

TAC Workgroup Meeting: ICARP Report

Technical Advisory Council Workgroup

October 30, 2019

Outline & Objectives

- Review of current (working) goal, vision of report
- Overview of timeline
- Today's workgroup discussion
 - Outline of ICARP report
 - Discuss content including how the TAC's values and purpose are best reflected via key examples
 - Open discussion

Recap: Current Goal & Vision

- Highlight TAC's accomplishments and progress to date
- Provide an overview of where we have been in California on adaptation, resilience, and integrated climate action, and outline next steps for ICARP
- Align with vision and principles, and TAC's charge per Senate Bill 246, and our work on Senate Bill 379

Timeline

- **October 30 (Today):**
 - Feedback via web-based work group meeting
- **November:**
 - ICARP staff draft & continue to incorporate feedback from March and June TAC meetings and work group meeting
- **December 6 and onward:**
 - Discussion and consideration of report at TAC meeting
 - Deliver Report to OPR Director given TAC role to advise OPR
 - Annual report thereafter

Report Outline

1. Introduction
2. State of Play
3. Role of ICARP in Landscape
4. What's Next?

1. Introduction

- Climate change in California and the importance of integrated climate action
- What is ICARP?
 - Background on the legislative charge of ICARP per SB 246
 - Overview of ICARP's Vision and Principles
 - Components of ICARP
- Profiling the Technical Advisory Council (TAC): Who is it?
- Working goal of this report

2. State of Play

- Assessment of where California is on adaptation and integrated climate action
- Ongoing and emerging challenges, gaps, and risks

3. Role of ICARP in Landscape

- ICARP goals in light of these challenges
- What actions is ICARP trying to take and what are we trying to achieve
- Solutions to challenges that are useful and replicable:
 - Case studies, testimonials, key topics covered
- Benefits of ICARP involvement and criticality of integrated approach
 - Resources added to, and accessed from, the Adaptation Clearinghouse
 - Priority areas that have been advanced and expanded

4. What's Next? Conclusion

- How does this report and synthesis of work both advance the conversation and leave people feeling motivated and engaged?
- Topically, what is on the horizon over the short and long-term?
- Next steps and recommendations for ICARP and to support adaptation and resilience

Case studies, testimonials, examples

- SB 379 assessment
- Caltrans SB 1 case studies on Clearinghouse
- Local government examples to show impact of ICARP
- Greater dialogue around environmental justice & vulnerable communities
- Coordination with tools and initiatives such as Cal-Adapt and APG

Open Discussion

- What is our goal? What feeling are we trying to evoke with readers?
- Key content and topics to incorporate?
- What is the appropriate name?
- Metrics to measure progress from year to year?

Thanks!
