IDENTIFYING ADAPTATION STRATEGIES

Purpose

- Equip local and regional governments with the latest adaptation resources and planning methodologies
- Incorporate findings from the 2018 Safeguarding California Plan
- Integrate with the Adaptation Clearinghouse
 - including potential alignment with federal 5-step process on US Climate Resilience Toolkit
 - Develop a web-based tool
- Streamline with California's Fourth Climate Change Assessment and other State climate documents
- Integrate with LHMP and other planning processes, which will ultimately lead to funding opportunities for implementation

Process/Timeline

Late 2018
Early 2019

- Collect public input
- Analyze feedback & compile list of needs
- Map out content-develop plan

Mid 2019

- Develop initial drafts
- Release 45-day public review draft
- Implement necessary changes

Late 2019

- Publish & promote finalized draft
- Development of a web application tool
- Build-out of online interface on Adaptation Clearinghouse

Stakeholder Input

- Seeking input from the government and community-based leaders in local and regional climate preparedness through:
 - Public workshops and webinars
 - APG update needs assessment [survey](#) on the Cal OES website
- Currently determining additional engagement channels to ensure end-users are included throughout the process

Local Jurisdiction Engagement through ICARP

- Ideas to discuss:
 - Establish formalized, programmatic group with representatives from various local jurisdictions
 - Host user-ability testing with the review committee throughout the APG content development phase and APG web tool development
 - Monthly or bi-monthly public webinars open for the committee and any local government representatives interested in joining
 - Incorporate EJ into review committee or create a separate EJ task force
