

Recap, Update & Next Steps: ICARP TAC Annual Report

Agenda Item 4 | ICARP Update

Technical Advisory Council

Sept 20 | Jurupa Valley

Recap – March/June Meeting

- Overview of ICARP work streams in March and June
 - → Clearinghouse
 - → Technical Advisory Council
- Discussed priorities going forward in new Administration
- **March:** Explored concept of an Annual Report to advance our work, purpose & objectives per SB 246
- **June:** Discussion about structure, content, design, how the report advances the conversation, and commitment to continue scoping it in context of other efforts happening across the state

Annual Report – Goal

- Highlight TAC's accomplishments and progress to date
- Provide assessment and outline a roadmap of where we are going in California on adaptation, resilience, and integrated climate action; highlight opportunities and needs for further action
- Align with vision and principles, and closely with the TAC's charge per Senate Bill 246, and our work on Senate Bill 379

Annual Report – Priority Topics and Themes

- Technical assistance
- Land-use purview
- Cross-jurisdictional
- Weave science into annual report
- Highlight emerging challenges for local, regional, state
- Climate equity considerations
- Local planning and implementation

Annual Report – Comments from TAC Members

- Report on what local governments identify as the gaps and risks
- Help others understand importance of this work and next steps
- Frame around land use and long range planning
- Consistent with the charge of the TAC; role in advising OPR
- Consider staff capacity and timeline for adoption
- How will annual report move the needle?
- How best to knit diversity of topics in a succinct, coherent way?

Details & Next Steps

Timing

- Potentially December adoption per discussion at June TAC meeting

Format

- Short, digestible, readable; potentially with a short executive summary

Process and Next Steps

- Two web-based work group meetings (**mid and late October**)
- ICARP staff to draft & continue to incorporate feedback from March, June, work group meetings
- TAC adopts, delivers to OPR Director given TAC's role in advising OPR

Questions

From June meeting:

- Are there other topics the Annual Report could explore to advance implementation of adaptation and resilience efforts?
- Other comments on goal, format, priority topics?

Looking forward:

- Suggested topics for web-based work group meetings?
