7,000 feet of leach field trenches, backfilling excavated and trenched areas, repairing disturbed asphalt areas and sidewalks, and destroying the existing septic tank. The main potable water supply-line will be replaced. Replacement activities will include trenching, installing new water supply-line and backfilling trenched areas. The Fire Center Administration Building will be renovated. Renovation activities will include replacing some exterior siding, removing asbestos flooring, installing new flooring, replacing doors and cabinets, and painting. Bedrooms in the Bachelor Officer's Quarters will be converted to office space, and exterior repairs will occur. Conversion and repair activities will include removing asbestos flooring, installing new flooring, replacing doors and cabinets, painting, and replacing some exterior siding. A residence building will be renovated. Renovations will include installing new flooring, replacing doors, painting, and replace some exterior siding. The dormitory will be renovated. Renovation will include new flooring, replacing doors and painting, and it may include installing a sprinkler system. Two-diesel-powered backhoes and two-diesel-powered front loaders and five CALFIRE Technical Services staff members will be required to complete the work. The project will commence in the latter half of Sept. 2015 and will likely be completed by June 2016.	NOE	
2015098273	Meeks Creek Pole Replacement Project Regional Water Quality Control Board, Region 6 (Lahontan), South Lake Tahoe --El Dorado Project would replace three deteriorating utility poles that are located in wetlands adjacent to Meeks Creek.	NOE

2013062053	Second and B Streets: New San Rafael Housing San Rafael, City of San Rafael--Marin Monahan Parker proposes to demolish two historic Victorian residences and other structures to redevelop the site with a 4-story 69,714 sf mixed-use development that includes 41 rental housing units on three floors above street level parking for 48 cars, entry lobby and a 1,939 sf commercial space that would occupy the entire four-parcel, 0.54-acre site. The proposed building would be 42 feet in height, the maximum permitted by the Second/Third Mixed Use West (2/3 MUW) and Cross Street Mixed Use (CSMU) Zoning Districts. DEIR Figures III-2-5 depict the existing conditions and the proposed new building.	EIR	11/02/2015
2014062060	2016 MTP/SCS Update Sacramento Area Council of Governments --Sacramento, Sutter, Yolo, Yuba, El Dorado, Placer Note: Extended Per Lead An SCS is a required element of the MTP under California's Sustainable Communities and Climate Protection Act, also known as Sen. Bill 375 (Stats. 2008, Ch. 728) (SB 375). While other efforts to reduce greenhouse gas (GHG) emissions focus on alternative fuels and vehicle efficiency, SB 375 is intended to more effectively reduce emissions by integrating land use and transportation planning to reduce overall passenger vehicle miles traveled. Through the development of a Sustainable Communities Strategy (SCS) that accompanies the MTP, policies and strategies will be identified to reduce per capita passenger vehicle-generated GHG emissions. 	facility would accommodate approximately 156 children aged six weeks to 6 years, 20 staff, and 9 classrooms. Hours of operation would be 7:00 am and 6:30 pm Monday through Friday (closed on holidays), with occasional student enrollment events outside of regular operating hours.		
2007062071	Kiernan Business Park Specific Plan Amendment #4 Modesto, City of Modesto--Stanislaus The Vesting Tentative Parcel Map proposes to divide 19.79 acres into four parcels and the Vesting Tentative Subdivision Map proposes to Parcel 4 of the Parcel Map into two parcels.	NOD	
2008032052	Second Street Improvement Project San Francisco, City and County of San Francisco--San Francisco The SF Public Works would implement improvements along Second Street to create a multi-modal corridor and improve safety and access for pedestrians, bicyclists and transit riders as well as drivers. The proposed project includes the following improvements: widen sidewalks between Harrison and Townsend streets; install one-way cycle track bicycle facilities in both directions on Second Street; install transit boarding islands at most transit stops along with planted medians; eliminate two channelized right-turn lanes from northbound Second Street.	NOD	
2008041158	Linden Avenue and Casitas Pass Road interchanges Caltrans #5 --Santa Barbara CDFW has executed Lake and Streambed Alteration Agreement no. 1600-2015-0082-R5, pursuant to section 1602 of the fish and game code to the project applicant, Craig Murray with the Carpinteria Sanitary District. The project entails re-routing an existing sewer main line, owned by the Carpinteria Sanitary District, approximately 120 ft north from its existing location to move it out of the way of the larger proposed Caltrans Linden Avenue and Casitas Pass Interchanges Project located in the same area. The new sewer main line will be installed using a horizontal directional drilling method. A frac-out plan has been developed and will be followed in the event of a frac-out. If there is water present at the time of construction, Carpinteria Creek will be dewatered using a cofferdam to avoid complications from a frac-out. If a water diversion becomes necessary, the project proposes to impact no more than 0.095 acre of riparian habitat within Carpinteria Creek to install and operate the diversion. Should this occur, a revegetation/restoration plan will be submitted and implemented upon CDFW approval.	NOD	
2009071019	Runway Safety Area Airport (RSA) Improvement Project Border Coast Regional Airport Authority Crescent City--Del Norte As mitigation for the Runway Safety Areas Improvement Project, Applicant will establish wetlands on approximately 82 acres of riparian and wetland communities, removal of culverts and fill material associated with road crossing, and provide excavation of shallow overburden.	NOD

	Drive headquarters. One of the key objectives detailed within the Master Plan is the District's need for the acquisition of an adjacent vacant lot located directly west of the existing facility.		
2015098277	Cordelia Pumping Plant Vegetation Removal Water Resources, Department of Fairfield--Solano California Conservation Corps (CCC) crews shall remove vegetation from around the perimeter of the pumping plant and reservoir within the fence line. Loopers will be used to trim low hanging branches. Material will be chipped and spread as mulch in the same area. Approximately 1.3 acres of land will be disturbed. Debris and silt shall be removed from the concrete v-ditch behind the plant and used to re-pack the eroded areas along the hillside within the structure. Cedar chips will also be placed along barren soil. Additional work includes fence line repair and grounds clean-up. Access to site is directly off Mangels Boulevard via the driveway to the plant. There will be no staging outside of the plant fence line parameters.	NOE	
2015098278	Spillway VEgetation Management, Chorro Reservoir Corrections and Rehabilitation, Department of --San Luis Obispo CDCR will implement vegetation management at Chorro Reservoir, where CDCR treats water and provides basic maintenance for the potable water supply for CMC and adjacent Camp San Luis Obispo. Dense vegetation has grown in the area directly adjacent to the reservoir's spillway, measuring approximately less than 0.10 of an acre. A recent inspection by the Department of the Safety of Dams (DSOD) concluded that the dense vegetation in this area is an obstruction to the spillway, contributing to potential overtopping of the dam, a considerable operational safety concern. In response to DSOD's order, CDCR will remove this vegetation before the start of the 2015/2016 rainy season.	NOE	
2015098279	Modify Railroad Ave Bridge Rail Caltrans #1 Crescent City--Del Norte Caltrans proposes a Safety project to improve safety for bicyclists and pedestrians on the bridge by increasing the railing height. All work will be done within existing Caltrans right of way.	NOE	
2015098280	112 Railroad Bank Erosion Protection Project Fish & Wildlife #3 --Marin The project involves a biotechnical repair to a site where unauthorized gabions were installed at a stream bank failure location. The repair will occur along approximately 70 linear feet and 10 vertical feet of stream bank. The existing gabion baskets will be modified on the creek facing side to accept the installation of biodegradable fabric wrapped soil lifts. SAA #1600-2015-0222-R3.	NOE	
2015098281	Lisbon District Routine Maintenance (Lake or Streambed Alteration Agreement No.1600-2013-0085-R3) Fish & Wildlife #3 --Yolo Project consists of maintenance activities along the levees of Reclamation District 307 and includes vegetation management, debris and sediment removal, structure maintenance and repair, and rodent control. 2015091058	<p>San Juan Creek Ocean Outfall Junction Structure Rehabilitation Project South Orange County Wastewater Authority Dana Point--Orange</p> <p>The proposed project consists of the inspection, assessment, and rehabilitation of the Junction Structure. Located at Doheny State Beach, adjacent to San Juan Creek and approximately 200 feet from the Doheny State Beach Campground, the Junction Structure is a reinforced concrete structure, approximately 10 feet inside diameter by 26 feet tall. The top of the Junction Structure is 15 feet in diameter and has a top elevation of approximately 6.5 feet above MSL. The typical elevation of the beach in the vicinity of the structure is approximately 10 feet above MSL. Temporary excavation of beach sand will therefore be necessary to gain access to the structure for performance of its rehabilitation.</p>	MND	10/20/2015
2015091059	<p>Vine 69/12 kV Substation Project Public Utilities Commission San Diego--San Diego</p> <p>The Vine Substation Project involves the construction of a 120 MVA Substation, which would be located on the southwest corner of Kettner Boulevard and Vine Street. The proposed Project also involves the relocation of distribution circuits and looping in of an existing 69 kV power line. The 69 kV loop in would involve removing two existing poles near the corner of California Street, and Vine Street and installing three new poles. The 12-kV distribution circuit relocations involve the alteration of nine distribution circuits. These circuits would be routed through new and existing underground conduits in City streets including Columbia Street, India Street, Kettner Boulevard, Pacific Highway, Sassafras Street, State Street, Vine Street, West Laurel Street, West Hawthorn Street, West Palm Street, and West Redwood Street.</p>	MND	10/20/2015
2015092053	<p>Conditional Use Permit 2015-001 Glenn County --Glenn</p> <p>Violich Farms, Inc. has applied for a Conditional Use Permit for a walnut huller/dryer facility on a 462.99 acre parcel. The huller/dryer will be constructed in the northwest corner of the parcel, occupying approximately 12 acres of land. The huller/dryer facility would be comprised of two pre-engineered steel structures of 22,500 sf each to house the hulling and drying separately. The huller will be within a 100' x 225' building and the dryer within a 125' x 180' building. Also proposed is a future 125' x 180' dryer building, modular trailer to serve as an on-site office during the harvest season, and 75' 180' storage building. Additional project information is available in the Initial Study and other documentation.</p>	MND	10/20/2015
2015092057	<p>2016-2018 Markleevillage Fuels Reduction Project Alpine County --Alpine</p> <p>The 2016-2018 Markleevillage Fuels Reduction Project (Project) will treat 234 acres of a larger 1,200 acre plan. The project is located on the Carson Ranger District of the Humboldt-Tolyabe National Forest, approximately 1.5 mile west of the town of Markleeville, California. This project is broken down in to two treatment areas. Treatment Area 1, also known as Pleasant Valley, contains 140 acres and will be treated between November 2016 and March 2017. Treatment Area 2, also known as Thornburg Canyon, contains 94 acres and will be treated between November 2017 and March 2018. Prescriptions will include the removal of heavy brush, small trees and under story fuels by mechanical mastication.</p>	MND	10/20/2015

2015092058	Vista del Lago High School Stadium Seating Project Folsom Cordova Unified School District Folsom--Sacramento Construction of additional stadium seating at Vista del Lago High School. The proposed additional seating is bleacher style with a 3,250 seating capacity for both home and visitor bleachers. The project also includes the construction of a 5,650 sf Field House including new restroom adjacent to the existing stadium.	MND	10/20/2015
2012011010	Santa Clarita Valley Sanitation District Chloride Compliance Supplemental EIR for Brine Concentration and Limited Trucking Los Angeles County Sanitation District Santa Clarita--Los Angeles The proposed modification to the approved chloride compliance project is replacing brine disposal by DWI with brine concentration equipment at the VWRP, a truck loading station at the VWRP, and limited brine trucking (average of 6 truckloads per day during off-peak hours) to an existing industrial facility such as the JWPCP. The VWRP is located at 28185 The Old Road in unincorporated Los Angeles County, west of the Interstate 5 Freeway near the west end of Rye Canyon Road. The brine concentration process would involve an enhanced membrane system consisting of extensive pretreatment facilities combined with additional RO membranes. This technology would reduce the volume of brine requiring disposal and the resulting number of truckloads per day by 90 percent relative to the trucking alternative originally evaluated. All chemical storage tanks associated with brine concentration facilities would be provided with secondary containment in case of spill or storage container rupture. The brine concentration facilities and truck loading station would be installed at the north end of the VWRP near the proposed UV and MF/RO components of the approved chloride compliance project. To offset power demands of the brine concentration facilities, the proposed project modification may also include onsite power generation using solar panels and facilities to generate power from the digester gas already produced by the existing treatment facilities.	NOP	10/21/2015
2015091060	Carlsbad Desalination Plant Intake and Discharge Facility Modifications San Diego County Water Authority Carlsbad--San Diego Poseidon Water (Poseidon) is the owner/operator of the Carlsbad Desalination Plant under contract to the Water Authority to deliver between 48,000 and 56,000 acre-feet per year (AFY) of drinking water from the CDP. On May 5, 2014, Cabrillo Power I LLC (Cabrillo) provided notice that the Encina Power Station (EPS), and the associated seawater intake pump, would be decommissioned, resulting in a permanent shutdown of the seawater intake pump that is currently used to circulate cooling water through the EPS, effective June 1, 2017. This action will require the CDP to transition to "permanent stand-alone" intake and discharge operation by this date. The intake and discharge facility modifications to enable "permanent stand-alone" operation comprise the "Proposed Project" for the purposes of a Supplement to the Precise Development Plan and Desalination.	NOP	10/20/2015

2015092055	PA-1500144 San Joaquin County Stockton--San Joaquin A Minor Subdivision application to subdivide an existing 64.19-acre parcel into two parcels. Parcel 1 is a homesite parcel to contain 2.16 acres. The Designated Remainder parcel is to contain 62.84 acres.	Neg	10/20/2015
2015092056	PA-1500145 San Joaquin County Stockton--San Joaquin A Minor Subdivision application to subdivide an existing 157.58-acre parcel into four parcels and a designated remainder. Parcel 1 is a homesite parcel to contain 2.16 acres. Parcel 2 is to contain 36.65 acres. Parcel 3 is to contain 38.52 acres. Parcel 4 is to contain 42.45 acres. The Designated Remainder parcel is to contain 41.19 acres.	Neg	10/20/2015
2011051010	Coastal Treatment Plant Export Sludge Force Main Replacement South Orange County Wastewater Authority Laguna Niguel--Orange The SOCWA proposes to replace approximately 16,600 ft of two existing parallel 4-in pipelines between the Coastal Treatment Plant (CTP) and Alicia Parkway in Orange County, CA. This project was analyzed within an EIR prepared for the Coastal Treatment Plant Export Sludge Force Main Replacement Project (Dudek 2013). Since that EIR was prepared the SOCWA has proposed improving a section of the creek bank along Lower Aliso Creek to provide erosion protection and improved stability for the existing infrastructure in the area as well as for the proposed force main replacement pipeline. The proposed improvements include constructing three rock groins or dikes at selected locations to redirect flows along the channel bank away from the bank and allow for capture of sediment upstream of the groins/dikes resulting in the build up of sediment at the lower bank. The groin/dikes would extend out from the channel bank approximately 20-ft across the berm to the edge of the low flow channel. The top width of the groins/dike would be approximately 5 ft. The median size of the dike rock would be 24 inches with a max of 36 in. This improvement allows for natural revegetation along the berm between the groins/dikes and does not require any fill in the low flow channel or removal of existing channel banks. In addition to these stabilization features, the alignment of the pipeline would be slightly revised in two locations.	NOD	
2014031069	Ellwood Mesa Coastal Trails and Habitat Restoration Project; Case No. 13-039-CUP Goleta, City of Goleta--Santa Barbara The project includes improvements to 1.56 miles of existing trails as well as drainage improvements to direct surface flows off of trails and improvements in trail treat surface such as leveling and eliminating ruts or ridges within the trail. In addition, approximately 0.54 miles of trail will be realigned around sensitive areas. The project also includes improvements to three drainage crossings and two existing beach access points. Additionally, habitat restoration is proposed to approximately 13 acres adjacent to the trail and coastal blufftop.	NOD

	occupied segment of Rock Creek in the Hat Creek Drainage in Shasta County, CA. The objective of the Rock Creek Meadow Restoration Project is to create a refuge habitat for Shasta crayfish where they will be isolated from impacts that are causing their decline. To accomplish this objective the Project will restore a 650-ft reach of Rock Creek to pre-diversion conditions, which will recreate high-quality habitat for Shasta crayfish, along with reintroduction of Shasta crayfish to the restored reach and an existing isolated pool thereby establishing a refuge population safe from the effects of invasive species. Shasta crayfish will be relocated from a nearby declining population to Rock Creek. To fully restore streamflow, it is proposed to move the hatchery diversion and intake approximately 650 ft downstream of its current location. The stream channel above the new diversion will be restored and Shasta crayfish would be reintroduced to the restored and rewatered channel. These activities are intended to help meet the goals of the USFWS Shasta Crayfish Recovery Plan and avoid extinction of the species.		
2015082019	PA-1500021-Site Approval Application to Expand an Existing Lumber Re-Manufacturing Facility San Joaquin County Lodi--San Joaquin A Site Approval application no. PA-1500021 of Universal Forest Products Western Division, Inc. to construct 4 storage sheds totaling 24,000 sf and convert 2 existing warehouse buildings totaling 100,000 sf to manufacturing buildings.	NOD	
2015091033	San Diego River Trail Segment - El Monte Road to Historic Flume and Lake Jennings Campground Connection San Diego County --San Diego Provide a public trail connection from El Monte Rd to Lake Jennings Campground, involving construction of a parking area, trailhead and approximately two miles of multi-use trail for hiking, biking and equestrian users. Public access will be provided via a new access gate along el Monte Rd at the western terminus of the project site and via existing trails at Lake Jennings Campground at the eastern terminus of the project site.	NOD	
2015099010	Lake or Streambed Alteration Agreement No. 1600-2015-0369-R1 Cold Springs Emergency Timber Operations 2-15EM-100TRI Forestry and Fire Protection, Department of --Trinity The project is limited to 9 existing crossings (3, 8, 9, 13, 14, 15, 16, 17, and 18) and 8 existing water drafting sites on unnamed Class II, III, and IV watercourses. Existing rocked fords will be used at watercourse crossings 3, 8, 9 and 13. Sites 14, 15, 16, 17 and 18 will be permanent culverted crossings sized to accommodate the 100 year flood flows. Rock will be placed over the crossing and critical dip installed to prevent stream diversions in the event of culvert plugging. All drafting locations already exist and were historically used by other timber owners. Only site 3.1 requires modification. Site 3.1 will have a temporary sand bag dam installed above the existing pond with a 6 in pipe installed in order to convey flow back to the stream below the dam. Small amounts of spill from the temporary dam will be used to fill the pond while maintaining flow in the stream. The temporary dam will be removed following completion of operations.	NOD

2015098306	<p>Issuance of Streambed Alteration Agreement No. 1600-2015-0307-R1, Kirkwood Ranch Stream Maintenance Fish & Wildlife #1 --Tehama</p> <p>The Project is limited to the construction and maintenance of the low flow channel in two unnamed tributaries to Moore Creek as well as the management and removal of vegetation within the same two stream reaches.</p>	NOE	
2015098307	<p>Issuance of Streambed Alteration Agreement No. 1600-2015-0355-R1, Little Castle Creek Bank Stabilization Fish & Wildlife #1 --Siskiyou, Shasta</p> <p>The focus of this project is to reestablish the primary channel along the north bank of the stream and use the material excavated during channel construction to rebuild the eroded south bank. Limestone and granite boulders from the original project within 200 feet of the project site will be retrieved and reset into the bank in more stable configuration, armoring the newly reconstructed bank with the larger boulders and cobble.</p>	NOE	
2015098308	<p>7th Street Pavement Repair Evaluation Eastern Municipal Water District San Jacinto--Riverside</p> <p>Project to identify and evaluate uneven pavement along a portion of 7th Street, between Sanderson Avenue and Lyon Avenue in the City of San Jacinto. The City staff has related the cracking and settlement is due to the District's San Jacinto Valley Interceptor Sewer, Phase 1 project. This pipeline project involved construction of a 36 inch diameter sewer installed at depths ranging from 21 to 28 feet below ground along 7th Street. Installation of the sewer was completed in 2008 and within 2 years, attempts were made to perform repairs for similar problems and concerns.</p>	NOE	
2015098309	<p>De Anza Lift Station Piping Repair Project Eastern Municipal Water District San Jacinto--Riverside</p> <p>Eastern Municipal Water District is proposing to replace the discharge piping at their De Anza Sewage Lift Station located in the City of San Jacinto, Riverside County. The De Anza Lift Station, built in 2001, conveys waste water flows from the northern portion of the Hemet and San Jacinto Valley to the District's San Jacinto Valley Regional Water Reclamation Facility (SJVRWRF) for treatment. The lift station was originally built with two 50 hp pumps and 6-inch diameter ductile iron discharge piping. To extend its useful life, the lift station was upgraded in 2007 by installing two new 150hp pumps and upsizing the discharge header to 8-inch diameter ductile iron. However, due to the corrosive wet well environment, the original ductile iron piping has corroded and a Victaulic coupling on pump two has failed. The proposed project will replace the original ductile iron discharge riser piping that was installed in 2001 with new ductile iron pipe that includes a corrosion resistant coating. Additionally, the project will replace the Victaulic couplings with flanges. The lift station will remain on-line during construction to avoid the risk of bypassing the lift station.</p>	NOE

2015091065	New Model Colony East Bridges Over Cucamonga Creek and Deer Creek Flood Control Channels at Schaefer Avenue Ontario, City of Ontario--San Bernardino The proposed Project implements projects previously approved by the City of Ontario, consisting of construction of two replacement and two new bridges (Project) over the concrete-lined Cucamonga/Deer Creek flood control channels at Schaefer Avenue, Edison Avenue, Eucalyptus Avenue and Merrill Avenue. The San Bernardino County Flood Control District right-of-way defines the Project limits. Project operational impacts, growth inducing impacts and cumulative impacts were previously analyzed in The Ontario Plan (TOP) EIR and in the Addendum to TOP EIR for the City's Master Plan of Streets and Highways (MPSH). The bridges would be constructed consecutively and during two phases, timed to meet traffic demand resulting from implementation of TOP and the MPSH.	MND	10/21/2015
2015092059	PA-1500168 San Joaquin County Tracy--San Joaquin A site approval application for a truck parking and equipment storage facility for 5 trucks, 13 trailers, and related equipment. The project will utilize an existing 952 sf office, two 1,400 sf storage buildings, a 1,200 sf storage building, and the construction of a 4,800 sf maintenance facility for the onsite trucks. The applicant is proposing to modify the surfacing requirements for the equipment storage area.	Neg	10/21/2015
2008061111	Whiteface Specific Plan Amendment 6: Lost Canyons Draft EIR Simi Valley, City of Simi Valley--Ventura CDFW is intending to execute a lake and streambed alteration agreement pursuant to section 1602 of the Fish and Game Code (#1600-2013-0186-R5) to the project applicant, Lost Canyons, LLC. The project proposes to impact 7.74 acres of jurisdictional streambed habitat and 1.77 acres of temporary impact for remedial grading and construction access, and mitigate with 13.96 acres of establishment, re-establishment, and enhancement of in-kind habitat.	NOD	
2008071143	Beach Edinger Corridors Specific Plan Huntington Beach, City of Huntington Beach--Orange DTSC approved a Removal Action Workplan (RAW) for the Former Production Plating Facility pursuant to Chapter 6.8 of the California Health and Safety Code. The RAW includes the following activities: 1. The excavation of VOC- and lead-impacted soil from identified areas within and around site building. Approximately 1,800 tons of soil is expected to be generated from excavation of a 3,000 sf area to 12 ft below the ground surface. 2. The excavation will proceed approximately 4 ft below the water table; therefore, the RAW includes over-excavation of saturated soil and groundwater. Once the excavation is complete, to further reduce VOC concentrations in groundwater, groundwater will be pumped for up to 24 hrs, to remove an estimated 10,000 gallons of groundwater. 3. The excavated impacted soil will be transported off-site to a permitted facility. 4. To determine the completeness of the RAW, soil confirmation sampling of the excavation flood and sidewalls will be performed to verify that soil exceeding cleanup objectives has been satisfactory removed. If concentrations of COCs exceeding the Site remedial goals are detected in the confirmation samples, additional excavation will be performed.	NOD

	<p>5. To determine that the groundwater remediation goals have been achieved, following the 24-hr pumping period, groundwater will be sampled. If groundwater concentrations remain above remedial goals, the groundwater will be sampled. If groundwater concentrations remain above remedial goals, the groundwater will be pumped for an addition 24 hrs and resampled again for confirmation.</p> <p>6. At the completion of the remedial excavation and confirmation sampling, the excavation will be backfilled with either native materials taken from other areas of the property or from an approved borrow site. The contractor grader is required to meet the standards established for the surrounding development and the excavated area will be returned to grade and to suitable standards of completion.</p> <p>7. To address naturally occurring methane present in the site area, the future improvements that will be constructed on the site and surrounding parcels will include the installation of a sub-slab methane-mitigation barrier and venting system. Although the over-excavation of soil and groundwater planned as part of the RAW is expected to remedy VOCs to the applicable standards, the methane mitigation system will also serve as additional protection from potential VOC intrusion to future site occupants.</p> <p>The excavation will take less than one month to complete and will be performed concurrent with demolition of the existing site building and grading of the site and surrounding properties to facilitate the planned redevelopment. The sub-slab system will be installed beneath the new multi-family residential building that will occupy the site and surrounding properties.</p>		
2014092049	<p>Lincoln Centre Life Sciences Research Campus Project Foster City Foster City--San Mateo</p> <p>The proposed project would amend the General Plan to allow an increased FAR within the Research/Office Park Land Use Designation of the General Plan for Lincoln Centre from 0.60 to 0.68. The proposed project would also amend the Foster City Zoning Map to change the zoning from C-M/PD with a new General Development Plan for the +/-20 acre Lincoln Centre Life Sciences Research Campus Site, to allow development of up to 595,000 gross sf of laboratory, manufacturing, office space, and visitor and employee amenities; and structured parking.</p>	NOD

	used to disguise and restore routes.		
2015098334	Calico Phase II Restoration Project - Barstow Parks and Recreation, Department of Barstow--Kern FIELD will use grant funds to restore 142 acres of sensitive habitat affected by illegal OHV use. The actual restoration trail work covers 3.5 miles. The restoration activity involves the following criteria and techniques: restoration or designated closed routes, stabilization of natural land contour; placement of carsonite utility markers, vertical mulching, wattle placement on sloped contours; and photo documentation. Fieldcrews would only use hand tools to perform vertical mulching and to stabilize the natural land contour and hand augers to install preventative fencing. Actual ground disturbance would be minimal.	NOE	
2015098335	Del Norte County OHV Planning Parks and Recreation, Department of --Del Norte The grant will assist Del Norte County Community Development Department with preparing a planning document to guide development of the Countys OHV facilities. Specifically, this grant will be used to craft a planning document that provides an outline and vision for development of the County's recently completed process including site visits to the project areas, documentation of facilities, analysis of infrastructure, and analysis of constraints (e.g. rural residences, campsites, environmental, etc.), and will conclude with recommendations on future development of county OHV facilities as well as outlining goals of the OHV program. This grant is solely funding planning.	NOE	
2015098336	Imperial County OHVEST - Eucation & Safety Parks and Recreation, Department of --Imperial The Imperial County Sheriff's Office with the Imperial County Sheriff's Off-Highway VEHICLE Enforcement Safety Team (OHVEST) Education and Safety Project will present he :Camp Smart" and "Tread Lightly" curriculum. The safety message will be provided to students at the local elementary, middle, and high schools, colleges, OHV venues, and Children's Fair and Fiesta.	NOE	
20150983368	Middle Knob Restoration - Ridgecrest Parks and Recreation, Department of --Kern FIELD will use grant funds to restore 164 acres of sensitive habitat in the Middle Knob OHV subregion in the BLM Rigdecrest area where significant problems with off-road vehicle incursions have developed. The actual restoration trail work covers 7.5 miles. The restoration activity would include the following criteria and techniques: Restoration of designated closed routes, stabilization of natural land contour; installation of 400 feet of preventative peeler post; placement of carsonite utility markers, vertical mulching, wattle placement on sloped contours, and photo documentation.	NOE	
2015098337	American Conservation Experience Restoration of Illegal OHV Trails Parks and Recreation, Department of --Imperial The project will disguise and restore approximately 30 discontinuous miles of trails degraded by illegal OHV use. Restoration activities include installing vertical and horizontal mulch, rocks, and berms; raking disturbed areas; installing straw bales and other barriers; soil pitting; seed bank transfer, erosion control via grading,	NOE

2015098371	Additional Temporary Points of Delivery of State Water Project (SWP) Supplies to Santa Clara Valley Water District (SCVWD) (SWPAO #15016) Water Resources, Department of --Santa Clara SCVWD typically receives SWP supplies through the South Bay Aqueduct. SCVWD, also a CVP contractor, receives CVP water at Turnout 59 in San Luis Reservoir and subsequently through the San Felipe Division for delivery to its service area. Due to water quality issues and a desire for operational flexibility within SCVWD's service area, SCVWD is requesting that additional points of delivery for SWP supplies be provided at 1) Turnout 59 in San Luis Reservoir and/o 2) O'Neill Forebay.	NOE	
2015098372	Additional Temporary Points for Delivery of 2015-2017 SWP Supplies Recovered from Banking Programs to Santa Clara Valley Water District (SCVWD) (SWPAO #15017) Water Resources, Department of --Santa Clara SCVWD, Kern County Water Agency, and DWR have entered into several change in point of delivery agreements that allow for SCVWD to store its SWP supplies in the Semitropic Water Banking and Exchange Program (Semitropic) and for future return of such water to SCVWD. These agreements do not include provisions to allow SCVWD's previously stored water to be returned at locations other than the South Bay Aqueduct.	NOE	
2015098373	Willow Avenue Rehabilitation & Community Center Parking Lot Repaving Projects Hercules, City of Hercules--Contra Costa Willow Avenue work will remove and replace 2,800 lineal feet of street (same width, in the existing alignment, with no capacity enhancements) on 2 lane road and includes new sidewalk from overpass to Palm and pedestrian crossing improvements at the HTC. Parking lot project involves grinding and repaving the lot.	NOE	
2015098374	Letter of Non-Objection to Enter Sovereign Land in Corte Madera Creek, to Dredge Approx. 50,000 cubic yards of Material to Maintain a Navigable Depth for California State Lands Commission Larkspur--Marin Recreational Boats - PRC 7713.9 Permission to enter sovereign land to dredge approx. 50,000 cubic yards of material to maintain a navigable depth for recreational boats.	NOE	
2015098375	ETS 2709 - Replacement of Distribution Pole P40896 in Millar Valley Project Regional Water Quality Control Board, Region 9 (San Diego), San Diego --San Diego The San Diego RWQCB is enrolling SDG&E in the Clean Water Act Section 401 Water Quality Certification of U.S. Army Corps of Engineers 2012 Nationwide Permits (NWP 12). SDG&E proposes to replace the existing wood utility pole P40896 with a steel pole, temporarily impacting wetland.	NOE

2015098376	Standish Hickey Overlay (Caltrans EA 01-0E980) Caltrans #1 --Mendocino Caltrans maintenance overlay of Hot Mix Asphalt for about a 9 mile portion of U.S. 101 South of the Town of Leggett and continuing to the Bridge over the south Fork of the Eel River, in Mendocino County.	NOE					
2015098377	2015 Coastal Outage - Dwater Water Resources, Department of --Kern The CA Aqueduct - Coastal Phase II require annual routine inspections for maintenance and repairs. Water from the portions of the pipeline that cannot be pulled back into the forebays of associated Pumping Plants need to be discharged to natural drainages to ensure safety of the workers inspecting the pipeline. The project benefits the public and private lands that depend on the CA Aqueduct as a source of water. The work also benefits the workers that are working within and around the Aqueduct infrastructure by providing a safe environment to conduct maintenance and repairs. This work has been planned in consultation with CDFW and FWS.	NOE					
2015098378	Soil Amending on Laguna de Santa Rosa Dairy Pastures to Improve Soil Health Gold Ridge Resource Conservation District (GRRCD) Sebastopol--Sonoma Soil amendment refers to material added to the soil to improve its physical or chemically properties. Soil will be amended with agricultural lime, boron, copper & sulfur. The project will be applying soil amendments to approx. 50 acres on two separate dairies. Application rates are based upon the soil analysis for pasture.	NOE

	sides of the project. A portion of the on-site drainage course will be channelized and retaining walls will be used along both channel banks of the creek. An existing 72-inch culvert within the Alicante Road right-of-way will be replaced with a 96-inch culvert to lower the water surface elevations within the site.		
2015091068	Nacimiento Lake Drive at Adelaida Road Left Turn Lane Addition Project San Luis Obispo County Paso Robles--San Luis Obispo The San Luis Obispo County Public Works Department proposes to construct a left hand turn lane along the south side of Nacimiento Lake Drive at Adelaida Road, approximately 1.07 miles northwest of the Paso Robles city limits, in north-central San Luis Obispo County. The project includes two six-foot wide road shoulders, repaving and striping, associated infrastructure improvements (such as culvert extensions), and signage. Two coast live oak trees and a small amount of riparian vegetation will be removed to accommodate the project. One lane will remain open during construction via flaggers and staging will occur at an existing turn out in the southeastern corner of the intersection.	MND	10/22/2015
2015092060	Howe Drive West Realignment & Beachfront Park Maintenance Project Crescent City Crescent City--Del Norte The project includes the installation of approximately 650 feet of 24 foot wide roadway. The proposed road will be located approximately 30 to 50 feet east of the existing road. The existing unimproved utility road (not open for public use) will be abandoned. The access roadway alignment will move any traffic further away from the beach and vegetation near the coastline. The project will not add additional roadway it will only replace the existing length of roadway. The Beachfront Park Maintenance project includes placing approximately five thousand cubic yards of fill onto low and uneven areas of the park to maintain a level hazard free surface for recreational and sports activities. When spread out the fill will be at depth of one foot or less.	MND	10/22/2015
2015092061	Stirling Subdivision Los Altos Hills, City of Los Altos Hills--Santa Clara The project is approval of a tentative map to subdivide the 18.18 acre (gross) parcel into nine lots. Demolition of two existing on-site residences. Access into the site would be via Natoma Road and an extension of existing Charles Avenue. An open space easement is proposed along the on-site tributary of Matadero Creek, which would provide a buffer between the creek and adjacent riparian habitat and the upland development area.	MND	10/22/2015
2004101032	Master Storm Water System Maintenance Program San Diego, City of San Diego--San Diego San Diego RWQCB is issuing a Clean Water Act Section 401 water quality certification (cert. no. R9-2015-0102) to the project applicant, City of San Diego, Transportation and Storm Water Department. The applicant proposes ongoing maintenance of the Alvarado Creek channel in reaches Upper Reach 2, Lower Reach 4, Lower Reach 2B and Lower Reach 2A to restore and maintain channel capacity to provide flood protection to the surrounding businesses, roadways, and properties. The maintenance involves the periodic removal of trash, debris, vegetation and accumulated sediment from the channel.	NOD

2015012062	<p>Davis Woodland Water Supply Project (DWWSP): Aquifer Storage and Recovery Project Supplemental EIR Woodland Davis Clean Water Agency Woodland, Davis--Yolo</p> <p>The WDWCA, the City of Woodland and, potentially, the City of Davis would construct and operate ASR wells that would be used for injecting surface water diverted from the Sacramento River through the DWWSP intake and treated at the DWWSP regional water treatment facility (currently under construction). Proposed facilities in the City of Woodland would consist of up to seven ASR wells, including one existing ASR well, and up to six new wells constructed as replacement wells at the sites of existing municipal wells, or at new well sites, and necessary appurtenances. Proposed facilities in the City of Davis would consist of up to five ASR wells constructed as replacement wells at the sites of existing municipal wells, or at new well sites, and necessary appurtenances. The proposed wells would tie into the Cities' existing water distribution pipelines.</p>	NOD	
2015052004	<p>The Vista Student Housing Complex - General Plan Amendment 15-03; Rezone 15-01; PD 272 Turlock, City of --Stanislaus</p> <p>An amendment to the Turlock General Plan and rezoning of three parcels, totaling approximately 9.7 acres, from Community Commercial to High Density Residential to allow for the construction of a 180-unit, 600-bed student housing complex, referred to as The Vista student housing project. The purpose of the project is to build a student housing community where the individual bedrooms will be leased solely to CSU, Stanislaus, students and faculty, as well as the community amenities that will be available for the exclusive use of the residents and their guests. The Planned Development will result in the construction of three, four-story buildings approximately 50 ft in height. The site will also include the construction of an approximately 6,460 sf club house with outside volleyball and basketball courts and a swimming pool, and approximately 596 parking spaces to serve the facility.</p> <p>The club house and outdoor recreational facilities will operate at various times throughout the day. The volleyball and basketball courts will be open from 10 am to 10 pm, Sunday through Thursday, and until 11 pm on Friday and Saturday. Swimming pool hrs will be open from 8 am to Midnight each day. The fitness center will be open from 6 am to Midnight each day. Study rooms, the theater room and the computer lab will be open 24 hrs each day. The game room and lounge will be open from 8 am to midnight each day. Leases will provide for community "quiet hours", which will be from 11 pm to 8 am each day. Special 24 hr quiet hrs will be implemented during exam periods at the end of each semester (appropriate notification will be posted). On site management will be available 24 hrs/day, 7 days/week, including property employees and resident assistants in each building. Security will be provided by a third party security company.</p>	NOD

2015091073	Dynergy Demolition of Outbuildings CP0-488 Morro Bay, City of Morro Bay--San Luis Obispo The project proposes to demolish and/or remove 23 abandoned/unused outbuildings and equipment structures at the Morro Bay power plant.	MND	10/23/2015
2015091074	Lansing Private Road Grading San Diego County --San Diego The project is a Major Grading Plan to correct a grading violation and water course violation. Earthwork will consist of the (forensically) balanced cut and fill of 224,000 cubic yards, with no import or export. The project includes an elevated, relatively flat, graded area approximately 100 feet wide by 4,650 feet long. Three sedimentation basins are proposed on the South side of the property as a mitigation measure to control erosion and sediment transport. The project site is located at 1664 Jewel Valley Road in the Mountain Empire Subregional Plan within unincorporated San Diego County. The site is subject to the General Plan Rural Lands Regional Category, Rural Lands 80 (RL-80) Land Use Designation. Zoning for the site is S92 (General Rural). Access would be provided by a private drive connecting to Jewell Valley Road.	MND	10/23/2015
2015091075	NLP Valley Center Solar San Diego County --San Diego The project is a Major Use Permit (MUP) for a solar energy project. The project consists of an approximately three megawatt solar facility installed upon approximately 26-acres of an approximately 66-acre project site. The proposed project consists of the construction, operation and maintenance of a solar energy generating facility. The site will be served by the Valley Center Municipal Water District.	MND	10/23/2015
2015092062	Johannessen Veterans Clinic Complex, Planned Development Plan Application PD-2015-00518, General Plan Amendment Application GPA-2015-00516 Rezoning Application Redding, City of Redding--Shasta The applicant is requesting approval to develop a new Veterans Clinic complex on approximately 16 acres located along the south side of Knighton Road, just west of Clover Creek. In accordance with the property's Planned Development Overlay zoning, a master development plan has been submitted to the City for approval under a use permit process. The complex would be developed in two phases, with primary uses to include a 103,632 sf clinic space and a 96-unit veterans housing development.	MND	10/23/2015
2015092064	Bay Trail Extension to the Berkeley Marina Phase #3 Project Berkeley, City of Berkeley--Alameda Note: Reference SCH# 2003092068 The proposed project will build a 700 foot extension of the Bay Trail on top of the existing trail at the Berkeley Marina.	MND	10/23/2015

2015098401	<p>Culvert Replacement and CHannel Restoration Project Fish & Wildlife #3 Pacifica--San Mateo</p> <p>Project is limited to the replacement of a collapsed non-functional culvert and restoration of the riparian habitat 25 feet upstream and downstream of the culvert. The deteriorated 12 inch by 10 inch long corrugated metal pipe culvert will be removed and replaced with a 12 inch by 10 foot high density polyethylene pipe culvert. Riparian restoration will consist of removing the nonnative pampas grass and ngaio trees with hand tools and/or cut and then spot treated with herbicide. Approx. 1,380 sq. ft. will be planted with native vegetation. After planting in the fall, a broad-spectrum pre-emergent herbicide will be applied to the planting area, except for a 10-foot by 10-foot patch used to test exotic re-emergence. Regular monitoring visits will be conducted to assess the spread of invasive vegetation and to determine if additional management actions will be necessary the following year. The site will be managed the following two years with a combination of hand pulling in early spring and herbicide application. Issuance of a Streambed Alteration Agreement No. 1600-2015-0145-R3 is pursuant to Fish and Game Code Section 1602.</p>	NOE	
2015098402	<p>Dow Pittsburg Wharf Repair Fish & Wildlife #3 Pittsburg--Contra Costa</p> <p>Project is limited to the repair of wharf piles, supports, decking, fender system and the replacement of piles. The Project shall occur in two phases. Phase 1 includes in-water repair of two piles with a fiberglass jacket and the replacement of 4 diagonal, timber braces. This phase will require divers to place the fiberglass jacket and a crane to a place the diagonal timber braces. Phase 2 includes the replacement of twenty-five 12 inch treated timber fender piles with twenty five 13 inch composite fender piles and the replacement of three diagonal, timber braces. Pile driving shall be performed using an impact hammer from a floating barge. Issuance of a Streambed Alteration Agreement No. 1600-2014-0339-R3 is pursuant to Fish and Game Code Section 1602.</p>	NOE

	project site consists of a 20.03-acre parcel developed with four vacant buildings, originally constructed as hay and livestock storage for a cattle operation. The proposed project would include construction of one 9,800 sf building, interior retrofits to four existing buildings, for a total operation of 45,200 sf of light industrial building space and 591,450 sf of outdoor gravel storage. Property immediately to the north is vacant, however, there is an existing gas station with restaurants located to the north, at the southwest corner of South Enos Lane and Taft Highway;		
2015091079	Guldelman Parcel Map San Luis Obispo County --San Luis Obispo Request by Candace and Phil Guldeman for a Vesting Tentative Parcel Map (CO12-0002) to subdivide an existing 5.25 acre parcel into three parcels ranging in size from 1.22 to 2.64 acres for the purpose of sale and/or development. The proposal involves a modification to the design standards of Section 21.03.010 of the Real Property Division Ordinance for proposed Parcel 3 regarding the average depth to width ratio of a parcel. The project includes off-site road improvements. The project will result in the disturbance of approximately 1,500 sf of the 5.25 acre parcel. The division will create an on-site road. The proposed project is within the Residential Suburban land use category.	MND	10/27/2015
2015092066	State Route 4 Wagon Trail Realignment Project Caltrans #6 Angels Camp--Calaveras The California Department of Transportation (Caltrans), in cooperation with Calaveras County, proposes to improve a segment of SR 4 in Calaveras County from about 2.6 miles east of Copperopolis (near Bonanza Mine Way) to about 1.6 miles west of the SR 4/49 junction (near Stockton Road), from post miles R10.3 to R16.4. The project proposes to construct a new alignment with two standards-width lanes and paved shoulders. The project would improve sight distance by increasing curve radii with the incorporation of longer, smoother curves. The project is intended to enhance safety by improving alignment geometrics.	MND	10/26/2015
2015092068	Charleston Retention Basin Improvement Project Mountain View, City of Mountain View--Santa Clara The proposed project would remove non-native plants and trees (including 119 Heritage trees) prior to the enhancement of approximately 5.85 acres of native habitat. To facilitate the habitat enhancement, basin slopes would be graded and re-contoured, resulting in the expansion of the capacity of the basin by approximately 4.4 acre-feet. Enhancement of native habitat would result in a net increase of 0.13 acres of freshwater marsh habitat and 3.76 acres of riparian habitat. The project also includes pedestrian and bicycle circulation improvements, including improvements to existing paths, construction of new paths, and installation of two 10-foot wide pedestrian-only bridges.	MND	10/26/2015
2015092069	Lifestyle Hotel at South Fair Oaks Avenue Sunnyvale, City of Sunnyvale--Santa Clara The proposed project includes a Special Development Permit to demolish the existing 7,782-sf restaurant building and construct a 182-room, five story hotel with underground parking. 	solar access on adjacent properties.		
2015092070	Central Kitchen, Instructional Farm and Education Center Project Oakland Unified School District Oakland--Alameda The Project would consist of the construction of a 43,245 gsf building containing a central kitchen wing, an administration / education center wing and an instructional farm. The central kitchen wing would prepare student meals for all OUSD students. The education center would contain two culinary classrooms offering daytime and evening classes. The instructional farm would be 1.5 acres and designed to showcase a variety of hand-scale agricultural techniques, growing methods and crops. The instructional farm would include an outdoor gathering area, outdoor classrooms, orchard, raised beds, children's garden, farm stand and community garden. Tours of the farm would be offered to OUSD students.	MND	10/26/2015
2015092073	Conditional Waiver of Waste Discharge Requirements for Mello 3/Llano Oaks Dairy Regional Water Quality Control Board, Region 1 (North Coast), Santa Rosa Santa Rosa--Sonoma Adoption of a Conditional Waiver of Waste Discharge Requirements for Mello 3/Llano Oaks Dairy in Western Sonoma County. The Waiver would regulate the discharge of waste from a new dairy ranching operation. The dairy has been in agricultural production since the 1970s. Previous dairy operations changed to dry ranching in 2005. The project is to revert from current dry ranch heifer raising to dairy ranching operations. Existing structures support the proposed dairy ranching operation. However, one barn roof needs repair or replacement.	MND	10/27/2015
2015092067	Use Permit Application No. PLN2015-0086 - Rumble Ag Service, Inc. Stanislaus County --Stanislaus Request to expand an existing custom ripping and leveling agricultural services business with the construction of an addition 10,000 sf shop and 1,000 sf office. The property is currently improved with a 10,000 sf shop, and a 1,000 sf office, and is served by private well and septic systems. Earth ripping and leveling equipment will be stored and repaired on-site on an as-needed basis. While a number of employee may show up at the project site (to pick up equipment), a number of the employees will go directly to a job site where the equipment is located for a number of days. The project proposes operating Monday through Friday, 7 a.m. to 4 p.m., with a maximum of 30 employees, 5 daily visitors, and 3 truck deliveries/loadings per day. Approximately 33 acres, of the total 39.98 acre parcel, is planted in almonds. The entire parcel is enrolled in the Williamson Act Contract No. 1971-0064. Although the property is zoned Salida Community Planned Industrial, the project is being processed under the A-2 Zoning Ordinance (Chapter 21.20) due to its Williamson Act Contract. The Salida Community Plan states, "However, the provisions of the Salida Community Plan Zoning District should require that until such time as contracts are terminated, lands encumbered by a Williamson Act Contract shall remain subject to the zoning restrictions found within the County's A-2 zoning regulation." 2015092071	Housing Element Hughson, City of Modesto--Stanislaus The Housing Element is a comprehensive statement by the City of Hughson of its current and future needs and proposed actions to facilitate the provision of housing to meet those needs for persons at all income levels. The Housing Element is one of the seven General Plan elements mandated by the State of California, as articulated in Sections 65580 and 65589.8 of the Government Code. State law requires that the Housing Element consists of "... an identification and analysis of existing and projected housing needs and a statement of goals, policies, quantified objectives, financial resources, and scheduled programs for the preservation, improvement and development of housing." The residential character of the city is, to a large extent, determined by the variety of its housing and the locations and maintenance of the housing. The Housing Element is an official response to the need to provide housing for all economic segments of the population, establishing goals, policies, and programs that will guide City decision making and set forth an action plan to implement these housing programs through 2023. 	the seasonal work period of August 15 to Oct. 31.		
2015098417	Argonaut/Shultz House Repairs Parks and Recreation, Department of --El Dorado Repair and/or replace several items at the Shultz House within Marshall Gold Discovery State Historic Park for safety and security and energy efficiency purposes and to accommodate outside dining.	NOE	
2015098418	Repair Garage Roof Parks and Recreation, Department of --Los Angeles This project involves replacing the damaged modern plywood sheath that covers the roof and any affected shingles. Any replacement shingles will match the color of the existing shingles. The trim board, which based on its dimensions is probably not original historic fabric, will have to be replaced as will the flashing. Because the roof is supported by the plywood sheath, and the damage is to the tails of the roof boards, workers should attempt to repair the two damaged historic roof boards by gluing them back together. The damaged sections should be cut out and replaced with in kind materials only if the repair does not work. The new trim piece and flashing will be painted to match the rest of the building.	NOE	
2015098419	The Rim Trail Bluff Failure Reroute Mussel Rock Parks and Recreation, Department of --Humboldt Reroute a section of the Rim Trail 150' upslope and east of the original, failed alignment, where it will re-join the existing Rim Trail to create a safe path travel, reestablish trail continuity and be more sustainable. A bluff failure resulted in the loss of trail length and continuity and be more sustainable. A bluff failure resulted in the loss of trail length and continuity in the Rim and CA Coastal trails.	NOE	
2015098420	Lake Don Pedro Community Services District Wells 3, 4, and 5 Project Water Resources, Department of --Tuolumne, Mariposa LDPCSD is currently in a position where they could be out of water by Oct. 2015. Because of this emergency situation they will be drilling new wells to provide water to its customers. Wells 3, 4, 5, and 6 will benefit 1,400 active connections within the LDPCSD.	NOE	
2015098421	Renewed Office and Warehouse Space (DGS project 137545) Food and Agriculture, Department of San Marcos--San Diego The Dept. of Food and Agriculture proposes to sign a new lease for office and warehouse space of approx. 6600 sq. ft. for the Plant Health and Pest Prevention Services Division. 2015042054	Stratford School at Partridge Avenue Sunnyvale, City of Sunnyvale--Santa Clara The proposed project would modernize the existing buildings to serve a population of a maximum of 520 students. The initial use of the Stratford School at Partridge Avenue would be for middle school students with an expected capacity of 460 students. The proposed project would include modernization of all existing buildings, fixtures, and improvements to meet any required ADA standards and fire codes. Minor exterior nonstructural improvements would include a new circulation driveway and fencing. The proposed project would include modifications to the building facade with contemporary colors and materials. Post construction, all surfaces would be repainted and landscaping would be upgraded. The project would include the construction of a basketball court in Raynor Park near the southeast corner of the school property.	EIR	11/12/2015
2008121014	Los Angeles River Ecosystem Restoration Study Los Angeles, City of Los Angeles, City of--Los Angeles Note: Review Per Lead The U.S. Army Corps of Engineers (Corps) in conjunction with the City of Los Angeles (City) announces the availability of a Final Integrated Feasibility Report (IFR), which includes a Final Feasibility Study and EIS/EIR for the Los Angeles River Ecosystem Restoration Study, Los Angeles County, CA, for public review and comment. The study evaluates alternatives for the purpose of restoring 11 miles of the Los Angeles River from approximately Griffith Park to downtown Los Angeles while maintaining existing levels of flood risk management. Restoration measures include creation and re-establishment of historic riparian and freshwater marsh habitat to support increased populations of wildlife and enhance habitat connectivity within the study area, as well as to provide opportunities for regional connectivity to ecological zones such as the Santa Monica Mountains, Verdugo Hills, Elysian Hills, and San Gabriel Mountains. Restoration also includes the re-introduction of ecological and fluvial processes through a more natural hydrologic regime, which reconnects the river to historic floodplains and tributaries,	FIN	11/02/2015

	reduces flow velocities, increases infiltration, and improves natural sediment processes.		
2014021048	Central Coast Business Park Project Lompoc, City of Lompoc--Santa Barbara The project includes the proposed adoption of a Specific Plan allowing development of up to 581,635 sf of industrial and warehouse development. Parcels would range in size between 2.44 to 3.49 acres. These lots may be developed over time individually or combined and developed to accommodate larger tenants.	FIN	
2015091077	ENV-2016-2516-MND / 2170 S Hobart Boulevard and 2051 W 22nd Street Los Angeles, City of --Los Angeles The request includes a conditional Use Permit to allow the installation, use, and maintenance of an unmanned wireless telecommunications facility (WTF) that includes 12 antennas divided into three sectors of four antennas per sector mounted on the rooftop of an existing 27-foot, 7-inch, three-story apartment building in the R3-1 Zone. The antennas will be screened to match the facade of the existing building. In addition to the antennas, four remote radio units and one surge suppressor will be mounted behind the antennas in each sector. Coax cables will be located on the rooftop behind the existing nine-inch parapet. Ancillary equipment will be located within a CMU wall enclosure on the ground floor. The wall will be eight feet in height and will be painted to match the existing enclosure. The applicant is also requesting approval to allow the WTF to exceed the maximum height by one-foot, five-inches.	MND	10/27/2015
2015091078	ENV-2016-623-MND / 1755 N Canyon Drive Los Angeles, City of --Los Angeles The project site is currently zoned R4-1 and designated for Medium Residential Uses by the Hollywood Community Plan. The applicant proposes to legalize an after-the fact demolition of an existing single-family residence, and the construction of a new four-story, 18-unit apartment building with subterranean parking. The subterranean parking garage will contain 20 automobile parking spaces and 18 long-term bicycle parking spaces. The building will be 43-feet, 6-inches in height, with a floor area totaling 15,406 sf, or 2.93 FAR. Approximately 2,700 cubic yards of earth material will be exported from the project site. The subject property does not contain any trees.	MND	10/27/2015
2015092074	San Jose State University Spartan Golf Complex Project California State University Trustees San Jose--Santa Clara The Spartan Golf Complex (SGC) project would involve the construction of a golf training center with capacity for approximately 100 golfers and the relocation of existing sports facilities. The SGC would be home to SJSU golf team students; provide physical education to support academic programs; offer golf camps and clinics for students; and provide golf services and lessons to alumni, donors, and the public. The SGC would be on an infill site in the SJSU South Campus. The existing baseball field, softball field, soccer field, tennis courts, a storage lot, and outbuildings would be demolished to create space for the new golf facilities. The baseball fields, softball fields, and tennis courts would be relocated on the South	MND	10/27/2015

1988062818	Use Permit 460-88A - Graniterock San Benito County CDFW has executed Streambed Alteration Agreement no. 1600-2015-0054-R4, pursuant to section 1602 of the fish and game code to the project applicant, Granite Rock Company: A.R. Wilson Quarry. The project includes activities related to the realignment and reconstruction of an existing dirt road.	NOD	
2004071039	Shea / Baker Ranch Lake Forest, City of Lake Forest--Orange Site Development Permit 9-15-4830 is a request for three model homes, the associated landscaping, fencing and accessory structures for "The Terraces" development (Tract 17538) in the eastern portion of Shea/Baker Ranch Planning Area 1-L. Site Development Permit 9-15-4830 was evaluated in and contemplated by the Supplemental EIR that was prepared for the Shea/Baker Ranch Project and certified by the City of Lake Forest City Council on May 15, 2012. The Shea/Baker Ranch certified SEIR was not challenged within the time period prescribed in subdivision (c) of Public Resources Code section 21167 and thus the SEIR is presumed valid in accordance with Public Resources Code section 21167.2. The proposed Site Development Permit is consistent with the scope of the approved Area Plan and Tentative Tract Map 16466. Therefore, the certified SEIR serves as the environmental documentation for the project and the project is in compliance with the requirements of CEQA.	NOD

2008092051	Folsom South of U.S. Highway 50 Specific Plan Folsom, City of Folsom--Sacramento The City Council of the City of Folsom certified an EIR for the Folsom South of US 50 Specific Plan Area Project on June 14, 2011. The City has prepared an Addendum to the EIR in accordance with CEQA analyzing the potential incremental environmental impacts of an amendment to the Folsom Plan Area Specific Plan. Specifically, this addendum analyzed the effects of an increase in residentially-designated land and a substantial decrease in commercially-designated land. The project would remove the Entertainment Overlay Combining Zone and expand the uses allowed within the GC and RC land use designations. There is potential for 922 additional dwelling units and 1.4 million fewer nonresidential square ft. None of the conditions described in Section 15162 of the CEQA Guidelines calling for the preparation of a subsequent EIR have occurred.	NOD	
2011011004	EIR 13-02/GPA 07-02/ZCA 07-01/LCPA 07-02 General Plan Update Carlsbad, City of Carlsbad--San Diego This project consists of a comprehensive update to the Carlsbad General Plan, which provides goals and policies to guide city actions relative to the city's development through year 2035; the General Plan update also includes an update to the Housing Element for the 2013-2021 housing planning period. For consistency with the General Plan's updated land use and mobility policies, amendments are proposed to the General Plan Land Use Map, Zoning Ordinance, Zoning Map, Local Coastal Program land use and zoning maps, and the city's Growth Management circulation performance standard. In addition, a Climate Action Plan is proposed, which supplements the draft General Plan's sustainability policies by establishing a plan to reduce greenhouse gas emissions within the city. A program EIR has been prepared for the project and includes an analysis of potential environmental impacts associated with the project.	NOD	
2012062029	Plan Bay Area Regional Transportation Plan / Sustainable Communities Strategy Draft EIR Metropolitan Transportation Commission Oakland-- MTC and ABAG prepared an Amendment to Plan Bay Area to add the Richmond-San Rafael Bridge Access Improvement Project into the financially constrained plan, and also prepared an Addendum to the Final Environmental Impact Project into the financially constrained plan, and also prepared an Addendum to the Final EIR to Plan Bay Area to assess the potential environmental effects of the Plan Amendment. Based on the environmental analysis, the addition of the Richmond-San Rafael Bridge Access Improvement Project into the Plan did not result in new significant impacts or substantial increase in the severity of any impacts that were previously identified in the certified Plan Bay Area Final EIR. 2013091021	Fresno Metropolitan Water Resources Management Plan Update Fresno, City of Fresno--Fresno SWRCB is a responsible agency for this project. The SWRCB's Safe Drinking Water State Revolving Fund Program is providing funds for the project. The City of Fresno proposes to construct an 80-MGD Southeast Surface Water Treatment Facility. The site is currently undeveloped, fallow farmland. The project will include construction of the following facilities: treatment process units for removing suspended material from the water (clarification and filtration), ozone disinfection, solids handling, process buildings, on-site storage facility for raw water, treated water storage, pump stations, chemical building, operations and maintenance, and power supply buildings. Landscaping, parking, fencing, and off-site improvements to streets and roads adjacent to the site are also part of the project.	NOD	
2014122050	Voluntary Local Program Contra Costa Resource Conservation District -- The purpose of the VLP is to encourage farmers and ranchers engaged in agricultural activities to voluntarily enhance and maintain habitat for endangered and threatened species. It is estimated that over the life of the VLP, approximately 50,000 acres of annual grassland, wetland, and riparian habitats will be maintained and enhanced as a result of the implementation of the management practices. Cooperators, through enrollment in the VLP, authorized by California Code of Regulations title 14 sections 786.0 through 786.8, and execution of a Cooperative Agreement, are authorized take, as defined in Fish & G. Code 86, of Alameda whipsnake and California tiger salamander incidental to routine and ongoing agricultural activities if the take occurs on lands covered by the VLP during implementation of the management practices. Both Alameda whipsnake and California tiger salamander listed as threatened under the California endangered species act.	NOD	
2015012026	Squaw Valley Siberia Lift Replacement Project (PLN14-00158) Placer County --Placer The project proposes a Conditional Use Permit to allow for the replacement of the existing Siberia Lift located within the Squaw Valley USA Ski Resort. The new detachable grip six-person chair will operate at 2,400-person per hour.	NOD	
2015072018	North Star Water Treatment Plant Nevada County Grass Valley--Nevada U14-009, MGT14-015, EIS14-012. Combined application for 1) a use permit to construct and operate a groundwater collection conveyance and treatment system to manage water quality from the Drew Tunnel portal on the Grass Valley Wastewater Treatment Plant property, and an adit, culvert, and spring on the North Star Property between Allison Ranch Road and Wolf Cree; and 2) a Management plant to reduce impacts related encroachment within the 100-ft setback to a water feature. The conveyance system would run from the wastewater treatment plant property to a series of settlings and treatment ponds off Mote Lane which would treat the mine drainage using passive methods and discharge the cleaned water to a tributary of Wolf Creek under a Limited Threat Discharge Permit issued and monitored by the Regional Water Board. 2014092064	Vesting Tentative Subdivision Map & Exception Application No. PLN2014-0074 - Fairway 7 Estates Stanislaus County Oakdale--Stanislaus This is a request to subdivide an existing 8 acre parcel into 12, 20,000 sf minimum residential lots, 1 utility lot that features a fence stormwater basin including a landscaped public utility easement. The proposed project will extend Plaza Del Oro Drive and terminate into a cul-de-sac, providing a 20' emergency access point extending to North Streams Road. An exception is being requested for the cul-de-sac length. Each residential lot will be served with the extension of an existing 10" water line of the Oakdale Irrigation District for domestic water services; provide a 10' public utilities easement, and install a Measure X approved septic system. All lots, proposed street and basin will be graded to allow for the proposed development and any future residential expansion on each lot. The proposed project will also feature curb, gutter, sidewalks, a landscaped entry feature, an 8' foot block wall along SR 108/120 with landscaping, and a 6' foot block wall along Streams Road. The development will be maintained in perpetuity through the creation of or annexation to a community service district.	Neg	10/29/2015
2015091086	Kraemer Place Emergency Temporary Shelter and Multi-Service Center (IP 15-114) Orange County Anaheim--Orange The County of Orange is proposing to acquire and convert and the existing industrial/manufacturing building to a Year Round Emergency Shelter Program, including the provision of emergency temporary shelter and a multi-service center. The proposed facility is designed to provide safe shelter, basic needs, and access to support to move individuals and families out of homelessness and into permanent housing opportunities. The two components of the project include an emergency temporary shelter and a multi-service center.	Neg	10/29/2015
2015092077	PA-1500176 San Joaquin County --San Joaquin A Development Title Text Amendment Application to increase the maximum number of permitted special indoor or outdoor events for the temporary rodeo use by amending the definitions section of Special Indoor Events and Special Outdoor Events in Development Title Section 9-110.4 to result in permitting a maximum of six special indoor and/or outdoor events per calendar year for the temporary rodeo use. The existing language permits a maximum of four special indoor and/or outdoor events per calendar year.	Neg	10/29/2015

1990020076	<p>El Sobrante Landfill Expansion Riverside County Corona--Riverside CDFW has executed lake and streambed alteration agreement no. 1600-2014-0245-R6, pursuant to section 1602 of the fish and game code to the project applicant, Waste Management, El Sobrante Landfill, or as represented by Mr. David Harich.</p> <p>The project includes the routine maintenance of four ponds: Ponds 1, 2, 3, and 4. Pond 1 has a footprint of approximately 0.40 acre, Pond 2 has a footprint of approximately 0.5 acre, Pond 3 has a footprint of approximately 0.77 acre, and Pond 4 has an approximately 0.70 acre footprint. Routine maintenance for the project involves the annual removal of approximately 2,500 cy of sediment and vegetation from each pond. Sediment removal will take an estimated 2 to 3 days per pond, and will be accomplished using a rubber-tired loader or a backhoe. The removed sediment will be transferred into haul trucks, which will transport it into the landfill to be used as daily cover. Sediment removal will occur as needed, not more than once per year during the dry season.</p>	NOD	
1999091142	<p>Subsequent EIR/Supplemental EIS to the Final EIR/EIS for the IID Water Conservation and Transfer Project Imperial Irrigation District --Riverside, Imperial, San Diego CDFW has executed lake and streambed alteration agreement no. 1600-2015-0081-R6, pursuant to section 1602 of the fish and game code to the project applicant, the Imperial Irrigation District.</p> <p>The project is limited to the rehabilitation of an existing earthen ramp to access the project site, clearing of vegetation on the project site, transporting and depositing on site sediment removed from the nearby Fudge Reservoir, drying of deposited sediment, and spreading the sediment through the use of bulldozers or graders to make a flat surface. The purpose of the project is to prepare and utilize a site for the reception of sediment removed from the Fudge Reservoir. Project activities will result in a total of 15.53 acres of permanent impacts to vegetated streambed.</p>	NOD	
1999091142	<p>Subsequent EIR/Supplemental EIS to the Final EIR/EIS for the IID Water Conservation and Transfer Project Imperial Irrigation District --Riverside, Imperial, San Diego CDFW has executed lake and streambed alteration agreement no. 1600-2015-0082-R6, pursuant to section 1602 of the fish and game code to the project applicant, the Imperial Irrigation District.</p> <p>The project is limited to the cleaning/clearing through excavation of accumulated sediment and barnacles from the mouths of two channels that connect to the Salton Sea. Excavation will be performed by an excavator sitting on top of the bank of each channel. Project activities will result in a total of 1.5 acres of permanent impacts to streambed.</p>	NOD

2015072048	Granite Bay Memory Care Facility (PLN15-00051) Placer County --Placer The project proposes a Minor Use Permit to construct a one-story, 34,000 sf memory care facility on a 3.5-acre parcel. The facility would have 60 rooms and 66 beds for patients with advanced memory loss.	NOD	
2015081033	MD-33 Fairmead Wastewater System Improvements Project Madera County Chowchilla--Madera The proposed Project entails the conversion of septic systems within Fairmead, Madera County [County Maintenance District (MD) -33] to regional wastewater treatment at the existing City of Chowchilla Wastewater Treatment Facility (WWTF). The proposed project therefore, includes the installation gravity collection system within the town of Fairmead, a pump station, and approximately four mile forcemain pipe north to the existing Chowchilla WWTF. At build-out, MD-33 will require approximately 0.1 MGD of average dry weather flow and the existing plant has 0.8 MGD available average dry weather flow capacity. Therefore, upgrades to the Chowchilla WWTF are not necessary and operations will remain similar to current conditions.	NOD	
2015082012	Toplean Minor Land Division (PMLD 20140068) Placer County Roseville--Placer The project proposes a Minor Land Division to divide a 2.87-acre parcel into two parcels consisting of 1.74 acres and 1.13 acres.	NOD	
2015082018	Voltaix LLC - Mixed Use Development (PLN15-00092) Placer County --Placer The project proposes a Minor Use Permit, Tentative Parcel Map and Variances to construct two, two story commercial buildings with 9,533 sf of commercial floor area and up to four residential accessory units.	NOD	
2015082055	Mission Stevenson Fremont, City of Fremont--Alameda The project includes a tentative tract map (no. 8229), Design Review Permit, Private Street, and Preliminary Grading Plan to facilitate development of 14 residential buildings containing 77 multi-family residential dwelling units on an approximately 3.26-gross-acre project site located in the Central Community Plan Area.	NOD	
2010128201	Replacement of Well No. 14 with Well No. 10 Public Health, Department of Whittier-- The State Water Resources Control Board (SWRCB) as the lead agency will be issuing a water supply permit. The California Domestic Water Company has constructed a new well (Well No. 10) and the SWRCB is recognizing Well No. 10 as an existing facility.	NOE

2015098470	Civic Center Johnson & Warren Building #402 (Annex) - 7th Floor, Minor Alterations General Services, Department of San Francisco--San Francisco The California Department of General Services (DGS) is performing tenant improvements on the 7th Floor of the annexed building (constructed in 1996) in order for the Department of Rehabilitation to occupy vacated space. The tenant improvements include building a demising wall, expanding the existing conference room, install a new reception counter, upgrade cabinetry, signage, and install assistive listening device to comply with the American's with Disabilities Act.	NOE	
2015098471	Civic Center Johnson & Warren Building #402 (Annex) - 7th Floor, Minor Alterations General Services, Department of San Francisco--San Francisco The California Department of General Services (DGS) is performing tenant improvements on the 7th Floor of the annexed building (constructed in 1996) in order for the California Public Utilities Commission to occupy vacated space. The tenant improvements include installing a new cabinet and sink, reconfiguring existing modular system furniture, and Americans with Disabilities Act (ADA) compliance upgrade which include installation of new signage and an assistive listening devise.	NOE	
2015098472	Replacement/Relocation of Wheelchair Lift -- 4th Floor General Services, Department of Sacramento--Sacramento DGS proposes to replace and relocate the existing non-compliant vertical wheelchair lift on the 4th Floor West Wing. The proposed location for the new lift will allow for compliance into the lift as well as clearance into the Committee Room entrance door. Original plans show that stairs exist in the current location of the lift. Removal of the existing lift will expose existing concrete stairs. The stairs will be repaired as necessary prior to carpet installation. These stairs will serve as an additional path to the other hearing rooms and also as a path to the East Annex, easing congestion in a high traffic area.	NOE	
2015098473	Hungry Valley State Vehicular Recreation Area - Over/Under Culvert Parks and Recreation, Department of Gorman--Los Angeles This project is to install four culvert pipes in the Quail Canyon Special Event Area to create a feature called an over and under culvert. This feature will consist of four culvert pipes approximately forty two feet in length and twelve feet in diameter, connected together with culvert straps. The bottom of the culverts will be placed just below grade, and the top covered by soil. The end result is a feature which can be ridden through and over by OHV's which will utilize the area. Approximately three feet of soil, two islands of vegetation, and fencing must be removed from the site. Soil and road base will be mixed together and placed on top of the culverts.	NOE	
2015098474	Water Main Replacement Susanville, City of Susanville--Lassen The project consists of replacing older water mains with 6" PVC water mains including needed fittings, isolation valves, fire hydrants, new services and minor repairs to sidewalk and/or meter boxes where needed. The streets proposed are	NOE
