

ICARP Technical Advisory Council (TAC) Work Plan At-A-Glance (Calendar Year 2020)

This 2020 work plan seeks to make meaningful advancement on California's integrated approach to climate change while maintaining a level of flexibility given the TAC's charge, as specified in Senate Bill 246, to be responsive to timely, urgent, and critical issues. Below are the five priorities that were discussed during the last quarterly meeting of the ICARP TAC in December 2019 and then during a work group meeting of the ICARP TAC on February 6, 2020. While this work plan is subject to change over the course of the year in scope and scale, and particularly as the COVID-19 situation evolves, it gives structure and continuity to the ICARP TAC's work ahead on the identified priority areas.

PRIORITY	Quarter 1	Quarter 2	Quarter 3	Quarter 4
Resilience Metrics and Measurable Outcomes	<p>Metrics work introduced and scoped at April TAC meeting</p> <p>[pending TAC approval] Kickoff of work group on resilience metrics</p>	<p>Presentation on resilience metrics work to date, with invited experts and report out from work group on initial findings</p>	<p>Potential public, community workshop to get feedback on metrics</p> <p>Potential presentation from Sierra Nevada Conservancy ecosystem services dashboard and Tahoe Conservancy on metrics work</p>	<p>Final technical and research report on state of resilience metrics developed and delivered to decision-makers and end users</p>
Decision Support Tools and Guidance		<p>Draft engagement and outreach strategy on Adaptation Clearinghouse (AC) shared and feedback solicited from ICARP TAC, as well as plan for beta testing of Adaptation Planning Guide (APG) integration into AC</p>	<p>Updates on AC engagement and outreach</p> <p>Overview of updates to AC and draft plan for future updates to AC</p> <p>Ongoing: APG beta test</p>	TBD
Local Implementation	<p>SB 379 survey report released by OPR staff</p>	<p>Draft technical advisory (TA) on fire hazard planning shared for discussion and feedback from ICARP TAC</p> <p>Housing, land use, and wildfire discussion led by OPR and HCD staff</p>	<p>Next steps from housing, land use and wildfire planning discussion in Q2</p>	TBD
Funding and Financing	<p>SB 30 Climate Change Insurance Work Group (CCIWG) and ICARP TAC partnership/sub-work group kick-off; discussion led by OPR and California Department of Insurance (CDI) staff</p>		<p>CCIWG work group recommendations released and presented to ICARP TAC and CDI</p> <p>Sub-work group recommendations shared with CDI and ICARP TAC</p> <p>Overview of 2020-21 budget</p>	TBD
Climate Equity and Vulnerable Communities		<p>SGC's Community Assistance for Climate Equity (CACE) Program: Technical Assistance Guidelines and other updates discussed with ICARP TAC</p>	<p>TBD, tied to budget and funding</p> <p>Potential public, community workshop on metrics for vulnerable communities (tie-in to proposed metrics workgroup)</p>	<p>CACE: *tentative* Regional Climate Collaboratives Program Guidelines released/shared</p> <p>Potential broader programmatic discussion with ICARP TAC on CACE</p>
ICARP progress	Ongoing: Develop annual ICARP report, and performance indicators to evaluate program progress
