

First Survey: *Continuous Improvement*

Q 1: Have the past iterations of the Strategy been useful to you?

Who were the respondents?

- From all 10 regions of CA
- Most prevalent affiliations: Individual (29%), State government (25%), Local government (14%)

Q 2: Where have there been gaps in the past iterations of the Strategy, both within the document itself and in its implementation?

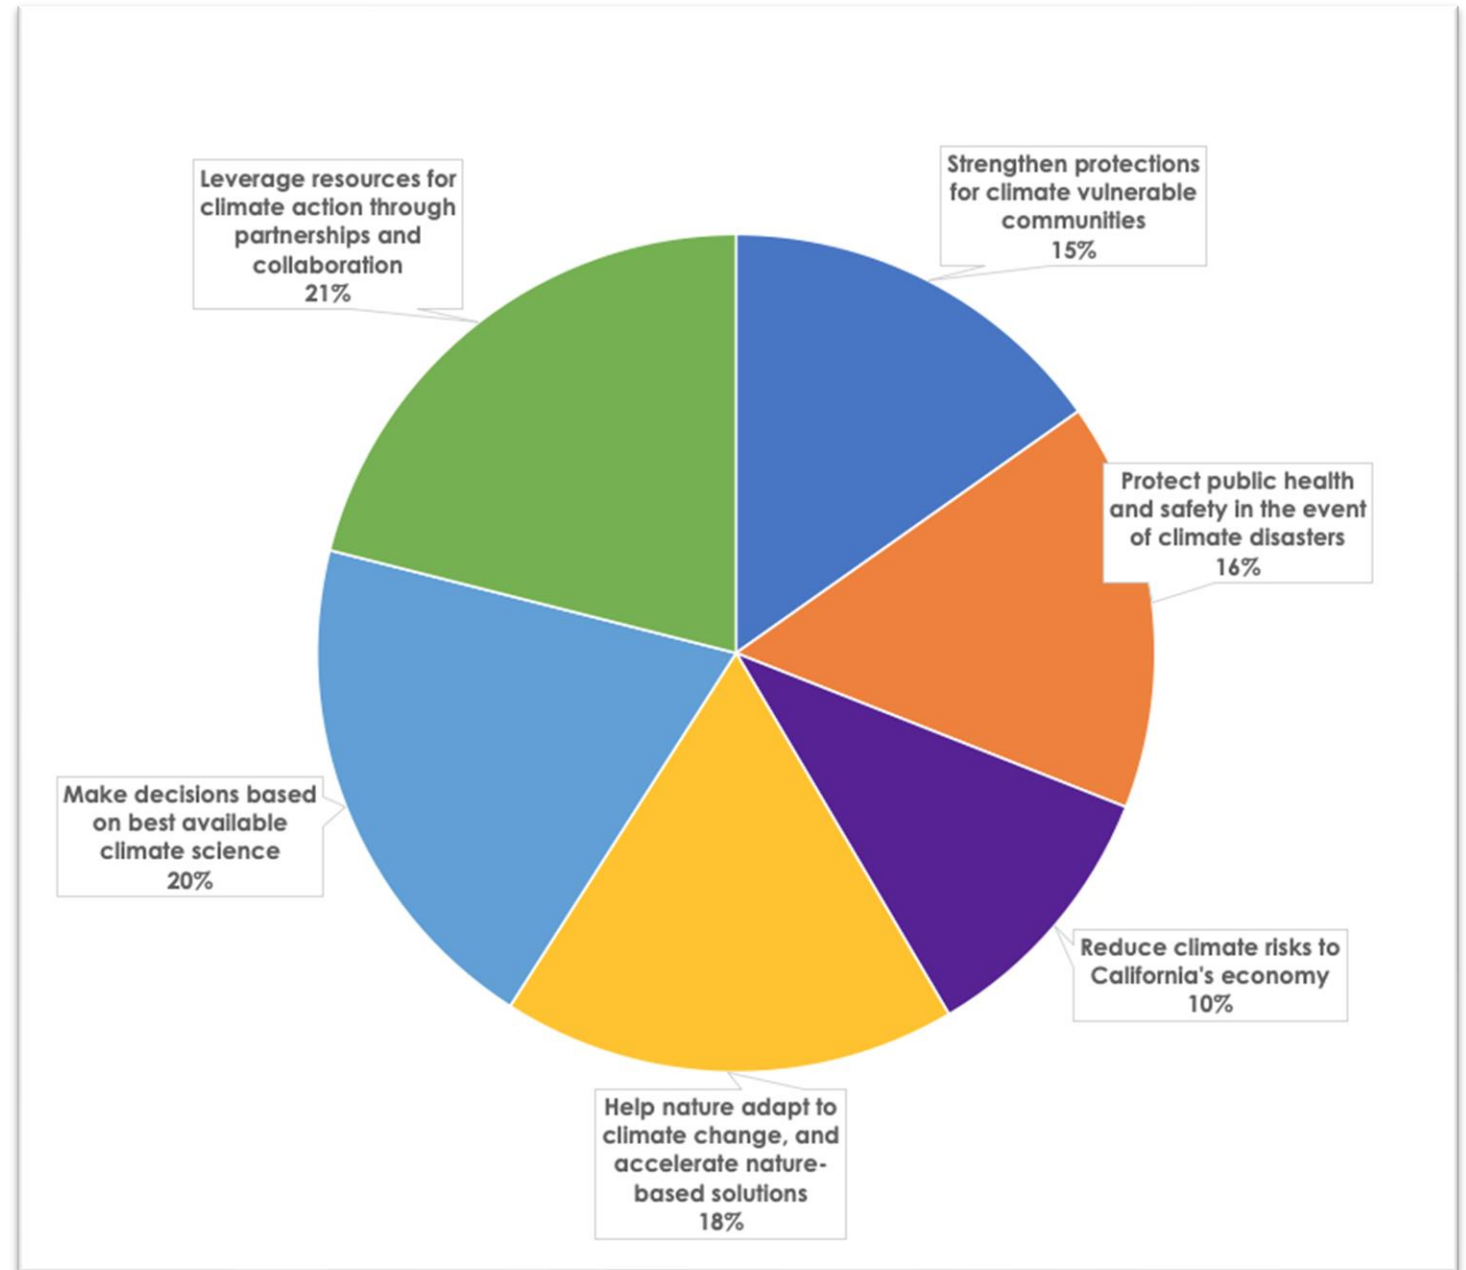

- Insufficient consideration for specific subject areas (29%)
- Need for actionable goals (16%)
- Lack of funding, resources and technical assistance for jurisdictions to implement the Strategy (15%)
- Need to measure progress (7%)

First Survey: Continuous Improvement

Q 3: What are key climate resilience priorities, and how can the State Adaptation Strategy best support them?

Where did respondents identify gaps in past Strategies? What do they believe should be priorities for the 2021 Strategy?

- Alignment of adaptation efforts across State, regional, and local efforts
- Measuring progress through metrics

Respondent priorities organized by the draft 2021 State Adaptation Strategy priorities
