Integrated Climate Adaptation and Resiliency Program (ICARP)

Agenda Item 5 | Defining Vulnerability and Public Sector Implementation Actions

Technical Advisory Council

December 8, 2017 | Sacramento, CA

Integrating Vulnerability into the TAC Visions and Principles

- Recommendation
  - Staff recommends the TAC focus the definition on "social vulnerability"

- Proposed next steps
  - Once TAC adopts definition of vulnerability, OPR staff will include information on how state, regional and local implementation actions address conditions of "social vulnerability"
  - Presentation from OEHHA on the 2017 Update to the Indicators of Climate Change in California at TAC's Q1 2018 meeting

Discussion Questions

1. Does the Council support the staff recommendation to focus on "social vulnerability"?

2. Are there components of the Climate Justice Working Group definition that should be incorporated into the TAC's definition of vulnerability?

3. Does the Council have feedback or modifications to the proposed next steps?

Public Sector Implementation Actions and Metrics

- Recommendation
  - Approve ICARP public sector implementation actions and metrics for state and local governments (regional implementation actions to be discussed during a subsequent meeting)

- Proposed next steps
  - OPR staff will bring regional implementation actions/ metrics for future consideration in early 2018
  - OPR will bring the draft Annual Planning Survey to the TAC to ensure the 2018 survey questions reflect the TAC's SB 379 implementation actions
  - OPR will request a presentation to the TAC from the Government Operations Agency once the Sustainability Roadmaps are completed and published

Discussion Questions

1. Do adjustments need to be made to the state and local implementation actions prior to adoption?

2. Are there suggestions for regional implementation actions?
