

Integrated Climate Adaptation and Resiliency Program: *Impact Report and 2020 Program Recommendations*

Technical Advisory Council Meeting

December 2019

Report Outline

- Introduction
- CA Climate Challenge & Response
- Role of ICARP in Response
- Conclusion and Program Recs for 2020

Introduction

- Climate change in California and the importance of integrated climate action
- What is ICARP?
- What is a Resilient California
- Definitions of Mitigation, Adaptation, and Resilience
- Goal of this report

California's Climate Challenge & Response

- Climate change in CA – risks and events
- History of response and action at State level
- With ongoing and emerging challenges, gaps that emerged

Role of ICARP in CA's Response

- Functions & role of OPR (administer ICARP, among many tasks)
- ICARP role and value add
- Deep dive into TAC and Clearinghouse
- Solutions to challenges that are useful and replicable:
 - Case studies, testimonials, call-out boxes

Conclusion & Focus for 2020

- Next steps and recommendations for ICARP and to support adaptation and resilience
 - *METRICS*
 - *TOOLS & GUIDANCE*
 - *EMERGING ISSUE AREAS*
 - *VULNERABLE COMMUNITIES*
 - *ADAPTATION CLEARINGHOUSE – new & existing resources*
 - *FUNDING & FINANCING*
 - *COORDINATION*

TAC Discussion

- What do we want to highlight as case studies, and why?
- Which recommendations stand out to you for 2020 based on program evolution, current capacity, and gaps in the field?
- What are we missing in this draft to finalize in late 2019/2020?

Outreach & Next Steps

- What do you want the final product to look like?
What design elements, etc. must be incorporated?
- Suggested outreach & engagement around the final report for biggest impact?
- Internal process → Use TAC input on Report recommendations to guide work in 2020 & deliver a strategic workplan to TAC Spring 2020

Thanks!
